Jason logs into Awaken Online fed-up with reality. He's in desperate need of an escape, and this game is his ticket to finally feeling the type of power and freedom that are so sorely lacking in his real life. Awaken Online is a brand new virtual reality game that just hit the market, promising an unprecedented level of immersion. Yet Jason quickly finds himself pushed down a path he didn't expect.

Prologue October 11, 2076: Ten days after the release of Awaken Online. George Lane sat in a boardroom at Cerillion headquarters. The company prided itself on its technological innovations and took great pains to keep its inventions secret.

"Awaken Online: Precipice" is the second book in the Awake Online series of books. The series is written by Travis Bagwell and the audiobook edition is narrated by David Stifel. Because this is a continuation in a series of books, I highly recommend you first read or listen to book one and if you enjoyed that, book two is a single credit away.

"Precisely," Jason replied without October 12, 2076: Eleven days after the release of Awaken Online. Alex Lane sat alone at a kitchen island. A wild party raged around him and he could feel the vibration of the house music through his stool. One of his 'friends' had decided to live it up while his parents were out of town, resulting in his parents' elegant 8,000 square foot mansion was being swiftly turned into a cesspit of spilled beer and drunken teenage antics.

Jason continues his playing of Awaken Online, the massive multiplayer online RPG. Now the ruler of a city of zombies, he has more concerns than simply levelling up his skills and getting new loot. I was worried this change in fortunes might lead to a more boring, admin-focused book (much like what happened with Phil Tucker's Euphoria Online).
