### **Risk Factors for Autoimmune Disorders - Autoimmune ...**

Effective prevention and risk management strategies are particularly important for patients with immune-mediated diseases. In this CME podcast, experts will review the primary risk factors for HZ and discuss optimized use of vaccines for at-risk populations.

### **Dr. Len Calabrese and Dr. Jeffrey Curtis Discuss Risk ...**

Our initial research on prediction of

autoimmune disease used both spontaneous and experimentally induced forms of thyroiditis in chickens and mice. The primary early risk factors for induction of an autoimmune response were identified among the genes of the major histocompatibility complex (MHC). Heightened susceptibility depended on potent activation of self-antigen-specific T lymphocytes by antigen-presenting cells bearing the same MHC.
