Exercise Technique Manual for Resistance Training, Fourth Edition With HKPropel Online Video, explains 100 resistance training exercises with step-by-step instructions, photos, and online video demonstrations. The essays in *Instinct for Survival* explore fundamental ideas about the ties of community, the trials and tribulations of family life, the sacrificial nature of public service, the yearnings of the spirit, and the tangled joys of teaching. From his childhood in Arkansas to his career as both Army officer and professor of literature, Pat Hoy uses his rich experiences as departure points in his quest for meaning. In "Mosaics of Southern Masculinity," Hoy recalls his absent father and develops a multilayered inquiry into male identity that includes memories of his own sons and reflections on the ways other southern writers have grappled with father-son relationships. "The Spirit Was Willing and So Was the Flesh" stems from Hoy's attempts to come to terms with the feminine aspects of his own personality and with the apparent dichotomy between the spiritual and the physical. Hoy toys with his own personal poetics and philosophy of writing in "Conversing with Images," where he articulates the unspoken power of images. A fascination with life's mysteries informs these essays, which together create a transcendent and marvelous mosaic of life.

Deception—the lies we tell ourselves and the lies we tell others—is the subject of this, Tove Jansson's most unnerving and unpredictable novel. Here Jansson takes a darker look at the subjects that animate the best of her work, from her sensitive tale of island life, *The Summer Book*, to her famous Moomin stories: solitude and community, art and life, love and hate. Snow has been falling on the village all winter long. It covers windows and piles up in front of doors. The sun rises late and sets early, and even during the day there is little to do but trade tales. This year everybody's talking about Katri Kling and Anna Aemelin. Katri is a yellow-eyed outcast who lives with her simpleminded brother and a dog she refuses to name. She has no use for the white lies that smooth social intercourse, and she can see straight to the core of any problem. Anna, an elderly children's book illustrator, appears to be Katri's opposite: a respected member of the village, if an aloof one. Anna lives in a large empty house, venturing out in the spring to paint exquisitely detailed forest scenes. But Anna has something Katri wants, and to get it Katri will take control of Anna's life and livelihood. By the time spring arrives, the two women are caught in a conflict of ideals that threatens to strip them of their most cherished illusions.

Of all the lasting innovations that William Wordsworth (1770-1850) brought to our literature, it is his discovery of nature and his fresh vision of human lives in the context of nature that have most influenced our cultural climate. Here, collected in this volume, are Wordsworth's finest works, some of the most beautiful poems ever written: from the famous lyrical ballads, including "The Tables Turned" and "Lines Composed a Few Miles Above Tintern Abbey," to the sonnets and narrative po-

ems, to excerpts from his magnum opus, *The Preludes*. By turning away from mythological subjects and artificial diction toward the life and language around him, Wordsworth acquired for poetry the strength and new sources of inspiration that have allowed it to survive and flourish in the modern world.

Sexbeat's self-titled song is definitive of the postpunk scene. It describes the originality, the freedom and the communal spirit of a subculture: old, young, poor, and rich a group that accepted it all. Released in 1983, the song is a generation's anthem about a scene caught between the outbreak of punk and grunge. With more complexity than punk and more darkness than pop's cheerful mentality, postpunk maintained prosperity because of its atmosphere and romance. The movement in its inception was nameless. It, as we found, has many definitions and associations. Some original members of the scene referred to themselves as punks, others new romantics, new wavers, the bats, or the morbids, for example. Goth often did not become a term until the late 1980s or, in some countries such as Peru, a label in the 1990s. Therefore, postpunk in all its variety, is deemed as the "single" word that encompasses all evolutions of the 1980s proto-punk alternative movement. In one decade, the genre evolved, grew darker and crossed borders: from Argentina to the Netherlands, Greece to Canada and Belgium to Japan. Even though the postpunk and goth timeline varied between countries, the movement began at approximately 1978 and concluded around 1992. Some regions reflected the economic challenges and sentiments towards social issues, while others relied on the individual desire to gain solace in a subculture that accepted diversity. To identify and encompass the words postpunk and goth are arduous since everyone has a different perspective on such definitions. There is no "one truth about their timeline or attributes. Therefore, this book" is about the music, the individual, and the creativity of a worldwide community rather than theo-

retical definitions of a subculture. Though not a complete historical essay on post-punk and goth, "Some Wear Leather, Some Wear Lace" is a visual and oral history of the first decade of the scene. The team found and interviewed both the performers and the audience in order to capture the community both on and off stage. Participants of the project dug through their personal archives for photographs of their past and these are placed alongside professional photography. By combining both personal collections and professional images, a unique range of fashions, bands and scenes are revealed within these pages."

Mexico has a rich literary heritage that extends back over centuries to the Aztec and Mayan civilizations. This major reference work surveys more than five hundred years of Mexican literature from a sociocultural perspective. More than merely a catalog of names and titles, it examines in detail the literary phenomena that constitute Mexico's most significant and original contributions to literature. Recognizing that no one scholar can authoritatively cover so much territory, David William Foster has assembled a group of specialists, some of them younger scholars who write from emerging trends in Latin American and Mexican literary scholarship. The topics they discuss include pre-Columbian indigenous writing (Joanna O'Connell), Colonial literature (Lee H. Dowling), Romanticism (Margarita Vargas), nineteenth-century prose fiction (Mario Martín Flores), Modernism (Bart L. Lewis), major twentieth-century genres (narrative, Lanin A. Gyurko; poetry, Adriana García; theater, Kirsten F. Nigro), the essay (Martin S. Stabb), literary criticism (Daniel Altamiranda), and literary journals (Luis Peña). Each essay offers detailed analysis of significant issues and major texts and includes an annotated bibliography of important critical sources and reference works.

Two decades of living is not nothing. It is everything we know. In *Twenty-One Years Young: Essays*, author Amy Dong examines the uncertainty, absurdity, and beauty in growing up. This poignant collection of essays is unabashedly intimate, drawing the reader into Dong's life as if they were a close friend. She masterfully evokes humor, nostalgia, melancholy, and euphoria to create scenes that are as vivid as they are profound. In this collection, you'll read essays such as "So It Goes" (in-

spired by the famous Vonnegut quip), in which Dong reflects on a near-death experience; "On Taking Care of Pets," a self-explanatory essay that provides the very best of belly laughs; and "The Man with the Magical Watch," in which Dong grapples with the pain-and joy-inherent to our limited existence. These essays urge readers to consider the meaning of a good life and, further, how they will choose to spend the rest of their moments. Fans of Didion and Sedaris alike will find themselves at home with this collection for its unyielding insight into young adulthood, travel, and life itself.

The Elements of Style William Strunk concentrated on specific questions of usage—and the cultivation of good writing—with the recommendation "Make every word tell"; hence the 17th principle of composition is the simple instruction: "Omit needless words." The book was also listed as one of the 100 best and most influential books written in English since 1923 by Time in its 2011 list.

How you can enrich your life by becoming a more skillful and engaged reader of literature We are what we read, according to Robert DiYanni. Reading may delight us or move us; we may read for instruction or inspiration. But more than this, in reading we discover ourselves. We gain access to the lives of others, explore the limitless possibilities of human existence, develop our understanding of the world around us, and find respite from the hectic demands of everyday life. In You Are What You Read, DiYanni provides a practical guide that shows how we can increase the benefits and pleasures of literature by becoming more skillful and engaged readers. DiYanni suggests that we attend first to what authors say and the way in which they say it, rather than rushing to decide what they mean. He considers the various forms of literature, from the essay to the novel, the short story to the poem, demonstrating rewarding approaches to each in sample readings of classic works. Through a series of illuminating oppositions, he explores the paradoxical pleasures of reading: solitary versus social reading, submitting to or resisting the author, reading inwardly or outwardly, and more. DiYanni closes with nine recommended reading practices, thoughts on the different experiences of print and digital reading, and advice on what to read and why. Written in a clear, inviting, and natural style, You Are What You Read is an essential guide for all who want to enrich their reading—and their life.

"Robert DiYanni and Anton Borst's Classroom Confidential provides a clear, compact guide to the basics of college teaching. Grounded in the authors' classroom experience, their pedagogical coaching at NYU's Center for the Advancement of Teaching, and their examination of the latest learning science research, it explains how to teach in the college classroom from a learner's perspective-what methods, principles, and activities achieve the best learning outcomes. Chapters address major topics from course and syllabus design to discussion-based teaching, critical reading, and assessment, while brief "inter-

ludes" cover various pedagogical elements and applications-including what to do on the first and last days of class and how to incorporate service and experiential learning into curricula. Throughout, the authors provide practical suggestions and strategies, while explaining the underlying pedagogical principles. They also address recent topics that promise to remain fixtures of the educational landscape, such as teaching with technology and teaching in a global context. They steer a middle course on technology, suggesting ways to maximize its benefits while minimizing its distractions. The book coheres around a philosophy of active learning and student engagement. DiYanni and Borst argue that teaching practices should challenge students to think and learn, requiring them to do things with newly acquired knowledge-create models, conduct experiments, debate issues, and more. The authors enlist reliable scholarly research to demonstrate that active learning, of the kind they advocate, achieves results: students learn more and better, and their learning is deeper and longer lasting. The authors' pedagogy echoes their epistemology, as they demonstrate how learning and teaching are inextricably intertwined, organic rather than mechanical activities"--

The extraordinary, groundbreaking novel from Laurie Halse Anderson, with more than 2.5 million copies sold! The first ten lies they tell you in high school. "Speak up for yourself--we want to know what you have to say." From the first moment of her freshman year at Merryweather High, Melinda knows this is a big fat lie, part of the nonsense of high school. She is friendless, outcast, because she busted an end-of-summer party by calling the cops, so now nobody will talk to her, let alone listen to her. As time passes, she becomes increasingly isolated and practically stops talking altogether. Only her art class offers any solace, and it is through her work on an art project that she is finally able to face what really happened at that terrible party: she was raped by an upperclassman, a guy who still attends Merryweather and is still a threat to her. Her healing process has just begun when she has another violent encounter with him. But this time Melinda fights back, refuses to be silent, and thereby achieves a measure of vindication. In Laurie Halse Anderson's powerful novel, an utterly believable heroine with a bitterly ironic voice delivers a blow to the hypocritical world of high school. She speaks for many a disenfranchised teenager while demonstrating the importance of speaking up for oneself. *Speak* was a 1999 National Book Award Finalist for Young People's Literature.
