Shikshapatri and Vachanamrutam are the basic scriptures of the swaminarayan sampradaya. Shikshapatri is written by Shree Sahajanand Swami. It is a sort of code of conduct, a set of rules of moral behavior, for social decorum, religious performance and worship of God. It aims at making man's life smooth, happy and achieves final liberation after his death. Vachanamrutam is a collection of 262 talks delivered by Shree Sahajanand Swami, during the last ten years of His life. The book contains the sum and substance of the basic philosophy of Swaminarayan Sampradaya. It has a distinct note of authority as the thoughts are based on His personal experience.

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana.

- The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming.
- Sure to delight fans of all breeds of dogs
- A universal and ideal book for all canine lovers with a sense of humor

Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York.

- A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show
- Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work
- Great for fans of *The Dogist: Photographic Encounters with 1,000 Dogs* by Elias Weiss Friedman, *Dogs* by Lewis Blackwell and Tim Flach, and *Underwater Dogs* by Seth Casteel

Are you considering competing in a negotiation competition? Have you been asked to teach a negotiation course? Have you been asked to coach a team of students as they prepare for competition? Are you about to engage in your first real negotiation? If your answer to any of the above questions was YES then this is the book for you. If your answer to all of the questions above was NO but you are still interested in negotiation then this is still the book for you.

Win or Go Home is a guide to competitive negotiation and a resource improving negotiation skill and strategy. The book is designed to provide highly technical concepts and theories in an easy to digest manner. The negotiation process is broken down into distinct chapters in order to allow the reader to consume the book cover to cover or to pick out the pieces that they need for immediate access. Each chapter also has self-assessment quizzes to highlight the core concepts of each chapter. As law schools seek to meet the challenge of preparing practice ready lawyers, the importance of negotiation skills has burst to the forefront. The ability to negotiate effectively is a critical skill for all practicing lawyers regardless of the area of practice. In response to the growing demand, the ABA and several law schools across the nation and internationally are hosting negotiation competitions to prepare law students to advocate effectively for their clients. Win or Go Home explains the process of a negotiation competition and provides specific strategies and techniques to increase the students' chances of winning not only in competition but in life. Win or Go Home is a great learning tool for coaches, advisors, professors and students preparing for competition; however Win or Go Home's strategies and techniques are equally relevant and practical

for anyone who wants to improve their negotiation skills. The book's user-friendly style addresses topics relevant to all aspects of negotiation: from beginning with a strong opening, to listening actively to the opposing side's interests, to making reasonable offers with supporting justifications, to creating package deals. This book is helpful for every skillset--from novice to expert.

The very essence of meditation is finding peace within the chaos that enshrouds us all in our daily lives, and if we can just get ourselves to look at that daunting word a little bit differently, we will come to see that we don't need to have that sacred temple or shrine wherein we seek to cast aside our thoughts and enter the blissful state of no mind we so desperately seek to attain. In this book you will learn all about the techniques that you will be able to use most effectively where it comes to performing meditation anywhere and anytime. You will come to see that what you once believed was a task best left to rishis and sages in the mystical Himalayas, is really something you can perform with the utmost ease, several times a day.

Suitable for all admirers of the piano, this work brings together more than 3,000 works for piano and orchestra. It comes with a supplement containing over 200 new entries.

Highlands, North Carolina, is not just home to cool mountain breezes, breathtaking views and world-class shopping and restaurants, it also boasts a rich and vibrant history. What started as the dream of two developers in 1875 has grown from a tiny hamlet into a beloved home and home-away-from-home for many. Join sixth-generation Highlands native Isabel Hall Chambers and her husband, Overton Chambers, as they share charming tales of old Highlands, from lazy summer days playing "town ball" to ice-skating and celebrating Christmas. Woven into this collection of articles from the Laurel are true stories of some of the area's grand old homes, its tradi-

tions and an array of interesting residents and visitors through the years, as told by fathers and grandfathers, old postcards, letters, deeds and even tombstones. Everyone who loves this unique mountain community will delight in Remembering Highlands.

An exhilarating, genre-bending exploration of curiosity's powerful capacity to connect ideas and people. Curious about something? Google it. Look at it. Ask a question. But is curiosity simply information seeking? According to this exhilarating, genre-bending book, what's left out of the conventional understanding of curiosity are the wandering tracks, the weaving concepts, the knitting of ideas, and the thatching of knowledge systems—the networks, the relations between ideas and between people. Curiosity, say Perry Zurn and Dani Bassett, is a practice of connection: it connects ideas into networks of knowledge, and it connects knowers themselves, both to the knowledge they seek and to each other. Zurn and Bassett—identical twins who write that their book “represents the thought of one mind and two bodies”—harness their respective expertise in the humanities and the sciences to get irrepressibly curious about curiosity. Traipsing across literatures of antiquity and medieval science, Victorian poetry and nature essays, as well as work by writers from a variety of marginalized communities, they trace a multitudinous curiosity. They identify three styles of curiosity—the busybody, who collects stories, creating loose knowledge networks; the hunter, who hunts down secrets or discoveries, creating tight networks; and the dancer, who takes leaps of creative imagination, creating loopy ones. Investigating what happens in a curious brain, they offer an accessible account of the network neuroscience of curiosity. And

they sketch out a new kind of curiosity-centric and inclusive education that embraces everyone's curiosity. The book performs the very curiosity that it describes, inviting readers to participate—to be curious with the book and not simply about it.

Have you ever listened to a sermon at church and felt overwhelmed because you did not understand the biblical references? Do you feel embarrassed be-

cause your kids seem to know more about the Bible than you do? Do you struggle to understand what certain books of the Bible are all about? If you answered yes to any of these questions, then Bible Synopsis is for you! Bible Synopsis is a "Reader's Digest" version of the Bible. Each chapter of the Bible is condensed into a clear and concise summary—no "thee's and thou's"—giving you "bottom-line," who-did-what type information. The book follows the same order as the books of the Bible, and includes helpful indexes at the end as well as a summary of important Bible characters. It can be used as an aid in personal or group Bible studies, and a complete CD with richly illustrated PowerPoint slides is available from Dr. Miller's website, Biblesynopsis.com. Bible Synopsis is a must read for anyone desiring to increase their understanding of the Bible. The Word will never be more succinct!

Child prodigies. Gifted and Talented Pro-

grams. Perfect 2400s on the SAT. Sometimes it feels like the world is conspiring to make the rest of us feel inadequate. Those children tapped as possessing special abilities will go on to achieve great things, while the rest of us have little chance of realizing our dreams. Right? In *Ungifted*, cognitive psychologist Scott Barry Kaufman—who was relegated to special education as a child—sets out to show that the way we interpret traditional metrics of intelligence is misguided. Kaufman explores the latest research in genetics and neuroscience, as well as evolutionary, developmental, social, positive, and cognitive psychology, to challenge the conventional wisdom about the childhood predictors of adult success. He reveals that there are many paths to greatness, and argues for a more holistic approach to achievement that takes into account each young person's personal goals, individual psychology, and developmental trajectory. In so doing, he increases our appreciation for the intelligence and diverse strengths of prodigies, savants, and late bloomers, as well as those with dyslexia, autism, schizophrenia, and ADHD. Combining original research, anecdotes, and a singular compassion, *Ungifted* proves that anyone—even those without readily observable gifts at any single moment in time—can become great.

People of all ages are fascinated by dinosaurs. Though their huge skeletons are an impressive sight, much of our sense of childlike wonder comes from artistic depictions of them in books, museum murals and popular culture. This book is about how such 'paleoart' is created, and the process of integrating scientific findings with artistic principles to produce accurate, expressive and arresting artworks of dinosaurs and the world

they lived in. *Drawing and Painting Dinosaurs* explores the anatomy and ecology of different types of dinosaurs including *Deinonychus*, *Apatosaurus* and *Tyrannosaurus rex*. It demonstrates how to interpret paleontological research through the lens of an artistic depiction with examples. There are over 250 illustrations feature pencil drawings, gouache, oil paint, and digital media. Step-by-step projects demonstrate the use of both traditional and digital media, the use of unique techniques and sources of reference, and building up dinosaur anatomy from basic shapes. Finally, it gives insight into how paleoart can be a means to advance knowledge through scientific analysis and prediction. With explorations of dinosaur anatomy, unique techniques for reference and a series of how-to instructions, this book will guide an aspiring paleoartist in learning how to breathe life into the past through art.

Featured on CBS *This Morning*, *Squawk Box*, MSNBC, CNN, Bloomberg, Forbes, *Fast Company*, *The New York Times*, and more. "Reading *Face to Face* is like being a fly on the wall, watching Brian Grazer work his magic. Utterly entertaining, this is how you become Hollywood's best producer." —Malcolm Gladwell, author of *Talking to Strangers* Legendary Hollywood producer and author of the best-selling *A Curious Mind*, Brian Grazer is back with a captivating new book about the life-changing ways we can connect with one another. Much of Brian Grazer's success—as a #1 *New York Times* best-selling author, Academy Award-winning producer, father, and husband—comes from his ability to establish genuine connections with almost anyone. In *Face to Face*, he takes you around the world and behind the scenes of some of his most iconic movies and television shows, like *A Beautiful Mind*, *Empire*, *Arrested Devel-*

opment, *American Gangster*, and *8 Mile*, to show just how much in-person encounters have revolutionized his life—and how they have the power to change yours. With his flair for intriguing stories, Grazer reveals what he's learned through interactions with people like Bill Gates, Taraji P. Henson, George W. Bush, Barack Obama, Eminem, Prince, Spike Lee, and the Afghani rapper activist Sonita: that the secret to a bigger life lies in personal connection. In a world where our attention is too often focused downward at our devices, Grazer argues that we are missing an essential piece of the human experience. Only when we are face to face, able to look one another in the eyes, can we form the kinds of connections that expand our world views, deepen our self-awareness, and ultimately lead to our greatest achievements and most meaningful moments. When we lift our eyes to look at the person in front of us, we open the door to infinite possibility.

This edited collection presents the latest cutting-edge research in the philosophy and cognitive science of temporal illusions. Illusion and error have long been important points of entry for both philosophical and psychological approaches to understanding the mind. Temporal illusions, specifically, concern a fundamental feature of lived experience, temporality, and its relation to a fundamental feature of the world, time, thus providing invaluable insight into investigations of the mind and its relationship with the world. The existence of temporal illusions crucially challenges the naïve assumption that we can simply infer the temporal nature of the world from experience. This anthology gathers eighteen original papers from current leading researchers in this subject, covering four broad and interdisciplinary topics: illusions of tempo-

ral passage, illusions and duration, illusions of temporal order and simultaneity, and the relationship between temporal illusions and the cognitive representation of time.

The amazing cult book about the incredible load-carrying motorbikes of Vietnam. Now in a new and updated edition.

Tens of thousands of mechanical engineers are engaged in the design, building, upgrading, and optimization of various material handling facilities. The peculiarity of material handling is that there are numerous technical solutions to any problem. The engineer's personal selection of the optimal solution is as critical as the technical component. Michael Rivkin, Ph.D., draws on his decades of experience in design, construction, upgrading, optimization, troubleshooting, and maintenance throughout the world, to highlight topics such as:

- physical principles of various material handling systems;
- considerations in selecting technically efficient and environmentally friendly equipment;
- best practices in upgrading and optimizing existing bulk material handling facilities;
- strategies to select proper equipment in the early phases of a new project.

Filled with graphs, charts, and case studies, the book also includes bulleted summaries to help mechanical engineers without a special background in material handling find optimal solutions to everyday problems.

Here is a rich selection of short, meaningful excerpts from the writings of Bishop Fulton J. Sheen. Forming a collection of landmarks along the way to spiritual peace, each paragraph in this book has been selected for the specific help and guidance it can bring in helping to make life worth living. These brief, perceptive selections from thirty of Bishop Sheen's books reveal a brilliant mind at work as it considers the affairs of men, both spiritually and temporally. Love, hate, frustration, passion, virtue, wisdom, peace--all that goes into the complexity of man's life on earth is considered with rare sensitivity and frequently penetrating humor. In this groundbreaking union of art and science, rocker-turned-neuroscientist Daniel J. Levitin explores the connection between music—its performance, its composition, how we listen to it, why we enjoy it—and the human brain. Taking on prominent thinkers who argue that music is nothing more than an evolutionary accident, Levitin poses that music is fundamental to our species, perhaps even more so than language. Drawing on the latest research and on musical examples ranging from Mozart to Duke Ellington to Van Halen, he reveals:

- How composers produce some of the most pleasurable effects of listening to music by

exploiting the way our brains make sense of the world • Why we are so emotionally attached to the music we listened to as teenagers, whether it was Fleetwood Mac, U2, or Dr. Dre • That practice, rather than talent, is the driving force behind musical expertise • How those insidious little jingles (called earworms) get stuck in our head A Los Angeles Times Book Award finalist, *This Is Your Brain on Music* will attract readers of Oliver Sacks and David Byrne, as it is an unprecedented, eye-opening investigation into an obsession at the heart of human nature.

Drawing on cutting-edge neuroscience, behavioral economic, and social psychology research, acclaimed author, former Harvard professor, and think tank founder Todd Rose reveals how so much of our thinking about each other is informed by false assumptions that drive bad decisions that make us dangerously mistrustful as a society and hopelessly unhappy as individuals. The desire to fit in is one of the most powerful, least understood forces in society. Todd Rose believes that as human beings, we continually act against our own best interests because our brains misunderstand what others believe. A complicated set of illusions driven by conformity bias distorts how we see the world around us. From toilet paper shortages to kidneys that get thrown away rather than used for transplants; from racial segregation to the perceived "electability" of women in politics; from bottled water to "cancel culture," we routinely copy others, lie about what we believe, cling to tribes, and silence people. The question is, Why do we keep believing the lies and hurting ourselves? Todd Rose proves that the answer is hard-wired in our DNA: our brains are more socially dependent than we realize or dare to accept. Most of us would rather be fully in sync with the social norms of our respective groups than be true to who we are. Using originally researched data, *Collective Illusions* shows us where we get things wrong and, just as important, how we can be authentic in forming opinions while valuing truth. Rose offers a counterintuitive yet empowering explanation for how we can bridge our inference gap, make decisions with a

newfound clarity, and achieve fulfillment.
