tion wagon, you can find out what it's worth, and what people are paying for it, in the most comprehensive guide on the market. • More than 250,000 accurate price listings for cars of all eras • Exclusive 1 to 6 condition grading places values on all conditions, from show car to parts car • Covers every mass-produced U.S. car • Domestic cars, light trucks, and selected imported cars and trucks • Explanation of 1 through 6 condition rating system

Automakers are as prone to turn out clunkers as politicians are to lie. Their cars may be ugly, misconceived, badly built, diabolical to drive, ridiculously thirsty, or just plain unreliable. So which were the worst of the past 20 years? Includes advertising matter.

I was born and raised in Rockland County, which until the mid-fifties, was a region of New York State characterized by small villages and farms just 18 miles or so from New York City. After high school and college and having seen enough of "progress" destroying this wonderful way of life, my wife and I moved to a small community a few miles from Coopers-town, New York, home of the Baseball Hall of Fame. After raising three daughters and a career in education I decided to change the tempo of life and began a new occupation as a full-time writer of automotive history. This was simply an extension of what I had been doing since my preadolescent years when my brother and I would collect sales brochures from any auto dealer who wouldn't show us the exit/door, since we obviously had no cash, no credit and no intention of buying a new car. Ever since I was in elementary school I was fascinated by the hopped-up Fords and Chevys (and even an occasional Plymouth) of the late '30's and '40's that the older

"cool" boys drove to school. Recollections of those cars from long ago instantly came to mind when I first saw the PT Cruiser in 2000. Having previously written numerous articles and several books on Chrysler vehicles, my interest in the PT as the subject of a forthcoming vol-

ume was instantaneous.

This essential guide offers all the tools necessary to negotiate for the best price, including reliability ratings, profiles, and crash-test results for more than 210 new car models.
