Ashen Stars: An Exile Novella - A novella, is by its definition, too short to really develop characters and Glynn's new 'exile universe'. That said, Ashen Stars was an entertaining read and what it lacked in character development, was more than made up in the tense action Ashen Stars is a prequel novella for a forthcoming science fiction stand alone book called Exile later this year. I like Glynn Stewart's books and I think does Sci-Fi well. His Starship Mage and Castle Federation series are favourites of mine

and this has a similar style and tone.

Ashen Stars is essentially a teaser novella in a brand new series by author Glynn Stewart and there lies, perhaps, its inherent weakness. I would have preferred an actual novel than a novella, simply because it allows the author room to expand and explain his universe - aside from the fact I like to immerse myself in new future universes.
