### E1UUV6 - MCKEE DEON

As national economies become more closely linked, the value of more active corporate and policy level cooperation is becoming increasingly recognised. This book promotes the concept of alliance capitalism – a spirit of collegial entrepreneurship – as a means to facilitate more harmonious development in the international economy.

Addressing economists, sociologists, and other social scientists, he argues that the intercorporate alliance is as much a result of overlapping political, economic, and social forces as are such

traditional Western economic institutions as the public corporation and the stock market.

This is the product of a belief that the institutions of modern market capitalism—the intercorporate alliance no less than the corporation or the stock exchange—are the result of a continuing unfolding of overlapping economic, political, and social forces. No single explanation is sufficient, therefore, to cover the wide range of forms or specific patterns of alliance now found in the Japanese ...
