The prophets were chosen by Allah to guide mankind to the Divine Path. They faced many difficulties and suffered severe hardships in their efforts to call their straying people to obey and worship Allah. This edition of *Stories of the Prophets* presents the lives of Allah's prophets (peace and blessing be upon them). The stories were written by the renowned Islamic scholars Maulana Sayyed Abul Hasan Ali Nadwi. He is one of the greatest living authorities on Islam and his works are used as textbooks through the Arab and Muslim world. This translation from a major Arabic work provides English speaking Muslims with the benefits of Maulana Sayyed Abul Hasan's scholarship. The stories which have been drawn from the Holy Quran constantly reflect the authors depth of knowledge. They are written in a lively style with subtleties explained and descriptions vividly portrayed to provide the reader with a clear picture of each Prophet's mission. Each story is a delight to read and should provide both adults and children with a fresh insight into the life of the men Allah chose to guide their communities. The story of the last Prophet has not been included in this edition as it deserves a book to itself. To ensure that young people receive all the guidance, knowledge and inspiration that *Stories of the Prophets* offers, a workbook is included.

Through a dual engagement with the unconscious in psychoanalysis and Islamic theological-medical reasoning, Stefania Pandolfo's unsettling and innovative book reflects on the maladies of the soul at a time of tremendous global upheaval. Drawing on in-depth historical research and testimonies of contemporary patients and therapists in Morocco, *Knot of the Soul* offers both an ethnographic journey

through madness and contemporary formations of despair and a philosophical and theological exploration of the vicissitudes of the soul. *Knot of the Soul* moves from the experience of psychosis in psychiatric hospitals, to the visionary torments of the soul in poor urban neighborhoods, to the melancholy and religious imaginary of undocumented migration, culminating in the liturgical stage of the Qur'anic cure. Demonstrating how contemporary Islamic cures for madness address some of the core preoccupations of the psychoanalytic approach, she reveals how a religious and ethical relation to the "ordeal" of madness might actually allow for spiritual transformation. This sophisticated and evocative work illuminates new dimensions of psychoanalysis and the ethical imagination while also sensitively examining the collective psychic strife that so many communities endure today.

Why are there so many schools of Buddhism? Are the differences just cultural, or do they have fundamentally different visions of Dhamma? This work assesses the claims of the traditions, and takes into account to findings of modern scholarship. It pays special attention to the origins of the monastic orders. If we are to understand the differences, and sometimes tensions, between the schools of Buddhism today, we must examine more closely the forces that spurred their formation.

This text, *The Decisive Solution* is an eloquent assessment on one of the most profound issues facing the indigenous minority communities around the world in general and a roadmap specifically articulated for the indigenous Muslim minority in America for self determination. In this text Shaykh Muhammad Shareef lays down a case against the historical and continuous discriminatory practises of the American government against it's indigenous communities, such as the 1st Nation Native Americans, Hispanics, Africans and Muslim minorities. The Shaykh highlights the fact that the powers that be, will violate their own laws and principles in order to deny it's indigenous populations true liberty. In the face of such tyranny, this book is a revolutionary ideal.

This work examines the debt owed by Europe to the Moors for the Renaissance and the significant role played by the African in the Muslim invasions of the Iberian peninsula. While it focuses mainly on Spain and Portugal, it also examines the races and roots of the original North African before the later ethnic mix of the blackmoors and tawny Moors in the medieval period. The study ranges from the Moor in the literature of Cervantes and Shakespeare to his profound influence upon Europe's university system and the diffusion via this system of the ancient and medieval sciences. The Moors are shown to affect not only European mathematics and map-making, agriculture and architecture, but their markets, their music and their machines. The ethnicity of the Moor is re-examined, as is his unique contribution, both as creator and conduit, to the first seminal phase of the industrial revolution.

Almost unique among the works of Muslim scholars, this book, which for Malikis is *THE Risalah*, was written for children when the author was 17 years old. The sheer pedagogical audacity of introducing children to what is in effect a complete overview of life and human society escapes most people and most Muslims today. The author commences with *usul ad-deen* - the roots of the *deen* - a survey of the vital Muslim worldview, proceeding then through purification and the acts of *'ibadah*, the ordinary transactions such as marriage, divorce, buying and selling and so forth, and concluding with chapters of a general and miscellaneous nature. The book is here matched by the outstanding lucidity of the translation which reveals a book written in a narrative descriptive style rather than in a didactic scholarly tone, making it breathtakingly accessible. So significant was the book's authorship and so quickly was it recognised that its

author became known as the "Young Malik" and his work became a foundational pillar of the madhhab of the School of Madinah and has endured for a millennium, in use both to teach absolute beginners as intended and as a resource for scholars. This edition presents the translation in parallel with the Arabic text without vowelisation (tashkeel). Ibn Abi Zayd al-Qayrawani (310 AH/922 CE - 386 AH/996 CE) was born in Qayrawan in Tunisia, arguably one of the most important Muslim cities after Makkah and Madinah, which was always famous for learning and in particular for its staunch adherence to the school of the people of Madinah as transmitted by Imam Malik. His life was overshadowed by the Fatimid dynasty, during which he and the other teachers of Qayrawan calmly kept alive the teaching of the Book of Allah and the Sunnah. Among his other well-known works are the massive multi-volume *an-Nawadir wa'z-Ziyadat* and a *mukhtasar-abridgement of the Mudawwanah of which only the Kitab al-Jami'*, a comprehensive work containing a wide variety of topics, is extant. Aisha Bewley is the translator of a large number of classical works of Islam and Sufism, often in collaboration with Abdalhaqq Bewley, notably *The Noble Qur'an - a New Rendering of Its Meanings in English*; *Muhammad, Messenger of Allah - the translation of Qadi 'Iyad's ash-Shifa'*; *the Muwatta' of Imam Malik ibn Anas*; and *Imam an-Nawawi's Riyad as-Salihin*.

Choose from among the suggested activities to include practice with grammar, dictionary, and composition skills. Phonic, spelling, and punctuation rules are listed for easy reference. Word lists are divided by grade, 1 through 8. However, this method is easily adapted for older students or adults who need remedial work. Because of its multi-sensory and simplified approach to spelling, and because each child can work at his own pace, this program is ideal for students with learning disabilities. Grades K-12.

The *Hidayah* has dominated the field of Islamic jurisprudence since the day it was written over 800 years ago. It has been the primary text used by Muslims jurist to issue authentic and reliable ruling on Islamic law according to the school of Imam Abu Hanifa (d 150H/767CE). The *Hidayah* commands such an authoritative position amongst the doctors of law that the knowledge of a scholar who has not read it is not considered reliable. It has been a standard text in the curricula of Islamic law schools since the 12th century. It was first translated into English by Charles Hamilton in 1791. Around 70 huge commentaries, some spread over more than a dozen volumes have been written on it. The number of explanatory glosses is in thousands. Comprehensive in content and conveniently organized, with the publication of this all previous works that discussed Islamic jurisprudence according to the Hanafi law become outmoded and soon fell into disuse. If revealed books are not taken into account, never has a book received so much attention as the *Hidayah*. This landmark publication of the *Hidayah* not only has

been translated in its entirety for the first time but has been done so from Arabic, the language in which it was written.

The Tadmuriyyah is a treatise written by Ibn Taymiyyah. The famous scholar of Islam, who strives always against the Bid'ah (innovation) until the end of his life, yet he did not stop his journey to the truth. So it is not strange that he said "What could my enemies possibly do to me? My paradise is in my heart; wherever I go it goes with me, inseparable from me. For me, prison is a place of (religious) retreat; execution is my opportunity for martyrdom; and exile from my town is but a chance to travel." He has many books written in different fields of knowledge. This treatise discussed the Aqeedah; which included names and its attributes of Allah (ﷻ); Shar'iah and Al-Qadar, which considers the vital part of Islamic religion. It is also one of the most important books use in Salafi to shape the Aqeedah. This treatise is about some answers related to Aqeedah given to the students of Tadmur. Here Ibn Taymiyyah indicates that it is obligatory for the seeker of Tawhid to firm believe on whatever Allah says about Himself and to deny whatever Allah denies about Himself; the duty of 'Ibad towards command is to obey, towards prohibition is to avoid, after that he should seek forgiveness from Allah(ﷻ). This treatise has many explanations but Taqrib Tadmuriyyah is considered as one of the best among these explanations; given by Shaykh al-Uthaymeen.

The perfect book to introduce young children to Allah.

Each person is born in a religious environment that is not of his/her own choice. From the very beginning of human existence in this world, they are assigned the religion of their family or the ideology of the state. By the time individuals reach

their teens they usually accept the beliefs of their parents or that of their particular society. However, when some people mature and are exposed to other beliefs and ideologies, they begin to question the validity of their own beliefs. Seekers of truth often reach a point of confusion upon realizing that believers of every religion, sect, ideology and philosophy all claim to have the one and only correct religion or ideology. There are only three possibilities. They are either all correct; all wrong or only one is correct and the rest are wrong.
