### The Definitive Guide to Active Directory Disaster Recovery

When you set up disaster recovery for applications, you often need to recover Active Directory and DNS before you recover other application components, to ensure correct application functionality. You can use Site Recovery to create a disaster recovery plan for Active Directory. When a disruption occurs, you can initiate a failover.

In "Active Directory Disaster Recovery" Author Florian Rommel has created very readable, and usable title devoted to one of the least understood aspects of Microsoft's Active Directory technology. In a familiar and easily readable style, Mr. Rommel presents aspects of a widely used technology that is all to often overlooked even in large companies with competent staff.

### Active Directory Forest Recovery - Semperis

Catastrophic Active Directory Disaster Active Directory disasters take many forms, including ransomware and wiper attacks, IT mistakes and rogue employees.A disaster recovery solution must provide a fully automated recovery from a completely destroyed Active Directory, while avoiding malware re-introduction during the recovery process.

Many people have learned that truth the hard way. The statement implies that disaster recovery planning is a dreaded, overly cumbersome and time-consuming task—but if approached correctly, it doesn't have to be. Planning for disaster recovery and, more specifically, Active Directory disaster recovery doesn't need to be

overwhelming.

With Semperis ADFR, you can recover quickly and confidently from even the most catastrophic Active Directory disaster. "In the ransomware era, one of the most often overlooked considerations is backup and recovery of Active Directory. This represents a significant risk. I believe Semperis has a superior solution to this problem."

This can negatively impact your productivity for hours or even days, and as a result, cost your company revenue and its reputation. When this happens, you need a disaster recovery plan and an AD recovery tool to get you back up and running quickly. Quest® Recovery Manager for Active Directory is like an insurance plan for your AD environment.
