MKDOLL - FULLER JAYLEN

The LexisNexis Legislation Series Intellectual Property Collection 2020 consolidates the full text of all major intellectual property legislation and treaties into one helpful resource. This edition consolidates the legislation to include amendments as in force on and from 1 October 2019 including, inter alia, those arising from the Intellectual Property Laws Amendment (Productivity Commission Response Part 1 and Other Measures) Act 2018. For the first time this edition includes all major intellectual property Regulations making it an invaluable reference tool for students and practitioners alike.

Provides a comprehensive and in-depth analysis of

labour law. The book features extensive case referencing and scholarly yet accessible discussion of the key areas of employment law, particularly pertaining to the law of individual contracts. This edition features analysis of recent significant developments.

Corporations Law: In Principle, 10th edition, continues its tradition of being one of the most easy to understand texts on corporate law in Australia. Since the last edition, there have been many significant developments in both legislation and case law as a result of a range of government reviews and administrative changes.

A practical introductory guide to legal research which identifies the sources and explains how to use them. It includes

worked examples, flow charts, diagrams and exercises to explain both hard copy and electronic research methods. In this new edition, the authors have updated and improved the text.

A guide to the 5490 books in these fields in the 'Australian Books in Print' database as at June 1992, and out-of-print titles notified since December 1989, with titles indexed under 3617 subject headings.

This fifth edition of Business and Corporations Law has been revised in line with changes that have occurred in business and corporations law since the publication of the fourth edition in 2020. During 2020 and 2021, the federal, state and territory governments implemented temporary measures to overcome the dis-

combobulating effect of the pandemic on the economy: for example, by relaxing rules governing the statutory minimum amount owed before debt recovery proceedings could commence and lengthening the period of time allowed for unpaid debts to remain outstanding. Business and Corporations Law 5th edition covers various legal rules, particularly where governments' temporary measures have become permanently enshrined in business and company law. Features * a practical learning guide for students studying business, corporations or commercial law in undergraduate or postgraduate courses in Accounting, Commerce or Law * twelve-chapter format complements the usual length of the Australian tertiary level semester, and its content conforms to the CPA Australia (Certified Practising Accountants) accreditation requirements * each Chapter has revision and problem questions, with lecturer online support available Related Titles * Coleman et al, Law in Commerce, 7th edition * Peters & Harris, Company Law: Theories, Principles and Applications, 3rd edition * Hargovan, Adams & Brown, Australian Corpo-

rate Law, 7th edition Fundamentals of Contemporary Corporate Law is a corporations law commentary and source book with a fresh approach to company law. Suitable for students in law and business schools undertaking courses in corporations law at both undergraduate and JD levels. Fridman at Curtin, Harris at UTS. Australian Insolvency Law provides an accessible and concise explanation and analysis of the important aspects of both personal and corporate insolvency law and practice. The fully revised fourth edition takes the reader through the technical and procedural aspects of each regime, to provide a clear understanding of fundamental concepts, technical detail and practical issues. International aspects of insolvency law and, in particular, the cross-border insolvency regime, are also included. Key cases, legislation and further reading are clearly set out, and problems are provided to enable readers to test their knowledge of applicable concepts. Features ∫ Accessible and easy to read ∫ Problem questions and case studies assist development of analytical and problem solving skills ∫ Aligned to Australian insol-

vency units

The second edition of Dispute Resolution in Australia: Cases, Commentary and Materials reflects the dynamic growth of dispute resolution not only in Australia, but worldwide. In recent times, dispute resolution has undergone a considered analysis of its role in society at the community, commercial, political and legal levels. Added to this is its increasing relevance to, and its impact on, other disciplines, such as counselling, psychology and the law. Taking account of all these developments in dispute resolution, this new edition brings the law up-to-date and features: A new chapter, "The Future of Dispute Resolution"; An expanded chapter, "Ethics, Standards and Dispute Resolution"; Insight into the new National Mediation Accreditation System; Incorporation of the recent family law developments; New material on recently emerged hybrid forms of dispute resolution, such as collaborative law; and Commentary on the vanishing trial phenomenon. Dispute Resolution in Australia: Cases, Commentary and Materials, 2nd Edition will be invaluable to both students and practitioners alike for

its practical guidance and analysis in this ever-growing area of the law.

Explains the nature of assignment, commencing with a definition of assignment, before outlining and giving examples of choses in action.

Designed to help the reader gain a deeper understanding of property law by explaining (in plain language) the analytical framework of the subject.

This text provides a comprehensive range of cases, materials and legislation. It addresses key rights, responsibilities and liabilities of participants in commercial activities, including the extensive jurisprudence emerging from the Trade Practices Act 1974 and the key changes in the ever evolving financial industry.

The fourth edition of Corporate Criminal Liability has been thoroughly revised, expanded and updated to explain the criminal process from the perspective of the corporate defendant with a scholarly analysis of the principles of corporate liability. In particular, it provides expert discussion on the latest practice on DPAs, issues with identification theory and delegation, questions of jurisdiction, and sentencing. The work

also explains specific offences such as insolvency restrictions, Companies Act offences, and corporate manslaughter. New to this edition: Considers all key cases since the last edition including the Barclays case on corporate identification; Reviews practice in deferred prosecution orders (DPOs) after investigations into Rolls Royce and Tesco; A fully updated Appendix table as a 'quick reference' guide to specific offences, how they are tried, and aspects of sentencing.

The most substantial Australian text on the law of agency. Part of the LexisNexis Butterworths Black and Silver hard cover series, the second edition of Law of Agency updates the both case law and legislation as it relates to agency law. The author discusses Australian law in both a local and international context. Since the first edition there have been High Court judgments and hundreds of decisions in common law courts. Importantly, the book incorporates the significant statutory changes in the Australian Capital Territory, New South Wales, Tasmania and other jurisdictions. The book is structured in the same manner as the first

edition and takes you through agency law as it relates to tort, equity, company law, partnership law, banking law, professional responsibility, insurance law and the power of attorney.

Presents extracts from the leading decisions made under the competition provisions of the Trade Practices Act 1974, and State application legislation, together with extracts from relevant Parliamentary Committees, Australian Competition and Consumer Commission publications and academic commentary.

The book retains the structure adopted in the ninth edition and incorporates various innovations, including an increased focus on the transactional context within which the substantive law operates. Chapter 1 deals with conceptual issues that underpin and define the ambit of property law. Later chapters examine four broad issues with which the law of property is concerned: the fragmentation of proprietary interests (Ch 2, 3 & 6); the acquisition and transfer of proprietary interests (Ch 4); and the enforceability of proprietary interests and related priority issues (Ch 4 & 5). The book also examines the rules regulat-

ing the creation and enforcement of particular interests in land, including leases, easements, restrictive covenants and mortgages. Important recent appellate court cases and statutes covered include: Cassegrain· Akiba· Brown· Congoo· Sidhu· Jea Holdings· Sogutlu Student learning support for this book is available on Campus. An exciting range of lecturer support (developed by the authors and lecturers) is available for lecturers who prescribe this book to their students. Features E-learning resources containing maps, legislation, video-material and a test bank engage and support the students in their understanding of the subject. Business and Corporations Law, 4th edition An essential teaching and learning resource on the legal prin-

ciples applicable to business and company law Australian Corporations Legislation 2022 (2 Volume Set) The authoritative guide to key corporations legislation in Australia.

Intellectual property law in Australia is a constantly changing field. Developments in technology, such as in the life sciences and in the digitisation of the creation, analysis, distribution and use of information, along with economic globalisation, are having an increasingly significant impact on this field of law. The third edition of Australian Intellectual Property Law has been updated to include the most important recent developments in intellectual property law, including: • the 'Raising the Bar' amendments to the Patents Act and case law concerning the meaning of 'manner of manufacture' • proposed reforms to the Copyright Act • the High Court's consideration of trademarks in various contexts • recent statutory changes and court judgments. Through its comprehensive discussion of the black-letter aspects of the law, and primary emphasis on legal principles and complexities, Australian Intellectual Property Law continues to offer a de-

tailed and scholarly insight into Australian intellectual property law for students and professionals.

Offers comprehensive coverage of the key topics and emerging themes in private sector corporate governance.

Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical analysis of sports law in Australia deals with the regulation of sports activity by both public authorities and private sports organizations. The growing internationalization of sports inevitably increases the weight of global regulation, yet each country maintains its own distinct regime of sports law and its own national and local sports organizations. Sports law at a national or organizational level thus gains a growing relevance in comparative law. The book describes and discusses both state-created rules and autonomous self-regulation regarding the variety of economic, social, commercial, cultural, and political aspects of sports activities. Self-regulation manifests itself in the form of by-laws, and encompasses organizational provisions, disciplinary rules, and rules of play. However, the trend to-

wards more professionalism in sports and the growing economic, social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities. This form of regulation appears in a variety of legal areas, including criminal law, labour law, commercial law, tax law, competition law, and tort law, and may vary following a particular type or sector of sport. It is in this dual and overlapping context that such much-publicized aspects as doping, sponsoring and media, and responsibility for injuries are legally measured. This monograph fills a gap in the legal literature by giving academics, practitioners, sports organizations, and policy makers access to sports law at this specific level. Lawyers representing parties with interests in Australia will welcome this very useful guide, and academics and researchers will appreciate its value in the study of comparative sports law. "Shipping Law Fourth Edition is the landmark work in its field and provides comprehensive coverage of all aspects of maritime law from a uniquely Australian perspective. The Fourth Edition of this wel-

l-respected text on Australian maritime law captures the many developments that have occurred since the last edition published in 2004 and will include comparative reference to English and American law. Commonly-occurring maritime law issues such as ship financing, insurance and liability are dealt with in useful detail alongside more occasional matters concerning pollution from ships, shipwrecks and the salvage of vessels. ... Shipping Law Fourth Edition is an authoritative and invaluable resource for maritime law practitioners, maritime insurers and organisations involved in transporting goods by sea."--Back cover.

Introduces corporate law in Australia with authoritative, contextual and critical analyses of the law of corporations and financial markets.

This new edition of Kevin McGuinness's widely cited treatise on corporate law covers the wealth of case law and legislative changes since 1999. Discover how major corporate scandals and amendments to the Canadian Business Corporations Act and Ontario Business Corporations Act have impacted the way your clients operate-and what your new

responsibilities involve. Canadian Business Corporations Law, formerly known as The Law and Practice of Canadian Business Corporations, combines all commentary and analysis into a convenient, user-friendly volume that you can easily bring to court or the boardroom.

In this, the third edition of Private International Law and the Internet, Professor Dan Svantesson provides a detailed and insightful account of what is emerging as the most crucial current issue in private international law; that is, how the Internet affects and is affected by the four fundamental questions: When should a lawsuit be entertained by the courts? Which state's law should be applied? When should a court that can entertain a lawsuit decline to do so? And will a judgment rendered in one country be recognized and enforced in another? He identifies and investigates twelve characteristics of Internet communication that are relevant to these questions, and then proceeds with a detailed discussion of what is required of modern private international law rules. Professor Svantesson's approach focuses on several issues that have far-reaching practical conse-

quences in the Internet context, including the following: • cross-border defamation; • cross-border business contracts; • cross-border consumer contracts; and • cross-border intellectual property issues. A wide survey of private international law solutions encompasses insightful and timely analyses of relevant laws adopted in a variety of countries including Australia, England, Hong Kong, the United States, Germany, Sweden, and China as well as in a range of international instruments. There is also a chapter on advances in geo-identification technology and its special value for legal practice. The book concludes with two model international conventions, one on cross-border defamation and one on cross-border contracts; as well as a set of practical check-lists to guide legal practitioners faced with cross-border matters within the discussed fields. Professor Svantesson's book brings together a wealth of research findings in the overlapping disciplines of law and technology that will be of particular utility to practitioners and academics working in this new and rapidly changing field. His thoughtful analysis of the interplay of the

developing Internet and private international law will also be of great value, as will the tools he offers with which to anticipate the future. Private International Law and the Internet provides a remarkable stimulus to continue working towards globally acceptable rules on jurisdiction, applicable law, and recognition and enforcement of judgments for communication via the Internet.

Updated to include recent important developments in Australian intellectual property law, this is an essential text for students and professionals.

Opens with a consideration of the social, economic and historical context of criminal law before examining the principles that form the basis of criminal law in Australia. Case studies of important decisions influencing the development of the law are included and interesting issues are highlighted.

Business and Corporations Law 4th edition introduces students to the foundations of the Australian legal system and the principles that govern contract and corporations law, business structures, and management of companies. It provides an overview of financial reporting and au-

diting and the foundation concepts pertaining to receivership, voluntary administration and liquidation. This book also explains in clear and plain language the nature of corporate membership and the duties of directors tasked with running the business affairs of the company. To support learning of course content within the broader business context, this title includes chapter summaries, margin notes, key cases and legislation, diagrams and flowcharts. It also comes with a suite of online resources for both students and lecturers. Features Chapters 8, 9, 10 and 11 have been revised extensively, with some material being redistributed between chapters to achieve parity across the book's twelve-chapter format. New material on directors, company secretaries, equity versus debt financing, shares and debentures, oppressive conduct and the whistleblowing protection regime has been added. Additional internet references for further reading and end-of-chapter questions are included where appropriate. "Business Law for Managers 4th edition is a concise and focussed examination of the issues which need to be covered in an

undergraduate business law unit. This edition incorporates 'Concise Australian Commercial Law (CACL)', an abridged version of Turner and Trone's 'Australian Commercial Law 31st edition (ACL)' compiled by Roger Gamble of Monash University. In addition, Ben French has included two chapters: Employment Law; and Anti-discrimination Law and Equal Employment Opportunity Law, thereby ensuring the work meets the specific requirements of the business law unit at Griffith University ... Case summaries throughout the text help to illustrate key principles of particular interest to readers. Students undertaking business law studies will no doubt find this text a comprehensive and valuable resource ..."--Back cover.

This text offers accessible but comprehensive coverage of all aspects of torts law likely to be encountered in a student course, including nuisance, defamation and the economic torts. The chapters on negligence focus on the civil liability legislation enacted throughout Australia, particularly in respect of the standard of care and breach of duty, causation and scope of liability de-

fences and assessment of damages for personal injury and include discussion of case law under this legislative regime.

Brings a unique and fresh approach to this dynamic area of law. Each chapter has significant impact as extracts from complementary sources are incorporated, placing the regulation of company law within the broader business context in which the law operates. The result is an all-encompassing, realistic view of the domain of company law.

Australian Corporate Law, 5th edition has been designed specifically for students studying corporations law as part of their business or commerce degree. This text aims to reduce the complexity of corporations law for students by providing clear explanation of legal principles and explaining how corporate law operates within the broader business context. It does this within a specifically designed learning framework that will enhance student learning and understanding of the presented material: oAo Key Statement and Key Cases highlight precedents and important cases oAo Case Examples present topical issues to help the reader see the law at work in a

broader commercial context oAo Revision Questions and Problem Exercises help reinforce learning oAo Glossary notes in the margin ensure that each term is immediately understood oAo Further Reading provides a springboard for deeper learning oAo Flowcharts are presented to assist in visual learning New to this Edition oAo Significant recent new cases in the James Hardie appeal, the Bell appeal and other recent appellate decisions oAo Recent legislative amendments, including business names legislation, executive remuneration and continuous disclosure oAo Additional cases and new case studies

"The work focuses on the contemporary situation and recent developments but also explains the historical context using analogies from popular culture. The new edition of Australian Competition Law has been fully revised and the discussion of recent case law has been expanded. A new chapter is included to provide readers with assistance on understanding case law in this area, and a chapter on Access Regimes has also been added." (LexisNexis) Corporations Law is an accessible text that covers

the full range of topics taught in an undergraduate corporations law course. It adopts a structure which helps students develop a greater understanding of the core subject. Using a straightforward style, the authors identify the key areas to study and help demystify even the most complex legal concepts. With a particular emphasis on problem solving, Corporations Law allows students to devel-

op their critical thinking skills and practise answering legal problem questions. Features • Suitable for undergraduate core units running in 1st and 2nd semester • Strong pedagogy provides a more accessible learning framework • Suitable as a practical up-to-date principle book • Includes extensive new online support materials for both students and lecturers Related LexisNexis Titles Austin and Ramsay, Ford's Principles
