The Africa Yearbook is a reliable source of reference covering major domestic political developments, the foreign policy and socio-economic trends of all sub-Saharan states - all related to developments in one calendar year.

Persuasiveness. Influence. A certain something that makes it impossible for people to say no. Call it what you will, some people have it. DJ Sbu certainly does. It's the quality that has helped him evolve from an ambitious boy growing up on Tembisa's rough streets to a DJ, an entrepreneur, an author, a philanthropist and a speaker who graces stages around the world. In *The Art of Hustling* Sbu shares the secrets to cultivating this irresistible quality. Using events that have shaped his own life, he reveals how a positive outlook, resilience, hard work and determination can help you win in every sphere. This inspiring read also acts as a practical handbook, showing you how to apply *The Art of Hustling* to become a winning salesperson. It is DJ Sbu's firm belief that, if you know how to sell, you will never go hungry. He also believes that this simple skill holds the key to solving Africa's considerable unemployment problem. His passion for youth development comes through loud and clear in this easy-to-read, easy-to-use handbook. Full of practical examples, sound advice and no-nonsense insights, it's a must-have for every person who wishes to further their lives and their careers, whether in the corporate world or starting out on an entrepreneurial journey. DJ Sbu's career is testimony to his strength, resilience and spirit of innovation; the very qualities needed to get ahead in today's rapidly evolving business environment. In sharing his story, he hopes to ignite others' success. *Against the Run of Play* takes an intense look at Nigerian politics at a time when an entrenched political party was defeated in a presidential election after 16 unbroken years in power. This book offers the reader a narrative explanation and an unusual insight into the major human and institutional factors that led up to the defeat of President Goodluck Jonathan in 2015.

IN SUMMER 2010, Vice-President Goodluck Jonathan garnered unprecedented support among Nigerians and enormous goodwill from the international community in his epic battle to succeed the late President Umaru Yar'Adua as president. Propelled to power by his nation's local compradors and the "doctrine of necessity" in a country buffeted by sundry fissiparous tendencies, Mr. Jonathan, a minority from the Ijaw tribe won the 2011 Presidential Election convincingly in his own right and became

Nigeria's substantive president. Nigeria has managed to remain intact under Mr. Jonathan, but five years after he became president, Mr. Jonathan has alienated key go-to-power brokers and squandered the good luck that helped him to power. His prevarication and dour personality, inaction and dithering administrative style are fueling more viviparous pulls dogging the corporate existence of Africa's most populous nation. Whether Mr. Jonathan wins the forthcoming presidential elections in 2015 or gets the shellacking of his political life is for the Nigerian people to decide, but whatever the outcome of the election, the next four years will be extremely critical for Nigeria as a nation against the backdrop of the smorgasbord of problems that will confront the Nigerian leadership and the swirl of economic problems that will face majority of Nigerians.

A masterclass in becoming a wealth-generating entrepreneur! Do you have what it takes to become a billionaire? Written by the founder of Forbes Africa, this is a masterclass on how the brightest and most successful entrepreneurs across Africa made their fortunes, as well as a timely look at how the work of entrepreneurs can influence lives in Africa and create the jobs that empty state coffers can no longer afford. Chris Bishop gets up close and personal with the biggest names in business on the continent: Aliko Dangote, Patrice Motsepe, Nicky Oppenheimer, Christo Wiese, Wendy Appelbaum and Stephen Saad, among others. These are the stories of how they not only survived, but thrived, in the fast and furious world of African business: Narendra Raval, the penniless priest who became a steel baron; Tim Tebeila, the barefoot apple-seller who turned into a mining millionaire; Herman Mashaba, the 'knocksman' who went from running dice games and dealing drugs to running a city; Pascal Dozie, the economics student who studied with Mick Jagger ... This is a rich tapestry of stories about the super-wealthy and the qualities that make them so spectacularly successful, in arguably the most challenging economic arena in the world.

Diana Patton's autobiography, *Inspiration in My Shoes*, shares the monumental experience of a biracial young girl's journey through abuse, racism, and heartache to triumph, victory and overcoming all odds. It is a riveting read that proves no barrier is too high, no obstacle is too great, and that inspiration comes in many surprising forms.

This edited collection is the product of a National Research Working Group (NRWG) established by Said Adejumobi and supported by the Open Society Initiative for West Africa (OSIWA). It analyzes the

progress made in Nigeria since the return to democratic rule in 1999 and the prospects of democratic consolidation in the country.

Kasinomi is a book as eclectic, mysterious and colourful as the places and people it explores. eKasi, the lokasie, the South African township, once an apartheid ghetto, is today an amazingly transformed place. This township today is an eclectic mix of mansions, shacks, spaza shops, rocking taverns, hawkers, taxis and hot wheels. In this kasi there are vibrant businesses, energetic people, a tightly networked social community and abundant hope. That is not to say there isn't extreme poverty, suffering and dissatisfaction, particularly on the peripheries in the huge shack settlements, but to paint the place as a slum is a massive mistake. Kasinomi attempts to cast a light on the invisible matrix at the heart of South Africa's informal economies and the people who live in them. Living and doing business in African marketplaces requires an ethos uniquely suited to the informal, to the invisible, to the intangible. Kasinomi will take you down those rural pathways, weave between claustrophobic mazes of shacks, browse a muti market, visit a spirit returning ceremony and save money with gogo in a stokvel among many more people and places. After almost twenty years of focusing on marketing to the informal sector, GG Alcock, CEO of specialist marketing company Minanawe, showcases a number of groundbreaking and very successful case studies in this invisible informal world. His vivid anecdotes and life experiences and how they link to understanding and inspiration for business ideas will make you gasp, laugh and shake your head in wonder.

This book examines the significance of the 2015 elections in consolidating Nigeria's democracy, in the context of the difficulty of routinizing democracy since the attainment of nationhood in 1960 and the return to civil rule in May 1999, in particular. It offers a complete analysis of Nigeria's electoral process, outlining how the dynamics of limited changes in the constitutional, institutional, attitudinal and behavioural frameworks that underpin electoral competition played out in the elections. The authors further examine the conduct and outcome of the 2015 elections against the background of the pattern of electoralism that had been established since the return to democracy in 1999. In doing so, they draw attention to the dialectics of continuity and change that have been thrown up by the elections and how the lessons learned can be used to build a more enduring democratic system. The book will be of interest to students and academics of political science, development studies, democratisation and election studies, and African government and politics.

The revolutionary new book Alhaji Aliko Dangote reveals the answer to all questions about money, wealth, and success, which he can attribute to throughout his legendary career. You will discover the principles, methods and fundamental strategies he used to achieve prosperity and the achievement of his dream. In these pages, you will go to the exciting and wonderful discovery of the 21 Secrets that led to the building of his huge business empire valued at 25 billion dollars by Forbes magazine in its recent ranking in March 2014. Achille Wealth PhD, whose real name is Achille FOTSO Rostand, was born November 16, 1985 in the province of West Cameroon. He graduated in Quality Management of Higher Institute of Management. It is a rather unusual path but he defined himself as the messenger of the gospel of success and wealth. Indeed, at only 11 years old, he already obtained his inaugural. On his 16th birthday, his dad gave him the book How to Make Friends by Dale Carnegie. He started at a young age. It was then that he began to pay close attention to the principles governing human relationships, and especially figure out why some people succeed while

others fail. This is common in his country. He also read the biography of billionaire Victor Fotsi. After doing so, that was when he perceived wealth in his mind. In his thirst for more, he ended up referencing their works in his. These are Napoleon Hill (Think and Grow Rich), Deepak Chopra, Brian Tracy, Robert Kiyosaki, Anthony Robbins, David Schwartz (Magic to Think Big), Jim Rohn, Jack Canfield, Rhonda Byrne, Joseph Murphy, Stephen Covey, T Hav Ecker, Bob Proctor and more. This connection allowed him to understand that wealth or success is beyond any foundation and the principle of imagination, and above all starts with creative visualization. Everything starts first in the mind through positive thoughts, in the words of Norman Vincent Peale, to manifest in the real world or Physics. So this is his journey to learn more about the principles that govern the success of the most remarkable in history such as Andrew Carnegie, Henry Ford, John D. Rockefeller, Bill Gates, Carlos Slim, Warren Buffet, Mack Zukerberg, and many others. It focuses on the wealth from 2008 and closely analyzes the laws and principles that propelled it. This is a take on how Alhaji Aliko Dangote from Nigeria became the richest Black businessman in the world.

The SDGs, developed by the UN in 2012, focuses on 17 goals for the betterment of humanity and humanitarian causes. Among the core objectives of Shari'ah in Islamic finance is to offer a helping hand, emphasizing the efforts and scope of the SDGs. This book explores how Islamic ethical wealth

is structured to contribute to the SDGs and an overall socio-economic impact within the principles of Maqasid al-Shari'ah. Focusing areas such as Islamic micro-finance, wealth inclusion, corporate and agro-Zakat, Awqaf, SRI Sukuk, and green Sukuk, this book will feature contributions from the leading researchers in sustainability and Islamic finance and will be of interest to scholars, researchers, industrialists, NGOs, UNDP and students studying both areas.

Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' - discipline, self-reliance, ruthlessness - to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

This open access book discusses the challenges and opportunities faced by companies in an age that increasingly values sustainability and demands corporate responsibility. Beginning with the historical development of corporate responsibility, this book moves from academic theory to practical application. It points to ways in which companies can successfully manage their transition to a more responsible, sustainable way of doing business, common mistakes to avoid and how the UN Sustainable Development Goals are integral to any sustainability transformation. Practical cases illustrate key points. Drawing on thirty years of sustainability research and extensive corporate experience, the author provides tools such as a Step-by-Step strategic guide on integrating sustainability in collaboration with stakeholders including employees, customers, suppliers and investors. The book is particularly relevant for SMEs and companies operating in emerging markets. From a broader perspective, the value of externalities, full cost pricing, alternative economic theories and circular economy are also addressed.

Billionaires think differently than most people. If you took away all of Donald Trump's money, he would be right back to where he is today because of the way he thinks. Scot Anderson shares that if you learn to think like a billionaire, then you can become one. Scot takes you on the journey he took in changing the way he thinks. He went from getting by to having millions of dollars and on his way to getting billions. Scot teaches you how to think differently about money, investing, jobs, risks, problems, preparation, and time. As you begin to think like a billionaire, your life has no choice but to produce it.

'Extraordinary' TONY BLAIR 'Riveting' - PHILIPPE SANDS 'Brutal, brilliant and scurrilously funny' - MISHA GLENNY The real scoop isn't on the front page 'As FT editor, I was a privileged interlocutor to people in power around the world, each offering unique insights into high-level decision-making and political calculation, often in moments of crisis. These diaries offer snapshots of leadership in an age of upheaval...' Lionel Barber was Editor of the Financial Times for the tech boom, the global financial crisis, the rise of China, Brexit, and mainstream media's fight for survival in the age of fake news. In this unparalleled, no-holds-barred diary of life behind the headlines, he reveals the private meetings

and exchanges with political leaders on the eve of referendums, the conversations with billionaire bankers facing economic meltdown, exchanges with Silicon Valley tech gurus and pleas from foreign emissaries desperate for inside knowledge, all against the backdrop of a wildly shifting media landscape. The result is a fascinating - and at times scathing - portrait of power in our modern age; who has it, what it takes and what drives the men and women with the world at their feet. Featuring close encounters with Trump, Cameron, Blair, Putin, Merkel and Mohammed Bin Salman and many more, this is a rare portrait of the people who continue to shape our world and who quite literally, make the news.

You may not know the name Joy Mangano, but you probably know her mop--the Miracle Mop to be more exact. This book is the story of how Mangano built a QVC empire. This book is not endorsed by Joy Mangano and should be considered unofficial.

Bonang Mohale is a highly respected South African businessman, who is known as much for his patriotism and his active role in seeking to advance his country's interests as for the leading role he has played in companies like Otis Elevators, Shell South Africa and South African Airways, among others. Developed over 30 years of business experience, his insights have motivated change in organisations and individuals alike. As CEO of Business Leadership South Africa, he frequently shares his insights through speeches and articles on the role of business in South Africa and the core tenets of leadership. *Lift As You Rise* is a compilation of some of his spoken and written words in which Mohale reveals the issues he is passionate about, among them transformation, people development, constructive collaboration and integrity, and how they came to define his career and his life. He looks into the ideas behind his words and offers fresh thoughts on the subjects they cover. This well-balanced compilation is enhanced by contributions from others he has mentored or met on his journey which underscore who Mohale the man is, a fearless and energetic leader whose compassion, humanity and eternal optimism promote hope and encourage action. There is value in this book for leaders in all walks of life, but it is Mohale's hope that young people specifically, those rising through the ranks, will find his insights and experience inspiring, for they are the country's future leaders.

'Very funny on almost every page, wonderfully self-deprecating and very sharp on the ludicrous behaviour of the modern player' - Sunday Times 'The funniest man in British sport' - Metro \*\*A Sunday Times Sports Book of the Year\*\* \*\*Shortlisted for the National Book Awards\*\* \*\*Longlisted for the Telegraph Sports Book Awards Autobiography of the Year\*\* You become a footballer because you love football. And then you are a footballer, and you're suddenly in the strangest, most baffling world of all. A world where one team-mate comes to training in a bright red suit with matching top-hat, cane and glasses, without any actual glass in them, and another has so many sports cars they forget they have left a Porsche at the train station. Even when their surname is incorporated in the registration plate. So walk with me into the dressing-room, to find out which players refuse to touch a football before a game, to discover why a load of millionaires never have any shower-gel, and to hear what Cristiano Ronaldo says when he looks at himself in the mirror. We will go into post-match interviews, make fools of ourselves on social media and try to ensure that we never again pay £250 for a haircut that should have cost a tenner. We'll be coached and cajoled by Harry Redknapp, upset Rafa Benitez and be soothed by the sound of an accordion played by Sven-Goran Eriksson's assistant Tord Grip. There will be some very bad music and some very bad decisions. I am Peter Crouch.

This is How To Be A Footballer. Shall we?

Satan and his fallen angels - principalities and demons - are well and alive on the earth. They are not figments of peoples' imaginations but malevolent spirits fighting the Lord God Almighty, born-again Christians and the entire human race (Ephesians 6: 12). *The Kingdom of Satan Exposed!* is about their modus operandi and artifices in the world. The book exposed the organogram of the satanic world and the spread of false religions to lure the unwary and the ignorant into hell.

With more than 900 million consumers, the continent of Africa is one of the world's fastest growing markets. In *Africa Rising*, renowned global business consultant Vijay Mahajan reveals this remarkable marketplace as a continent with massive needs and surprising buying power. Crossing thousands of miles across the continent, he shares the lessons that Africa's businesses have learned about succeeding on the continent...shows how global companies are succeeding despite Africa's unique political, economic, and resource challenges...introduces local entrepreneurs and foreign investors who are building a remarkable spectrum of profitable and sustainable business opportunities even in the most challenging locations...reveals how India and China are staking out huge positions throughout Africa...and shows the power of the diaspora in driving investment and development. Recognize that Africa is richer than you think Africa is richer than India on the basis of gross national income (GNI) per capita, and a dozen African countries have a higher GNI per capita than China. Aim for Africa Two Opportunities exist in all parts of the market, particularly the 400 million people in the middle of the market. Find opportunities to organize the market From retailing to cell phones to banking, companies are succeeding by building infrastructure. Develop strategies for the most youthful market in the world Companies are recognizing opportunities from diapers to music to medicine in a market growing younger every day. Understand that Africa is not a "media dark" continent From Nollywood to satellite to broadband, media is exploding on the continent. Recognize the hidden strength of the African diaspora The African diaspora brings resources and knowledge to African development and expands the African opportunity beyond the continent. Build Ubuntu markets Create profitable businesses, sustainable growth, and social organizations by meeting basic human needs.

'These things happened. They were glorious and they changed the world,' said Charlie Wilson, of America's role backing the anti-Soviet mujahideen. 'And then we fucked up the endgame.' With no support for Afghanistan after that war, the vacuum was filled by the Taliban and bin Laden. The Ledger assesses the West's similarly failed approach to Afghanistan after 9/11-in military, diplomatic, political and developmental terms. Dr David Kilcullen and Dr Greg Mills are uniquely placed to reflect backwards and forwards on the Afghan conflict: they worked with the international mission both as advisers and within the Arg, and they have considerable experience of counterinsurgency and stabilization operations elsewhere in the world. Here these two experts show that there is plenty of blame to go around when explaining the failure to bring peace to Afghanistan after 9/11. The signs of collapse were conveniently ignored, in favor of political narratives of progress and success. Yet for Afghans, the war and its geopolitical effects are not over because NATO is gone-Afghanistan remains globally connected through digital communications and networks. This vital book explains why and where failings in Afghanistan happened, warning against exceptionalist approaches to future peacebuilding missions around the globe.

Guardian Angel the Book is like an Odyssey; a journey that questions and challenges the ethos of

man through the ages; especially in East Africa, irrespective of time, site or circumstance. The author has consistently refused to veer from this contention; however unpalatable some of the home-truths that surfaces along the way; for this is not a fictional novel, but the living experiences of a suffering people through time. Many of the characters he faced in his battle for survival, were men that had no good reason to stray from the honourable path to Independence, and the true freedoms of their people. The Manifestos were believable and opportunities to implement them in their entirety were not denied them. They even enjoyed hero status as they were the first; they were the undisputed bearers of the flags of freedom. But sadly, they and they alone must chose to betray this goodwill; they and they alone must have succumbed to the ills of power. Guardian Angel - The Book, so aptly lays bare their hypocrisy and betrayal, while confirming the bounteous beauty of life

"The shocking evidence which exposes his catalogue of mental illnesses - psychopath - sex addict - schizophrenic - and more"--Cover.

A fearless act of journalism in 1960s Nigeria and the true story behind the international bestselling novel *The Dogs of War*. The Nigerian civil war of the late 1960s was one of the first occasions when Western consciences were awakened and deeply affronted by the level of suffering and the scale of atrocity being played out in the African continent. This was thanks not just to advances in communication technology but to the courage and journalistic skills of foreign correspondents like Frederick Forsyth, who had already earned an enviable reputation for tenacity and accuracy working for Reuters and the BBC. In *The Biafra Story*, Forsyth reveals the depth of the British Government's active involvement in the conflict—information which many in power would have preferred to remain secret. General Gowon's genocide of the Biafran people was facilitated by a ready supply of British arms and advice. Still tragically relevant in its depiction of global affairs, this powerful book also launched Frederick Forsyth to literary stardom by providing him with the background material for *The Dogs of War*. The dramatic events and shocking political exposures, all delivered with Forsyth's bold and perceptive style, makes *The Biafra Story* a compelling lesson in courage.

Asiwaju Tinubu, national leader, APC, engineered the first takeover of power by the opposition in Nigeria in 2015. He was the only politician standing as governor of Lagos state, southwest Nigeria between 1999 and 2007. This was a period the political blitzkrieg unleashed by the People's Democratic Party (PDP) under former President Olusegun Obasanjo swept the southwest like a tsunami and all opposition governors lost their seats. Tinubu retained his seat and administered Lagos state for eight progressive years without a cent/kobo from the PDP-controlled Federal Government Who is Bolanle Tinubu? Where was he born and how did he grow up? What was his parentage like in the 1950s? What does Tinubu want in Nigeria? This is the first comprehensively researched biography of Jagaban.

This collection tells the story of an emerging and dynamic Africa, through the eyes of some of the youngest and most promising African entrepreneurs.

Chapters in this book contribute to our understanding of the theory, structure and practice of entrepreneurship in diverse African countries. Case studies examined include: African multinational banks and businesses, female entrepreneurs, culture and entrepreneurship, finance and entrepreneurship and SMEs.

Refugees have rarely been studied by economists. Despite some pioneering research on the economic lives of refugees, there remains a lack of theory and empirical data through which to understand, and build upon, refugees' own engagement with markets. Yet, understanding these economic systems may hold the key to rethinking our entire approach to refugee assistance. If we can improve our knowledge of the resource allocation systems that shape refugees' lives and opportunities, then we may be able to understand the mechanisms through which these market-based systems can be made to work better and turn humanitarian challenges into sustainable opportunities. This book adopts an inter-disciplinary approach, based on original qualitative and quantitative data on the economic life of refugees, in order to begin to build theory on the economic lives of refugees. It focuses on the case of Uganda because it represents a relatively positive case. Unlike other governments in the region, it has taken the positive step to allow refugees the right to work and a significant degree of freedom of movement through its so-called 'Self-Reliance Strategy'. This allows a unique opportunity to explore what is possible when refugees have basic economic freedoms. The book shows that refugees have complex and varied economic lives, often being highly entrepreneurial and connected to the global economy. The implications are simple but profound: far from being an inevitable burden, refugees have the capacity to help themselves and contribute to their host societies - if we let them
