****Included on the Chief of Staff of the United States Air Force's reading list for 2008 and the Royal Air Force's Centre for Air Power Studies 2008 Reading List**** Dr. John Andreas Olsen has written an insightful, compelling biography of retired U.S.

Air Force colonel John A. Warden III, the brilliant but controversial air warfare theorist and architect of Operation Desert Storm's air campaign. Warden's radical ideas about air power's purposes and applications, promulgated at the expense of his own career, sparked the ongoing revolution in military affairs. Legendary in defense circles, Warden is also the author of *The Air Campaign: Planning for Combat* (republished by Brassey's, Inc. in 1989). Presenting both the positives and negatives of Warden's personality and impact in this objective portrait, Olsen offers a trenchant analysis of his revolutionary ideas and great accomplishments.

The secret CIA papers that prove that the government has been tracking UFOs and extraterrestrials for over 50 years In autumn 2016 the CIA sent to its website a cache of electronic files previously released under the Freedom of Information Act but housed at the National Archives. Among a variety of subjects were "unidentified flying objects." Finally, a stockpile of reports and correspondences were available for serious UFO researchers to examine at home. This book consists of selections from those secret files. Dan Wright spent 18 months selecting, editing, and organizing the 550 files that are relevant to UFO research and has produced a chronological collection of CIA documents spanning 1949 to 2000. Each chapter focuses on a particular year. The summary of documents for each year is followed by a section called "While You Were Away from Your Desk," which provides historical and cultural context for the document summaries and examines other sightings and con-

tacts that are not mentioned in the CIA files. Among the fascinating tidbits are: A memo to J Edgar Hoover about flying saucer reports The 1949 conference at Los Alamos that include Edward Teller, upper atmosphere physicist Dr. Joseph Kaplan, and other renowned scientists in which the participants debated whether recent incidents were natural phenomena or UFO sightings This is a must-have book for those fascinated by the history of UFO sightings and those interested in government secrets and cover-ups.

New York Times Book Review Editors' Choice • Winner of the 2018 Truman Book Award A gripping narrative of the Truman Administration's response to the fall of Nationalist China and the triumph of Mao Zedong's Communist forces in 1949--an extraordinary political revolution that continues to shape East Asian politics to this day. In the opening months of 1949, U.S. President Harry S. Truman found himself faced with a looming diplomatic catas-

trophe--"perhaps the greatest that this country has ever suffered," as the journalist Walter Lippmann put it. Throughout the spring and summer, Mao Zedong's Communist armies fanned out across mainland China, annihilating the rival troops of America's one-time ally Chiang Kai-shek and taking control of Beijing, Shanghai, and other major cities. As Truman and his aides--including his shrewd, ruthless secretary of state, Dean Acheson--scrambled to formulate a response, they were forced to contend not only with Mao, but also with unrelenting political enemies at home. Over the course of this tumultuous year, Mao would fashion a new revolutionary government in Beijing, laying the foundation for the creation of modern China, while Chiang Kai-shek would flee to the island sanctuary of Taiwan. These events transformed American foreign policy--leading, ultimately, to decades of friction with Communist China, a long-standing U.S. commitment to Taiwan, and the subsequent wars in Korea and Vietnam. Drawing on Chinese and Russian sources, as well as recently declassified CIA documents, Kevin Peraino tells the sto-

ry of this remarkable year through the eyes of the key players, including Mao Zedong, President Truman, Secretary of State Acheson, Minnesota congressman Walter Judd, and Madame Chiang Kai-shek, the influential first lady of the Republic of China. Today, the legacy of 1949 is more relevant than ever to the relationships between China, the United States, and the rest of the world, as Beijing asserts its claims in the South China Sea and tensions endure between Taiwan and the mainland.
