CDDGJ3 - BRADSHAW COLON

Our Full edition Student Book covers all the core and mandatory units required for the Award, Certificate and Extended Certificate, and a wide selection of optional units.

Take the guesswork out of BTEC assessment with sample student work and assessor feedback for all pass, merit and distinction criteria. By focusing on assessment this compact guide leads students through each pass, merit and distinction criterion by clearly showing them what they are required to do. - Provides a sample student answer for every single pass, merit and distinction criterion, together with detailed assessor's comments on how work can be improved, so that students know exactly what their work needs to show to hit their grade target - Saves you time - realistic model assignments are included and provide an opportunity to generate all evidence, with each criterion and grade clearly indicated, so there is no need to rewrite yet more assignment briefs - Use instead of a textbook - detailed revision-style summaries of all the learning aims from the unit support students, allowing them to quickly find the facts and ideas they will need for their assessment - Enables you to customise your course - combine this guide with others in the series so you only pay for the units you deliver

Cater to your students' needs with this fully updated textbook which is endorsed by Edexcel and matched to the BTEC First available from 2013. All material in this new edition is clearly labelled by learning aim and assessment criterion, and the layout and language are aimed specifically at level 2 students. This textbook presents each topic in a clear and straightforward way, and its easy navigation allows students to find the information they are looking for quickly. - Clearly links all content, questions and activities to pass, merit and distinction criteria so students can see how material is relevant to them - Differentiate using activities linked to merit and distinction criteria - Recap the main points for each learning aim with 'Check your understanding' boxes - Use realistic model assignments that provide an opportunity to generate all evidence - there is no need to rewrite yet more as-

signment briefs for the new specification

This student text provides all the underpinning knowledge needed to pass the BTEC first diploma. It provides learning objectives to help the reader focus on what they need, up-to-date case studies and assessment activities to test the readers' knowledge and understanding.

This Student Book supports the new BTEC First Award in Application of Science. The first external assessment for this award will take place in March 2014, although the award can be taught from 2012. Suitable for students of all disciplines; Contains suitable examples to cover engineering, building construction and science technologies.

If you're still teaching the 2005 BTEC First standards, then this Student Book and accompanying Tutor's Resource File with CD-ROM provide all the support you and your students need. Keep a look out for revised editions of our BTEC First resources for the 2006 standards - coming soon! Takes a colourful, easy to use approach, to make it as attractive as possible to your students. The content is organised to match the BTEC specification, so it's easy for you and your students to find your way through the material. Practice activities match the assessment requirements of the course, so students will be thoroughly prepared by the time they are assessed. Contains specific guidance for students on preparing for the Integrated Vocational Assessment for Unit 1. Lots of interesting case studies show students how their theory relates to real life business.

BTEC's own resources for Entry 3/Level 1 health and social care are tailored to the needs of Entry 3 and Level 1 learners providing content for both specifications that help learners engage with their studies, achieve their potential, and progress to employment or BTEC Level 2 First.

This title covers all three mandatory units and a selection of optional units, with each presented in topics to ensure the content is accessible and engaging for learners. It covers all the underpinning knowledge and understanding needed at level 2 to ensure that learners are fully prepared for this course.

BTEC and Heinemann have joined forces to bring you BTEC's own BTEC Level 2 First Health and Social Care resources - by the BTEC team, for BTEC learners - to support you every step of the way to success.

BTEC Level 2 Firsts in Sport Student Book: Second Edition has been fully revised to match the new BTEC specification for first teaching September 2013. It uses the same active, accessible approach that you know and love, but with updated content to support all the units in the specification and the new external assessment.

Everything students need to make the grade in BTEC Level 2 First Health and Social Care. This lively and comprehensive textbook covers all the core and optional units, making it suitable whether you are studying for the Certificate, Extended Certificate or Diploma. Each chapter covers a unit packed with: - Activities to help with assignments - Advice on gathering evidence - Explanations of the BTEC pass, merit and distinction criteria - Further reading - Pointers to additional resources Written by authors with a wealth of experience in delivering, verifying and writing for BTECs, this textbook is packed with knowledge of the Health and Social Care sector and how to get the most of your course. This textbook is supported by a separately available Dynamic Learning package for tutors

Owen Bishop's First Course starts with the basics of electricity and component types, introducing students to practical work almost straight away. No prior knowledge of electronics is required. The approach is student-centred with self-test features to check understanding, including numerous activities suitable for practicals, homework and other assignments. Multiple choice questions are incorporated throughout the text in order to aid student learning. Key facts, formulae and definitions are highlighted to aid revision, and theory is backed up by numerous examples within the book. Each chapter ends with a set of problems that includes exam-style questions, for which numerical answers are provided at the end of the book. This text is ideal for a wide range of introductory courses in electronics, technology, physics and engineering. The coverage has been carefully matched to the latest UK syllabuses including GCSE Electronics, GCSE Design & Technology, Engineering GCSE and Edexcel's BTEC First in Engineering, resulting in a text that meets the needs of students on all Level 2 electronics units and courses. Owen Bishop's talent for introducing the world of electronics has long been a proven fact with his textbooks, professional introductions and popular circuit construction guides being chosen by thousands of students, lecturers and electronics enthusiasts.
