Fragile Things is a collection of oddities, retellings, poetry, spin-offs, and queer creations of Neil Gaiman's colorful imagination. Some of the stories have been published elsewhere, like Sunbird and October In The Chair , which were included in his M Is For Magic compilation, and I love Neil Gaiman.

This book is well up with any spy crime thriller. It seems that accountants have become the new action heroes. The shadowy world with very dubious morality where there are no good guys left me a bit disturbed and might have lowered the rating.
