Wanted: Company Daughters. Virtuous young ladies to become the brides of industrious settlers in a foreign land. The Company will pay the cost of the lady's dowry and travel. Returns not permitted, orphans preferred. Amsterdam, 1620. Jana Beil has learned that life rarely provides moments of joy. Having run away from a violent father, her days are spent searching for work in an effort to stay out of the city brothels, where desperate women trade their bodies for a mouthful of bread. But when Jana is hired as a servant for the wealthy and kind Master Reynst and his beautiful daughter Sontje, Jana's future begins to look brighter. Then Master Reynst loses his fortune on a bad investment, and everything changes. The house is sold to creditors, leaving Jana back on the street and Sontje without a future. With no other choice, Jana and Sontje are forced to sign with the East India Company as Company Daughters: sailing to a colonial Dutch outpost to become the brides of male settlers they know nothing about. Meet Lexi Carmichael, geek girl extraordinaire I spend my days stopping computer hackers at the National Security Agency. My nights? Those I spend avoiding my mother and eating cereal for dinner. Even though I work for a top-secret agency, I've never been in an exciting car chase, sipped a stirred (not shaken) martini, or shot a poison dart from an umbrella. Until today, that is, when two gun-toting thugs popped up in my life and my best friend disappeared. So, I've enlisted the help of the Zimmerman twins—the reclusive architects of America's most sensitive electronic networks—to help me navigate a bewildering maze of leads to find her. Along the way, my path collides with a sexy government agent and a rich, handsome lawyer, both of whom seem to have the hots for me. Hacking, espionage, sexy spy-men—it's a geek girl's dream come true. If it weren't for those gun-toting thugs... Sgt. Joe Massey (Retired) shuns the idea of being politically correct with this insider's account of what it's like to be a Washington, D.C. police officer. He leads readers on a series of adventures that span thirty years in law enforcement, beginning as a police rookie in 1983, to his days with the force's elite SWAT team, to his days with the force's Harbor Patrol Branch, and right up to his retirement in 2012. He learned early on that being a police officer is like being an artist: It's open to interpretation. You must make nonbelievers believe and crush anyone who challenges your authority. Over time, his fellow officers became family, and they supported each other through good times and bad. They did their jobs no matter how dangerous the situation-and concerns about public perception rarely entered the equation. Develop a newfound respect for the dangers that police officers face on a daily basis, as well as changes that are leading to "The Erosion of the Thin Blue Line."

Traces the history of the Honda company, looks at its most popular models of motorcycles, and describes Honda's successes in racing

In *Honda Motorcycles: The Ultimate Guide*, motorcycle historian Doug Mitchel traces the evolution of the Honda empire through the road bikes that changed the world. &#x26;#x26;From the earliest D-type two-stroke Dream, to the groundbreaking four-cylinder CD750 of the late 1960s, to the

modern sport bikes, Mitchel paints a year-by-year picture of Honda's fabulous history. This complete history, along with the must-have year-by-year model information and collector pricing, makes this book THE guide to own.

From reviews of the first edition: "well organized . . . Recommended as an introductory text for undergraduates" -- AAAS Science Books and Films "well written and illustrated" -- Bulletin of the American Meteorological Society

This is the definitive guide to identifying, buying and riding Japanese bikes from the 1960s to the early 1990s, concentrating on mainstream, affordable models from the `big four': Honda, Kawasaki, Suzuki and Yamaha. Fully illustrated in color throughout, the book provides a brief history of the Japanese motorcycle industry, its post-war rise and displacement of traditional British, European and American marques. Specific bikes are then grouped and discussed in detail, providing an essential reference for buyers and enthusiasts alike.

The Honda Gold Wing is one of the world's most recognizable and successful bikes: a grand tourer on a grand scale. Designed to bring car-like ride and comfort to the motorcycle world, the Gold Wing has a dedicated following that few other bikes can match. Phil West's history of this iconic machine tells the full story, from the launch of the GL1000 in 1975 to the low-down on the latest model.

Kevin Cameron is one of the most widely read motorcycle journalists in the world--for reasons that this collection makes immediately and undeniably clear. Here are the feature articles and columns that have made Cameron a must-read for motorcycle aficionados: stories of the racing life; interviews with top-notch racers; profiles of builders and engineers (like John Britten); accounts of changes in the racing world; analyses of riding techniques and winning technology; reports of races; and popular pieces about engine and suspension theory. With short introductions to each piece, Cameron puts his on-the-spot writing on motorcycle racing into context, and offers a quick, clear history of the best on bikes.

Touring on a motorcycle has never been more popular than it is today, but with more and more people hitting the open road, a growing number are doing so without the proper skills and information they need to survive the ordeal. Far too often the trip of a lifetime turns into an unmitigated disaster, leading to expensive breakdowns, arrests, lost wages, broken limbs, death, and even, on more than one occasion, divorce. Most people who travel aboard motorcycles have learned these lessons the hard way, if they've survived long enough, but now readers of the *Motorcycle Touring Bible* can learn an easier way; they can learn from author Fred Rau's mistakes rather than through the school of hard knocks.

Henry Sewall, son of Henry Sewall and Margaret Gresbrook, was baptized 8 April 1576 in Coventry, Warwickshire, England. He died in Rowley, Massachusetts in 1655/6. Ancestors, descendants and relatives lived mainly in England, Massachusetts, New York and Maine.

Arranged chronologically, presents a history of every major motorcycle model produced by the legendary company since 1903.

For decades the crown jewels of Japan's postwar manufacturing industry, motorcycles remain one of Japan's top exports. *Japan's Motorcycle Wars* assesses the historical development and societal impact of the motorcycle industry, from the influence of motor sports on vehicle sales in the early 1900s to the postwar developments that led to the massive wave of motorization sweeping the Asia-Pacific region today. Jeffrey Alexander brings a wealth of information to light, providing English translations of transcripts, industry publications, and company histories that have until now been available only in Japanese. By exploring the industry as a whole, he reveals that Japan's motorcycle industry was characterized not by communitarian success but by misplaced loyalties, technical disasters, and brutal competition.

The Complete Idiot's Guide to Motorcycles, Fourth Edition, is the most complete book on motorcycles, covering everything from how to choose and maintain a motorcycle and how to buy appropri-

ate gear, to how to ride safely, and how to make the most out of trips on the open road.

For his eighth birthday, Emilio Scotto received a World Atlas. Promptly he announced his plan to make a route that would pass through all the countries of the world, a route he named BLUE ROAD ONE. When, some years later, he found himself astride a black 1100 Honda Gold Wing motorcycle, Blue Road One beckoned, and Scotto set off on a journey that would last more than a decade, take him virtually everywhere in the world, and land him in the Guinness Book of World Records. This is his story, a thrill ride that begins in his native Argentina, crosses Panama in the tumultuous time of Noriega, Mexico in the midst of an earthquake, and finds him broke in L.A. where, in a chance meeting, Muhammad Ali gives him fifty dollars and a signed book. Breaching the Iron Curtain, crossing the Berlin Wall at Checkpoint Charlie, being blessed by the Pope, set upon by cannibals in Sierra Leone, fleeing Somalia on a freighter, Scotto's adventures would be unbelievable if they weren't true. His tale of touring the world from Tunisia to Turkey, Petra to Afghanistan, Yugoslavia to Singapore, traveling miles enough to take him to the moon and back, is unlike any ever told. Come along, for the ride of a lifetime.

Covers 1200cc models. (Does not cover fuel-injected models.)
