Over the last 20 years, applied general equilibrium (AGE) modelling has developed from a small academic research program into a routinely used policy assessment tool. Major governments and international agencies maintain AGE research groups, and call for their input to a variety of trade, tax, and other resource allocation issues. This book is a collection of papers representative of recent activity in this field. Contributions have been grouped in-

to a methodological section, a trade section, and a section on energy issues, and this division accurately indicates the focus of the volume. Readers will thus have access to up to date techniques and results currently being used by researchers at the forefront of the research program.

In contemporary philosophy, substantive moral theories are typically classified as either consequentialist or deontological. Standard consequentialist theories insist, roughly, that agents must always act so as to produce the best available outcomes overall. Standard deontological theories, by contrast, maintain that there are some circumstances where one is permitted but not required to produce the best overall re-

sults, and still other circumstances in which one is positively forbidden to do so. Classical utilitarianism is the most familiar consequentialist view, but it is widely regarded as an inadequate account of morality. Although Professor Scheffler agrees with this assessment, he also believes that consequentialism seems initially plausible, and that there is a persistent air of paradox surrounding typical deontological views. In this book, therefore, he undertakes to reconsider the rejection of consequentialism. He argues that it is possible to provide a rationale for the view that agents need not always produce the best possible overall outcomes, and this motivates one departure from consequentialism; but he shows that it is surprisingly

difficult to provide a satisfactory rationale for the view that there are times when agents must not produce the best possible overall outcomes. He goes on to argue for a hitherto neglected type of moral conception, according to which agents are always permitted, but not always required, to produce the best outcomes.

Inspired after meeting John F. Kennedy at a 1960 campaign fundraiser hosted by the Aldrich family, Chuck defies authority at his Pennsylvania boarding school, Sojie takes part in lunch counter sit-ins in Georgia, and Dick finally connects with his father in Hollywood.

The Second World War is long over but its legacy continues to tear a town - and a young boy's life - apart. Knud is growing up in Falster, a small Danish town in the 1960s. The war is over but the Germans are still hated and Knud has a German mother. Bullied and persecuted at school, he retreats into the eccentric world of his family's history - but he can't escape the fact that, for him, his parents, and his paternal grandparents, the war is still being fought. Depicting a town and a family devastated by prejudice, *Nothing But Fear* is written with empathy and venom in equal measure.

Never feel helpless again! A loved one is sick, your friend was just in an accident, a family member is facing an emotional crisis.... Have you ever desperately longed to reach out your hand and bring healing to these needs? At times, our hearts ache with the desire to help, but either we don't know how, or we are afraid and stop short. The truth is, the Holy Spirit within you is ready to heal the sick! Charles and Frances Hunter present solid, biblically based methods of healing that can bring not only physical health but also spiritual health and abundant life to you, your family, and everyone around you.

In March 1993, Secretary of Defense Aspin initiated a comprehensive review of the nation's defense strategy, force structure, modernization, infrastructure, and foundations. He felt that a department-wide review needed to be conducted "from the bottom up" because of the dramatic changes that have occurred in the world as a result of the end of the Cold War and the dissolution of the Soviet Union. These

changes in the international security environment have fundamentally altered America's security needs. Thus, the underlying premise of the Bottom-Up Review was that we needed to reassess all of our defense concepts, plans, and programs from the ground up. This final report on the Bottom-Up Review provides the results of that unprecedented and collaborative effort. It represents the product of hundreds of individuals' labor and dedication. It describes the extensive analysis that went into the review and the recommendations and decisions that emerged.

**SUPERANNO** This masterpiece takes its reader from Hip Hop's ancient origin to its modern day Matrix. Never before has a book been written about Hip Hop through the spiritual scope of the culture, or has examined the culture from a mystical perspective. The Black Dot cleverly accomplishes both, while providing plenty of fuel for a conspiracy theorist. Hip Hop Decoded reveals that Hip Hop is far deeper than just beats and rhymes, and masterfully illustrates that each element of Hip Hop (Graffiti, DJ, Emcee, and B-Boy) has an ancient origin (hieroglyphics, drummer, oracle, and dancer), as well as spiritual significance (earth, air, fire, and water).

The annual Index of Economic Freedom is a detailed, country-by-country analysis of the economies of 162 nations. For each country, it includes often hard-to-obtain 2001 data on taxes, foreign investment codes, tariffs, banking regulations, monetary policy and more. The Index ranks economies according to how free they are. A country's score on the annual Index is a measure of its overall economic health and its prospects for growth. Now in its eighth year, the Index of Economic Freedom is an indispensable handbook for anyone who invests or does business abroad. A must for every corporate and university library.

Minute-by-minute account of the offensive. Covers both the British attackers and the German defenders. Explains how and why the assault failed so badly.

Prior to 1862, when the Department of Agriculture was established, the report on agriculture was prepared and published by the Commissioner of Patents, and forms volume or part of volume, of his annual reports, the first being that of 1840. Newlywed vampires Sarah and Thierry de Bennicoeur have their whole undead lives ahead of them. And with Thierry's job as a consultant for the Ring sending them across the globe to solve one vampire cri-

sis after another, eternity may never have a dull moment. Sarah was hoping the honeymoon would literally last forever, but when Thierry receives a mysterious invitation to an auction held in an old Beverly Hills mansion, it's clearly time to get back to work. Thierry hopes to win a powerful amulet containing a wish-granting djinn that has eluded him for centuries. Unfortunately, Atticus Kincade, head of the vampire council, also has his eye on the item. When the auction's host reveals his unpleasant history with Thierry, and Sarah discovers a talking head in the freezer, things get even weirder than usual. But when the amulet goes missing, and everyone is suddenly trapped inside the mansion, the undead guests find themselves in mortal danger—and Sarah had better be careful what she wishes for.
