A New York Times Bestseller • A Read with Jenna Today Show Book Club Pick! Named a Best Book of the Year by The New York Times Book Review, The Washington Post, People, Entertainment Weekly, USA Today, TIME, The A.V. Club, BuzzFeed, and PopSugar "I can't believe how good this book is.... It's wholly original. It's also perfect.... Wilson writes with such a light touch.... The brilliance of the novel [is] that it distracts you with these weirdo characters and mesmerizing and funny sentences and then hits you in a way you didn't see coming. You're laughing so hard you don't even realize that you've suddenly caught fire." —Taffy Brodesser-Akner, author of *Fleishman is in Trouble*, New York Times Book Review From the New York Times bestselling author of *The Family Fang*, a moving and uproarious novel about a woman who finds meaning in her life when she begins caring for two children with a remarkable ability. Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian had to leave the school unexpectedly in the wake of a scandal and they've barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison's twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there's a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way. Lillian is convinced Madison

is pulling her leg, but it's the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has nothing to lose. Over the course of one humid, demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison's buttoned-up politician husband. Surprised by her own ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange children as much as they need her—urgently and fiercely. Couldn't this be the start of the amazing life she'd always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most unusual story of parental love.

Late one night, while pondering whether to accept the task of recording Miss Winter's personal story, Margaret begins to read her father's rare copy of Miss Winter's *Thirteen Tales of Change and Desperation*. She is spellbound by the stories and confused when she realizes the book only contains twelve stories. Where is the thirteenth tale? Intrigued, Margaret agrees to meet Miss Winter and act as her biographer. As Vida Winter unfolds her story, she shares with Margaret the dark family secrets that she has long kept hidden as she remembers her days at Angelfield, the now burnt-out estate that was her childhood home. Ten years ago, a powerful machine intelligence unleashed a nanoengineered superdrug on humanity. Civilization is now a collection of mindless addicts confined to automated treatment centers that tower over drone-dominated cityscapes. Having escaped and grown up in the forests of Northern California alongside their younger brother and brilliant scientist/survivalist mother, Clo and El stayed safe while society collapsed around them. mysterious stranger and a demonic woodland creature appear and threaten their family, the twins are drawn back to a disintegrating, drug-addled San Francisco. There, biomechanical gods and monsters vie for control of what's left of humanity's consciousness. In Lori Lansens' astonishing second novel, readers come to know and love two of the most remarkable characters in Canadian fiction. Rose and Ruby are twenty-nine-year-old conjoined twins. Born during a tornado to a shocked teenaged mother in the hospital at Leaford, Ontario, they are raised by the nurse who helped usher them into the world. Aunt Lovey and her husband, Uncle Stash, are middle-aged and with no children of their own. They relocate from the town to the drafty old farmhouse in the country that has been in Lovey's family for generations. Joined to Ruby at the head, Rose's face is pulled to one side, but she has full use of her limbs. Ruby has a beautiful face, but her body is tiny and she is unable to walk. She rests her legs on her sister's hip, rather like a small child or a doll. In spite of their situation, the girls lead surprisingly separate lives. Rose is bookish and a baseball fan. Ruby is fond of trash TV and has a passion for local history. Rose has always wanted to be a writer, and as the novel opens, she begins to pen her autobiography. Here is how she begins: I have never looked into my sister's eyes. I have never bathed alone. I have never stood in the grass at night and raised my arms to a beguiling moon. I've never used an airplane bathroom. Or worn a hat. Or been kissed like that. I've never driven a car. Or slept through the night. Never a private talk. Or solo walk. I've never climbed a tree. Or faded into a crowd. So many things I've never done, but oh, how I've been loved. And, if such things were to be, I'd live a thousand lives as me, to be loved so exponentially. Ruby, with her marvellous characteristic logic, points out that Rose's autobiography will have to be Ruby's as well — and how can she trust Rose to represent her story accurately? Soon, Ruby decides to chime in with chapters of her own. The novel begins with Rose, but eventually moves to Ruby's point of view and then switches back and forth. Because the girls face in slightly different directions, neither can see what the other is writing, and they don't tell each other either. The reader is treated to sometimes overlapping stories told in two wonderfully distinct styles. Rose is given to introspection and secrecy. Ruby's style is "tell-all" — frank and decidedly sweet. We learn of their early years as the town "freaks" and of Lovey's and Stash's determination to give them as normal an upbringing as possible. But when we meet them, both Lovey and Stash are dead, the girls have moved back into town, and they've received some ominous news. They are on the verge of becoming the oldest surviving craniopagus (joined at the head) twins in history, but the question of whether they'll live to celebrate their thirtieth birthday is suddenly impossible to answer. In *Rose and Ruby*, Lori Lansens has created two precious characters, each distinct and loveable in their very different ways, and has given them a world in Leaford that rings absolutely true. The girls are unforgettable. *The Girls* is nothing short of a tour de force.

Do the twins, Casey and Ali finally get the happy ending they are hoping for? Or does Meg's influence change everything to such a degree that Ali's life is forced to take a different path.
