OP5G6G - FREDDY KAYLYN

Get customers, clients, and co-workers to say "yes!" in 8 minutes or less This revised second edition by a leading expert of influence continues to teach a proven system of persuasion. Synthesizing the latest research in the field of influence with real-world tested experiences, it presents simple secrets that help readers turn a "no" into a "yes." Every secret in this book has been rigorously tested, validated, and found reliable. Learn dozens of all-new techniques and strategies for influencing others including how to reduce resistance to rubble Make people feel instantly comfortable in your presence Decode body language, build credibility, and be persistent without being a pain Expert author Kevin Hogan turns the enigmatic art of influence and persuasion into a science anyone can master The amazing secret of The Science of Influence is its simplicity. After you read this book you will immediately understand why people say "no" to you and learn how to turn that "no" into a "yes" from that moment on.

Showing how to read the customer's emotions, this classic gives readers the inside knowledge to overcome any barrier and successfully make the close every time.

Foreword by Roger Fisher, author of the bestselling Getting to Yes Diagnostic test to help readers determine their own-and their opponent's-negotiating style Lum was named Director of the Center for Negotiation and Dispute Resolution at the University of California Hastings College of Law, the largest law school negotiation center in the country

Combining insights in negotiation research with the tactics used by some of the world's leading business strategists, Bargaining for Advantage is a practical guide to becoming a more effective negotiator. Richard Shell explores the hidden psychology and patterns that govern every bargaining situation. Driven by stories about everything from hostage taking and high stakes business deals to everyday encounters, this work offers a step-by-step approach that draws on your own communi-

cation style to make you a skilful negotiator.

The Conscience Code is a practical guide to creating workplaces where everyone can thrive. Surveys show that more than 40% of employees report seeing ethical misconduct at work, and most fail to report it--killing office morale and allowing the wrong people to set the example. Collegiate professor G. Richard Shell has heard work misconduct stories from his MBA students which inspired him to create this helpful guide for navigating these nuances. Shell created this book to point to a better path: recognize that these conflicts are coming, learn to spot them, then follow a research-based, step-by-step approach for resolving them skillfully. By committing to the Code, you can replace regret with long-term career success as a leader of conscience. In The Conscience Code, Shell shares tips and facts that: Solves a crucial problem faced by professionals everywhere: What should they do when they are asked to compromise their core values to achieve organizational goals? Teaches readers to recognize and overcome the five organizational forces that push people toward actions they later regret. Lays out a systematic, values-to-action process that people at all levels can follow to maintain their integrity while achieving true success in their lives and careers. Driven by dramatic, real-world examples from Shell's classroom, today's headlines, and classic cases of corporate wrongdoing, The Conscience Code shows how to create value-based workplaces where everyone can thrive.

This fine blend of Harvard scholarship and seasoned judgment is really two books in one. The first develops a sophisticated approach to negotiation for executives, attorneys, diplomats -- indeed, for anyone who bargains or studies its challenges. The second offers a new and compelling vision of the successful manager: as a strong, often subtle negotiator, constantly shaping agreements and informal understandings throughout the complex web of relationships in an organization. Effective man-

agers must be able to reach good formal accords such as contracts, out-of-court settlements, and joint venture agreements. Yet they also have to negotiate with others on whom they depend for results, resources, and authority. Whether getting fuller support from the marketing department, hammering out next year's budget, or winning the approval for a new line of business, managers must be adept at advantageously working out and modifying understandings, resolving disputes, and finding mutual gains where interests and perceptions conflict. In such situations, The Manager as Negotiator shows how to creatively further the totality of one's interests, including important relationships -- in a way that Richard Walton, Harvard Business School Professor of Organizational Behavior, describes as "sensitive to the nuances of negotiating in organizations" and "relentless and skillful in making systematic sense of the process." This book differs fundamentally from the recent spate of negotiation handbooks that tend to espouse one of two approaches: the competitive ("Get yours and most of theirs, too") or the cooperative ("Everyone can always win"). Transcending such cynical and naive views, the authors develop a comprehensive approach, based on strategies and tactics for productively managing the tension between the cooperation and competition that are both inherent in bargaining. Based on the authors' extensive experience with hundreds of cases, and peppered with a number of wide-ranging examples, The Manager as Negotiator will be invaluable to novice and experienced negotiators, public and private managers, academics, and anyone who needs to know the state of the art in this important field.

At last, here is a book that shows women how to recognize the Shadow Negotiation -- in which the unspoken attitudes, hidden assumptions, and conflicting agendas that drive the bargaining process play out -- and how to use that knowledge to their advantage. Each time people bargain over issues -- a promotion, a contract with a new

client, a bigger role in decision-making -- a parallel negotiation unfolds beneath the surface of the "formal" discussion. Bargainers constantly maneuver to determine whose interests and needs will hold sway, whose opinions will matter, and how cooperative each person will be in reaching an agreement. How the issues are resolved hangs on the actions people take in the shadow negotiation, yet it is in this shadow negotiation that women most often run into trouble. The most productive negotiations take place when strong advocates can connect with each other. Good results depend equally on a bargainer's positioning her ideas for a fair hearing and on being open to the other side's point of view. But traditionally women have not fared well on either front. Often, they let negotiable moments slip by and take the first "no" as a final answer, or their efforts to be responsive to the other side's position are interpreted as accommodation. As a result, women can come away from negotiations with fewer dollars, perks, plum assignments, or less say in decision-making than men. To negotiate effectively, women must pay attention to acts of self-sabotage as well as to the moves others make in the shadow negotiation. By bargaining more strategically, women can establish the terms of their advocacy, their voice, and at the same time encourage the open communication essential to a collaborative discussion in which not only acceptable, but creative, agreements can be worked out. Written by Deborah M. Kolb and Judith Williams, two authorities in the field, *The Shadow Negotiation* shows women a whole new way to think about the negotiation process. Kolb and Williams identify the common stumbling blocks that women encounter and present a game plan for turning their particular strengths to their advantage. Based on extensive interviews with hundreds of business-women, *The Shadow Negotiation* provides women with a clear, insightful guide to the hidden machinations that are at work in every bargaining situation.

President Donald J. Trump lays out his professional and personal worldview in this classic work—a firsthand account of the rise of America's foremost deal-maker. "I like thinking big. I always have. To me it's very simple: If you're going to be thinking anyway, you might as well think big."—Donald J. Trump Here is Trump in action—how he runs his organization and how he runs his life—as he meets the people he needs to meet, chats with family and friends, clashes with enemies, and challenges conventional thinking. But even a maverick plays by rules, and Trump has formulated time-tested guidelines for suc-

cess. He isolates the common elements in his greatest accomplishments; he shatters myths; he names names, spells out the zeros, and fully reveals the deal-maker's art. And throughout, Trump talks—really talks—about how he does it. *Trump: The Art of the Deal* is an unguarded look at the mind of a brilliant entrepreneur—the ultimate read for anyone interested in the man behind the spotlight. Praise for *Trump: The Art of the Deal* "Trump makes one believe for a moment in the American dream again."—*The New York Times* "Donald Trump is a deal maker. He is a deal maker the way lions are carnivores and water is wet."—*Chicago Tribune* "Fascinating . . . wholly absorbing . . . conveys Trump's larger-than-life demeanor so vibrantly that the reader's attention is instantly and fully claimed."—*Boston Herald* "A chatty, generous, chutzpa-filled autobiography."—*New York Post*

Advanced Negotiation Techniques provides a wealth of material in a winning combination of practical experience and good research to give you a series of tools, techniques, and real-life examples to help you achieve your negotiation objectives. For 25 years and across 40 countries, the Resource Development Centre (RDC), run by negotiation experts Alan McCarthy and Steve Hay, has helped thousands of people to conduct successful negotiations of every type. Many RDC clients have been business professionals who have learned how to sell more successfully. Others have improved their buying skills. A few clients have applied the RDC techniques outside the business environment altogether—for instance, in such areas as international diplomatic services, including hostage and kidnap situations. As you'll discover, the RDC philosophy is centered on business ethics and a principled approach to negotiation that maximizes the value of the outcomes for both parties. It can even create additional value that neither party could find in isolation. In this book, you will learn: The ten golden rules for successful negotiations How to handle conflicts with your negotiating partners What hostage and kidnapping negotiations can teach managers negotiating in business settings How to ensure both sides perceive any agreement as a "win" Achieve higher-profit deals in difficult circumstances In the business world, negotiating with other companies, government officials, and even your colleagues is a fact of life. *Advanced Negotiation Techniques* takes you through a system for planning and conducting negotiations that will enable you and your team to achieve your negotiation objectives. This is an internationally tried and

tested process, with many current Blue Chip organizations applying it daily for a simple reason: the techniques are easy to implement and they work. That makes this book essential reading for those who want to achieve their goals in any area of life.

"A must-read for lawyers, business people, and other professionals wanting helpful negotiation advice." -Robert Mnookin, author of *Bargaining with the Devil: When to Negotiate, When to Fight* "As social creatures, we are always trying to influence each other. Russell Korobkin's book lays out five techniques that anyone can use to ensure you get what you want and leave enough on the table so others win, too. The book moves quickly, is full of examples, and provides step-by-step actionable instructions to help you negotiate anything. Everyone needs this book." -Paul J. Zak, author of *Trust Factor: The Science of Creating High-Performance Companies* From leading negotiation expert Russell Korobkin comes this revelatory guide that distills the keys to bargaining into five simple-yet-sophisticated tools that anyone can master. The *Five Tool Negotiator* stands apart in a category saturated with breezy, self-help volumes as a compulsively readable and highly researched must-have for anyone looking to improve their bargaining skills. Nationally renowned UCLA law professor Russell Korobkin distills insights drawn from his decades of studying and teaching the keys to successful negotiations into five simple-yet-sophisticated strategies: Bargaining Zone Analysis * Persuasion * Deal Design * Power * and Fairness Norms. Incorporating lively anecdotes and fascinating social science experiments, Korobkin brings to life concepts from the disparate fields of psychology, economics, and game theory. Designed for use at both the flea market and in the C-suite, this game-changing, universal approach provides a formula that a savvy reader can implement immediately:

- Tool #1, Bargaining Zone Analysis, enables you to identify the range of agreements that will benefit both parties.
- Tool #2, Persuasion, convinces your counterpart that reaching an agreement will benefit them more than they otherwise would have recognized, making them willing to give you more.
- Tool #3, Deal Design, structures the agreement in ways that increase its value to both parties.
- Tool #4, Power, forces your counterpart to agree to terms relatively more desirable to you.
- Tool #5, Fairness Norms, enables you to seal a bargain that both parties can feel good about. From negotiating the price of a used car to closing a multimillion-dollar merger, Korobkin meticulously explains how to answer the following ques-

tions that arise in every negotiation: Should you make the first offer or let the other side go first? What makes some proposals seem more fair than others? How do you decide whether to accept an offer, reject it, or make a counteroffer? When should you propose an unusual agreement structure? What steps can you take to make a bluff believable? Readers will come away with a roadmap to becoming a truly complete negotiator, able to understand bargaining as both a strategic and social activity. Intuitively accessible and reassuringly persuasive, *The Five Tool Negotiator* promises to be a classic in the art of bargaining strategy.

We all want to get to yes, but what happens when the other person keeps saying no? How can you negotiate successfully with a stubborn boss, an irate customer, or a deceitful coworker? In *Getting Past No*, William Ury of Harvard Law School's Program on Negotiation offers a proven breakthrough strategy for turning adversaries into negotiating partners. You'll learn how to:

- Stay in control under pressure
- Defuse anger and hostility
- Find out what the other side really wants
- Counter dirty tricks
- Use power to bring the other side back to the table
- Reach agreements that satisfies both sides' needs

Getting Past No is the state-of-the-art book on negotiation for the twenty-first century. It will help you deal with tough times, tough people, and tough negotiations. You don't have to get mad or get even. Instead, you can get what you want!

Learn to be a better negotiator--and achieve the outcomes you want. If you read nothing else on how to negotiate successfully, read these 10 articles. We've combed through hundreds of Harvard Business Review articles and selected the most important ones to help you avoid common mistakes, find hidden opportunities, and win the best deals possible. This book will inspire you to:

- Control the negotiation before you enter the room
- Persuade others to do what you want--for their own reasons
- Manage emotions on both sides of the table
- Understand the rules of negotiating across cultures
- Set the stage for a healthy relationship long after the ink has dried
- Identify what you can live with and when to walk away

This collection of articles includes: "Six Habits of Merely Effective Negotiators" by James K. Sebenius; "Control the Negotiation Before It Begins" by Deepak Malhotra; "Emotion and the Art of Negotiation" by Alison Wood Brooks; "Breakthrough Bargaining" by Deborah M. Kolb and Judith Williams; "15 Rules for Negotiating a Job Offer" by Deepak Malhotra; "Getting to Si, Ja, Oui, Hai, and Da" by Erin Meyer; "Negotiating Without a Net: A Con-

versation with the NYPD's Dominick J. Misino" by Diane L. Coutu; "Deal Making 2.0: A Guide to Complex Negotiations" by David A. Lax and James K. Sebenius; "How to Make the Other Side Play Fair" by Max H. Bazerman and Daniel Kahneman; "Getting Past Yes: Negotiating as if Implementation Mattered" by Danny Ertel; "When to Walk Away from a Deal" by Geoffrey Cullinan, Jean-Marc Le Roux, and Rolf-Magnus Wedigen.

If you're looking to build your deal-making chops, there is no better school than the world of professional sports. Few authors are as qualified to guide you through that rough-and-tumble terrain as Ken Shropshire. From the Fortune 500 to the NFL, from Don King to big city mayors, Ken has negotiated major sports deals across the country and around the world. He's also one of today's most sought-after negotiating coaches, with clients ranging from the National Collegiate Athletic Association to IBM. In *Negotiate Like the Pros*, Ken tells the stories behind some of the most sensational sports deals of all time and extracts powerful lessons from them on the skills you need to master to become a top-notch dealmaker. You'll learn how to:

- Prepare and Set Agendas: Peter Ueberroth's negotiation with Fidel Castro during the Soviet boycott of the '84 Olympics
- Know Your Negotiating Style and Play to Your Strengths: Why NFL coach Bill Walsh stresses sticking with your style
- Set Goals: the \$60 million deal Daisuke "Dice-K" Matsuzaka cut with the Boston Red Sox in 2006
- Leverage: from the astonishing three-way negotiation between Muhammed Ali, George Foreman and the President of Zaire that Don King used to pull off
- "The Rumble in the Jungle"
- Build Relationships: Yao Ming's move from China and David Beckham's \$250 million deal with the Los Angeles Galaxy

You also get a wealth of insider tips, tricks, and skill-building tools to help you develop a highly-effective, systematic approach to deal making. Whether you're a fanatic who sees the world through sports-colored glasses, or a casual observer who wants to learn from some of the toughest, shrewdest dealmakers in any industry, this book will teach you how to *Negotiate Like the Pros*.

This book provides students with a comprehensive understanding of the fundamental components of the negotiation process and the challenges that face negotiators. It contains, in a single volume, text material on current theory and research, readings from diverse perspectives, cases that demonstrate how negotiation has been effectively or ineffectively applied in practice, role-playing exercises that enable stu-

dents to hone their skills, and questionnaires that assess personal qualities that can influence negotiation processes and outcomes.

BRAND NEW FOR 2019: A fully revised and updated edition of the quintessential guide to learning to negotiate effectively in every part of your life "A must read for everyone seeking to master negotiation. This newly updated classic just got even better."—Robert Cialdini, bestselling author of *Influence* and *Pre-Suasion* As director of the world-renowned Wharton Executive Negotiation Workshop, Professor G. Richard Shell has taught thousands of business leaders, lawyers, administrators, and other professionals how to survive and thrive in the sometimes rough-and-tumble world of negotiation. In the third edition of this internationally acclaimed book, he brings to life his systematic, step-by-step approach, built around negotiating effectively as who you are, not who you think you need to be. Shell combines lively stories about world-class negotiators from J. P. Morgan to Mahatma Gandhi with proven bargaining advice based on the latest research into negotiation and neuroscience. This updated edition includes:

- An easy-to-take "Negotiation I.Q." test that reveals your unique strengths as a negotiator
- A brand new chapter on reliable moves to use when you are short on bargaining power or stuck at an impasse
- Insights on how to succeed when you negotiate online
- Research on how gender and cultural differences can derail negotiations, and advice for putting relationships back on track

Bargaining is a part of daily life. But what makes a skilled negotiator? In the third edition of *Bargaining for Advantage: Negotiation Strategies for Reasonable People* (2014), professor and author G. Richard Shell outlines a systematic and thoughtful framework for successful negotiation strategies based on insights into human psychology... Purchase this in-depth summary to learn more.

Negotiating on Behalf of Others explores current negotiation theory, providing a framework for understanding the complexity of negotiating for others. Negotiation agents are broadly defined to include legislators, diplomats, salespersons, lawyers, committee chairs -- in fact anyone who represents others in negotiation. Leading figures in the field examine the following areas in depth: labour-management relations; international diplomacy; sports agents; legislative process; and agency law The book concludes with suggestions for future research and specific advice for practitioners.

Negotiation—whether hammering out a great job offer, settling a dispute with a client, drafting a contract, or making trade-offs between business units—is both a necessary and challenging aspect of business life. In the business world, confident negotiators are always in high demand. Bringing a difficult negotiation to a successful conclusion can be one of the most exhilarating—and valuable—aspects of business today. Packed with practical advice and handy tools, *Negotiation* will help any manager sharpen skills and yield a sizable payoff. Contents include: Preparing the necessary information before a negotiation Managing multiparty negotiations Assessing the position of the opposing side Determining your sources of power and authority in a negotiation Recognizing the barriers to agreement and how to overcome them Plus, readers can access free interactive tools on the Harvard Business Essentials companion web site. Series Adviser: Michael Watkins Associate Professor Michael Watkins does research on negotiation and leadership. He is the coauthor of *Right From the Start: Taking Charge in a New Leadership Role* (HBS Press, 1999) and the author of *Taking Charge in Your New Leadership Role: A Workbook* (HBS Publishing, 2001), both of which examine how new leaders coming into senior management positions should spend their first six months on the job. Harvard Business Essentials The Reliable Source for Busy Managers The Harvard Business Essentials series is designed to provide comprehensive advice, personal coaching, background information, and guidance on the most relevant topics in business. Drawing on rich content from Harvard Business School Publishing and other sources, these concise guides are carefully crafted to provide a highly practical resource for readers with all levels of experience. To assure quality and accuracy, each volume is closely reviewed by a specialized content adviser from a world class business school. Whether you are a new manager interested in expanding your skills or an experienced executive looking for a personal resource, these solution-oriented books offer reliable answers at your fingertips. *Negotiating International Business* is a comprehensive reference guide designed to aide business people when dealing with foreign counterparts. It explains fundamental aspects of international business negotiations, culture-specific expectations and practices, as well as numerous techniques used by international negotiators. Here is the advice you need in order to be successful by adjusting business, personal, and social behaviors as required in any of 50 countries around the world.

When discussing being stuck in a "win-win vs. win-lose" debate, most negotiation books focus on face-to-face tactics. Yet, table tactics are only the "first dimension" of David A. Lax and James K. Sebenius' pathbreaking 3-D Negotiation (TM) approach, developed from their decades of doing deals and analyzing great dealmakers. Moves in their "second dimension"—deal design—systematically unlock economic and noneconomic value by creatively structuring agreements. But what sets the 3-D approach apart is its "third dimension": setup. Before showing up at a bargaining session, 3-D Negotiators ensure that the right parties have been approached, in the right sequence, to address the right interests, under the right expectations, and facing the right consequences of walking away if there is no deal. This new arsenal of moves away from the table often has the greatest impact on the negotiated outcome. Packed with practical steps and cases, 3-D Negotiation demonstrates how superior setup moves plus insightful deal designs can enable you to reach remarkable agreements at the table, unattainable by standard tactics.

NEW YORK TIMES BESTSELLER • Learn the negotiation model used by Google to train employees worldwide, U.S. Special Ops to promote stability globally ("this stuff saves lives"), and families to forge better relationships. A 20% discount on an item already on sale. A four-year-old willingly brushes his/her teeth and goes to bed. A vacationing couple gets on a flight that has left the gate. \$5 million more for a small business; a billion dollars at a big one. Based on thirty years of research among forty thousand people in sixty countries, Wharton Business School Professor and Pulitzer Prize winner Stuart Diamond shows in this unique and revolutionary book how emotional intelligence, perceptions, cultural diversity and collaboration produce four times as much value as old-school, conflictive, power, leverage and logic. As negotiations underlie every human encounter, this immediately-usable advice works in virtually any situation: kids, jobs, travel, shopping, business, politics, relationships, cultures, partners, competitors. The tools are invisible until you first see them. Then they're always there to solve your problems and meet your goals. Presenting principles of negotiation from theoretical and practical perspectives, this book helps readers develop negotiating skills in both individual and collective situations. Each chapter introduces and discusses an essential negotiating concept and then connects that concept to a related

skill. Exercises are integrated throughout each chapter to provide readers with the opportunity to practice these skills. Using this unique theory-into-practice organization principle, the book demonstrates how negotiation works, outlines options and procedures for negotiation preparation, and identifies common negotiating problems.

From the authors of *Women Don't Ask*, the groundbreaking book that revealed just how much women lose when they avoid negotiation, here is the action plan that women all over the country requested—a guide to negotiating anything effectively using strategies that feel comfortable to you as a woman. Whether it's a raise, that overdue promotion, an exciting new assignment, or even extra help around the house, this four-phase program, backed by years of research and practical success, will show you how to recognize how much more you really deserve, maximize your bargaining power, develop the best strategy for your situation, and manage the reactions and emotions that may arise—on both sides. Guided step-by-step, you'll learn how to draw on your special strengths to reach agreements that benefit everyone involved. This collaborative, problem-solving approach will propel you to new places both professionally and personally—and open doors you thought were closed.

This book introduces a dynamic, new framework for using law, litigation, regulation and lobbying as part of competitive business strategy. Every business strategist, entrepreneur, and corporate lawyer needs to understand a basic truth of the modern market -- you must make the legal rules that govern your products and services or one of your competitors will. And it is much easier to stay in business if you are the one writing the rules. Written in a lively style with a host of stories and examples drawn from business history as well as contemporary events, professor G. Richard Shell of the world-famous Wharton School of Business shows how business leaders from Henry Ford and Bill Gates and corporate rivals from Coke to Pepsi have fought and won the battle for legal supremacy.

Wharton professor Richard Shell created the Success Course to help his world-class MBA students answer two questions that aren't as obvious as they seem: "What, for me, is success?" and "How will I achieve it?" Based on that acclaimed course, *Springboard* shows how to assess the hidden influences of family, media, and culture on your beliefs about success. Then it helps you figure out your unique passions

and capabilities, so you can focus more on what gives meaning and excitement to your life, and less on what you are “supposed” to want.

Whether you are selling a house, closing a business deal, settling a divorce, arbitrating a labor dispute, or trying to hammer out an international treaty, Howard Raiffa’s new book will measurably improve your negotiating skills. Although it is a sophisticated self-help book—directed to the lawyer, labor arbitrator, business executive, college dean, diplomat—it is not cynical or Machiavellian: Raiffa emphasizes problems and situations where, with the kinds of skills he aims to develop, disputants can achieve results that are beneficial to all parties concerned. Indeed, he argues that the popular “zero-sum” way of thinking, according to which one side must lose if the other wins, often makes both sides worse off than they would be when bargaining for joint mutual gains. Using a vast array of specific cases and clear, helpful diagrams, Raiffa not only elucidates the step-by-step processes of negotiation but also translates this deeper understanding into practical guidelines for negotiators and “intervenor.” He examines the mechanics of negotiation in imaginative fashion, drawing on his extensive background in game theory and decision analysis, on his quarter-century of teaching non-specialists in schools of business and public policy, on his personal experiences as director of an international institute dealing with East/West problems, and on the results of simulated negotiation exercises with hundreds of participants. There are popular books on the art of winning and scholarly books on the science of negotiation, but this is the first book to bridge the two currents. Shrewd, accessible, and engagingly written, it shows how a little analysis sprinkled with a touch of art can work to the advantage of any negotiator.

Describes a method of negotiation that isolates problems, focuses on interests, creates new options, and uses objective criteria to help two parties reach an agreement.

“Packed with transformative insights, *Dealmaking* will help a new generation of business leaders get to yes.”—William Ury, coauthor of *Getting to Yes* Informed by meticulous research, field experience, and classroom-tested strategies, *Dealmaking* offers essential insights for anyone involved in buying or selling everything from cars to corporations. Leading business scholar Guhan Subramanian provides a lively tour of both negotiation and auction theory, then takes an in-depth look at his own hybrid theory, outlining three specific strategies readers can use in complex deal-

making situations. Along the way, he examines case studies as diverse as buying a house, haggling over the rights to a TV show, and participating in the auction of a multimillion-dollar company. Based on broad research and detailed case studies, *Dealmaking* brings together negotiation and auction strategies for the first time, providing the jargon-free, empirically sound advice professionals need to close the deal. Originally published in hardcover under the title *Negotiauctions*.

Negotiation is fundamental to our lives; whether it’s getting your kids to eat their greens, making your case for a pay rise, or trying to secure a multi-million pound deal for your company. However, negotiation has changed. It’s no longer about confrontation where there are winners and losers. Collaboration is now the name of the game. YouGov research commissioned for this book shows UK PLC is losing £9 million per hour from poor negotiating – £17 billion per year. Can you afford to be without a modern framework for deal-making? In *The Yes Book*, Clive Rich provides a method for generating success based on years of experience working for or with major organisations and super brands including Sony, Yahoo, Apple, the BBC, Tesco, and Simon Cowell’s Syco, during a negotiating career in which he has brokered more than £10 billion worth of deals. By breaking negotiation into its three key elements of Attitude, Behaviour and Process, he helps you learn how to shape, create and close deals. You will discover what your negotiating style is, and how you can apply it to influence others and give yourself the edge. This is the ultimate guide to using the power of negotiation to get more of what you want, in both business and life outside the office.

We all negotiate on a daily basis. We negotiate with our spouses, children, parents, and friends. We negotiate when we rent an apartment, buy a car, purchase a house, and apply for a job. Your ability to negotiate might even be the most important factor in your career advancement. Negotiation is also the key to business success. No organization can survive without contracts that produce profits. At a strategic level, businesses are concerned with value creation and achieving competitive advantage. But the success of high-level business strategies depends on contracts made with suppliers, customers, and other stakeholders. Contracting capability—the ability to negotiate and perform successful contracts—is the most important function in any organization. This book is designed to help you achieve success in your personal negotiations and in your business trans-

actions. The book is unique in two ways. First, the book not only covers negotiation concepts, but also provides practical actions you can take in future negotiations. This includes a Negotiation Planning Checklist and a completed example of the checklist for your use in future negotiations. The book also includes (1) a tool you can use to assess your negotiation style; (2) examples of “decision trees,” which are useful in calculating your alternatives if your negotiation is unsuccessful; (3) a three-part strategy for increasing your power during negotiations; (4) a practical plan for analyzing your negotiations based on your reservation price, stretch goal, most-likely target, and zone of potential agreement; (5) clear guidelines on ethical standards that apply to negotiations; (6) factors to consider when deciding whether you should negotiate through an agent; (7) psychological tools you can use in negotiations—and traps to avoid when the other side uses them; (8) key elements of contract law that arise during negotiations; and (9) a checklist of factors to use when you evaluate your performance as a negotiator. Second, the book is unique in its holistic approach to the negotiation process. Other books often focus narrowly either on negotiation or on contract law. Furthermore, the books on negotiation tend to focus on what happens at the bargaining table without addressing the performance of an agreement. These books make the mistaken assumption that success is determined by evaluating the negotiation rather than evaluating performance of the agreement. Similarly, the books on contract law tend to focus on the legal requirements for a contract to be valid, thus giving short shrift to the negotiation process that precedes the contract and to the performance that follows. In the real world, the contracting process is not divided into independent phases. What happens during a negotiation has a profound impact on the contract and on the performance that follows. The contract’s legal content should reflect the realities of what happened at the bargaining table and the performance that is to follow. This book, in contrast to others, covers the entire negotiation process in chronological order beginning with your decision to negotiate and continuing through the evaluation of your performance as a negotiator. A business executive in one of the negotiation seminars the author teaches as a University of Michigan professor summarized negotiation as follows: “Life is negotiation!” No one ever stated it better. As a mother with young children and as a company leader, the executive realized that negotiations are pervasive in our personal and business lives. With its empha-

sis on practical action, and with its chronological, holistic approach, this book provides a roadmap you can use when navigating through your life as a negotiator.

Conflict is inevitable, in both deals and disputes. Yet when clients call in the lawyers to haggle over who gets how much of the pie, traditional hard-bargaining tactics can lead to ruin. Too often, deals blow up, cases don't settle, relationships fall apart, justice is delayed. Beyond Winning charts a way out of our current crisis of confidence in the legal system. It offers a fresh look at negotiation, aimed at helping lawyers turn disputes into deals, and deals into better deals, through practical, tough-minded problem-solving techniques.

Teaches how to be a more effective negotiator in one's professional and personal lives, covering the power of great questions, control of emotion, why "no" is better than "yes" or "maybe," and other related topics.

This companion volume to the negotiation classic *Getting to Yes* explores the negotiation process in depth and presents case studies, charts, and worksheets for blueprinting and personalized negotiating strategy.

From two leaders in executive education at Harvard Business School, here are the mental habits and proven strategies you need to achieve outstanding results in any negotiation. Whether you've "seen it all" or are just starting out, *Negotiation Genius* will dramatically improve your negotiating skills and confidence. Drawing on decades of behavioral research plus the experience of thousands of business clients, the authors take the mystery out of preparing for and executing negotiations—whether they involve multimillion-dollar deals or improving your next salary offer. What sets negotiation geniuses apart? They are the men and women who know how to:

- Identify negotiation opportunities where others see no room for discussion
- Discover the truth even when the other side wants to conceal it
- Negotiate successfully from a position of weakness
- Defuse threats, ultimatums, lies, and other hardball tactics
- Overcome resistance and "sell" proposals using proven influence tactics
- Negotiate ethically and create trusting relationships—along with great deals
- Recognize when the best move is to walk away
- And much, much more

This book gets "down and dirty." It gives you detailed strategies—including talking points—that work in the real world even when the other side is hostile, unethical, or more powerful. When you finish it, you will already have an action plan for your next negotiation. You will know what to do and why. You will also begin building

your own reputation as a negotiation genius.

For undergraduate and graduate-level business courses that cover the skills of negotiation. This text provides an integrated view of what to do and what to avoid at the bargaining table, facilitated by an integration of theory, scientific research, and practical examples.

Explains that the selling of ideas is a matter of encouraging others to share one's beliefs in a guide for salespeople that invites readers to self-assess their persuasion personality and build on natural strengths.

Regardless of who you are or what you want, you can negotiate anything promises Herb Cohen, the world's best negotiator. From mergers to marriages, from loans to lovemaking, the #1 bestseller *You Can Negotiate Anything* proves that "money, justice, prestige, love—it's all negotiable." Hailed by such publications as *Time*, *People*, and *Newsweek*, Cohen has advised presidents on everything from domestic policy to hostage crises to combating internal terrorism. His advice: "Be patient, be personal, be informed—and you can bargain successfully for anything." Inside, you'll learn the keys to using Herb Cohen's proven strategy for dealing with your mate, your boss, your credit card company, your children, your lawyer, your best friends, and even yourself:

- The three crucial steps to success
- Identifying the other side's negotiating style—and how to

deal with it

- The win-win technique
- Using time to your advantage
- The power of persistence, persuasion, and attitude
- The art of the telephone negotiation, and much more

"Power is based upon perception—if you think you've got it then you've got it!" affirms Herb Cohen, the world's expert. And with this book, you've got the power to get what you really want right in your hands.

The art of negotiation—from one of the country's most eminent practitioners and the Chair of the Harvard Law School's Program on Negotiation. One of the country's most eminent practitioners of the art and science of negotiation offers practical advice for the most challenging conflicts—when you are facing an adversary you don't trust, who may harm you, or who you may even feel is evil. This lively, informative, emotionally compelling book identifies the tools one needs to make wise decisions about life's most challenging conflicts.

"Filled with great strategies you can immediately put to use in your business and personal lives . . . extremely entertaining, thought-provoking." —Tyra Banks, CEO, TYRA Beauty, and creator of America's Next Top Model Some negotiations are easy. Others are more difficult. And then there are situations that seem completely hopeless. Conflict is escalating, people are getting aggressive, and no one is willing to back down. And to top it off, you have little power or other resources to work with. Harvard professor and negotiation adviser Deepak Malhotra shows how to defuse even the most potentially explosive situations and to find success when things seem impossible. Malhotra identifies three broad approaches for breaking deadlocks and resolving conflicts, and draws out scores of actionable lessons using behind-the-scenes stories of fascinating real-life negotiations, including drafting of the US Constitution, resolving the Cuban Missile Crisis, ending bitter disputes in the NFL and NHL, and beating the odds in complex business situations. But he also shows how these same principles and tactics can be applied in everyday life, whether you are making corporate deals, negotiating job offers, resolving business disputes, tackling obstacles in personal relationships, or even negotiating with children. As Malhotra reminds us, regardless of the context or which issues are on the table, negotiation is always, fundamentally, about human interaction. No matter how high the stakes or how protracted the dispute, the object of negotiation is to engage with other human beings in a way that leads to better understandings and agreements. The principles and strategies

in this book will help you do this more effectively in every situation. “This book is Pink, New York Times-bestselling author magic for any deal maker.” —Daniel H.
