Maintenance on a Brushless DC motor is minimal. POWERTEC offers the GENESIS series for general purpose industrial use. POWERTEC also offers a complete line of servo-duty rated drives and motors covering the range from 1/10 to 300 HP. QUICK START - Page 3... The brushless DC motor is a true synchronous motor. The rotor field is always in sync with the excitation field; it does not have losses due to slip. This factor, inherent to brushless DC design, combined with various primary and secondary feedback options, allows for precise speed and torque control.
