"Since singing is so good a thing, I wish all men would learn to sing" (William Byrd, 1588) Over the centuries, there has been reluctance among boys and men to become involved in some forms of singing. Perspectives on Males and Singing tackles this conundrum head-on as the first academic volume to bring together leading thinkers and practitioners who share their insights on the involvement of males in singing. The authors share research that

analyzes the axiomatic male disinclination to sing, and give strategies designed to engage males more successfully in performing vocal music emphasizing the many positive effects it can have on their lives. Inspired by a meeting at the Australian symposium 'Boys and Voices', which focused on the engagement of boys in singing, the volume includes contributions from leading authorities in Australia, New Zealand, Canada, the United States and Europe.

For the first time, Appetite for Self-Destruc-

tion recounts the epic story of the precipitous rise and fall of the recording industry over the past three decades, when the incredible success of the CD turned the music business into one of the most glamorous, high-profile industries in the world -- and the advent of file sharing brought it to its knees. In a comprehensive, fast-paced account full of larger-than-life personalities, Rolling Stone contributing editor Steve Knopper shows that, after the incredible wealth and excess of the '80s and '90s, Sony, Warner, and the other big players brought about their own downfall through years of denial and bad decisions in the face of dramatic advances in technology. Big Music has been asleep at the wheel ever since Napster revolutionized the way music was distributed in the 1990s. Now, because powerful people like Doug Morris and Tommy Mottola failed to recognize the incredible potential of file-sharing technology, the labels are in danger of becoming completely obsolete. Knopper, who has been writing about the industry for more than ten years, has unparalleled access to those intimately involved in the music world's highs and lows. Based on interviews with more than two hundred music industry sources -- from Warner Music chairman Edgar Bronfman Jr. to renegade Napster creator Shawn Fanning -- Knopper is the first to offer such a detailed and sweeping contemporary history of the industry's wild ride through the past three decades. From the birth of the compact disc, through the explosion of CD sales in the '80s and '90s, the emergence of Napster, and the secret talks that led to iTunes, to the current collapse of the industry as CD sales plummet, Knopper takes us inside the boardrooms, recording studios, private estates, garage computer labs, company jets, corporate infighting, and secret deals of the big names and behind-the-scenes players who made it all happen. With unforgettable portraits of the music world's mighty and formerly mighty; detailed accounts of both brilliant and stupid ideas brought to fruition or left on the cutting-room floor; the dish on back-room schemes, negotiations, and brawls; and several previously unreported stories, *Appetite for Self-Destruction* is a riveting, informative, and highly entertaining read. It offers a broad perspective on the current state of Big Music, how it got into these dire straits, and where it's going from here -- and a cautionary tale for the digital age. "Wilson's collection is romantic yet world-weary, bereaved yet fortified—a kindred reflection of the heart in the modern world." —Publishers Weekly *Fieldnotes on Ordinary Love* is a collection whose poems

approach family, politics, and romance, often through the lens of space: the vagaries of a relationship full of wonder and coldness, separation and exploration. There is the sense of the speaker as a cartographer of familiar spaces, of land he has never left or relationships that have stayed with him for years, and always with the newness of an alien or stranger. Acutely attuned to the heritage of Greco-Roman myth, Wilson writes through characters such as the Basilisk and the Minotaur, emphasizing the intense loneliness these characters experience from their uniqueness. For the racially ambiguous speaker of these poems, who is both black and not black, who has lived between the American South and the Midwest, there are no easy answers. From the fields of Kentucky to the pigeon coops of Chicago, identities and locations blur—the pastoral bleeds into the Afrofuturist, black into white and back again."

LOVECRAFTIAN AND COSMIC HORROR FROM W.H. PUGMIRE AND JEFFREY THOMAS Enoch Coffin is a proud inhabitant of Massachusetts, an artist following in the footsteps of local legend Richard Upton Pickman. Coffin is an artist with a singular quest: to capture in paint, or ink, or clay -- however he might -- sights that no mortal has ever portrayed in art before...and lived to exhibit. His quest will take him throughout actual New England locations, and that other New England of H. P. Lovecraft, where his models will be doomed souls, ravaging ghouls, and entities from beyond the veil. Individually acclaimed for their weird fiction, in this collection of short stories authors W. H. Pugmire and Jeffrey Thomas collaborate to paint the portrait of a character every bit as fascinating and unique as the subjects of his artistic encounters. "The prose-poet of the horror/fantasy field; he may be the best prose-poet we have...perhaps the leading Lovecraftian author writing today." - S. T. Joshi

Poised at the epicentre of an explosive underground scene, photographer Peterson witnessed the birth of a brash new era of music that grabbed the world by its throat and refused to let go. Grunge, the bastard child of '60s garage and '70s punk, revived the original gritty spirit of rock'n'roll rebellion. Featuring 91 b/w photographs, Peterson does not rely on the cult of celebrity to tell this compelling tale, rather he tells of the complicity between band and audience and captures the raw, futile and bored alienation of the music and the scene.

When Billboard Associate Publisher, Jim Beloff purchased his first ukulele at the Rose Bowl Flea Market in 1992, there were no ukulele songbook collections on the market—none—just a few vintage instructional books. As an already-accomplished guitarist, this frustrated Jim, who had fallen in love instantly with this little instrument. Sensing that there might be an opportunity to fill this void, he and his graphic-artist wife, Liz, created Flea Market Music, Inc., which, for thirty years, has published more than three dozen song and instructional

books, totaling over one million copies in print. They have also grown the ukulele market through their influential fleamarket-music.com website, the creation of the popular UKetopia concert series, marketing and promoting their family's line of ukuleles, consulting on two major museum shows, and a continuous performing schedule. At the same time, Jim (aka Jumpin' Jim) wrote the first complete full-color history book on the ukulele, recorded and produced nearly a dozen CDs, made three instructional DVDs, composed two ukulele concertos for symphony orchestra, penned numerous articles for ukulele and trade magazines, and continues to lead workshops at uke festivals throughout the world. Today, Jim and Liz are recognized as having played a major role in the current third wave of ukulele popularity. They've also accumulated a lot of wonderful stories and photographs in their almost three decades of ukulele adventures that are included in UKetopia! Jim also recounts some stories of memorable experiences trading licks and working with celebrities such as George Harrison, Bette Midler, William H. Macy, Eddie Vedder and, yes, Tiny Tim.
