GCSE Design & Technology Resistant Materials AQA Revision Guide

This brand new course for AQA GCSE Resistant Materials has been replaced by a new specification for first teaching from September 2009.

The Toxic Classroom offers a wide-ranging look at education today and explores in detail the pressures children experience as a result of constant change, digital technology and political interference. Beginning with what it is like to be a child in the classroom, the book goes on to provide a detailed analysis of the curriculum, assessment and accountability, school structures, educating for global citizenship and the plethora of social issues schools are now expected to solve. Written from the perspective of a successful headteacher with over 30 years' teaching experience, the book considers what needs to be done to put things right and outlines a more equitable and effective school system. Each chapter outlines the steps schools can implement immediately and the

longer-term policy changes that are needed de-toxify the classroom and facilitate a genuine love of learning. Offering a challenging yet compelling argument for putting education back into the hands of teachers, this book will be of great interest both to the general reader and to those working within education such as teachers and professionals who wish to improve the ways in which children learn and develop.

Support teaching and help your students' skills development Fill in gaps in the students' knowledge and reinforce a topic effectively

This practical guide will help busy teachers and learning support staff present the design technology curriculum in a way that will make it accessible to dyslexic pupils and create a more flexible and positive learning environment. Drawing upon her experience as a designer, teacher and mother of two dyslexic children, and also as a dyslexic learner herself, the author: dispels myths about the difficulties faced by dyslexic learners explains the variety of learning difficulties that they experience highlights the help that they need to access their potential gives an insight into issues relating to craft and design offers flexible strategies and solutions that can be used in the classroom or workshop.

The New Wider World Coursemate for AQA C GCSE Geography provides summaries of key content and key ideas to support AQA's 2001 Geography C specification.

Produced to support students with the written paper element of the examination, this text focuses on developing product analysis

skills throughout the book, examining materials and processes, explaining what they are used for and why, as well as looking at the manufacturing process.

This is a brand new book that provides comprehensive yet concise coverage of all the topics and disciplines covered in the new AQA 8552 Design and Technology (9-1) specification, written and presented in a way that is accessible to teenagers and easy to teach from. It will be invaluable both as a course text and as a revision guide for students nearing the end of their course. It is divided into neat sections covering every element of the specification. Sections 5A to 5F of the textbook cover each of the six specialist technical areas. These sections would complement practical classroom experience. Solutions to all questions and exercises are provided in a free teacher pack available on our website. To accompany this textbook, PG Online also publishes a series of 12 downloadable teaching units. Each topic in a unit consists of a PowerPoint presentation, teacher's notes, worksheets, homework sheets and a final assessment test with practice questions. Each topic within a unit is expected to be taught over several lessons in a week. Units are sold as a lifetime site licence and may be loaded onto the school's private network or VLE.
