These days college is not a luxury but a necessity. With four (or more) long years of college life ahead of them, it's essential that students have some help to make the most of their time. This book explains how, featuring peers who talk directly and personally to students. Here, hundreds of successful college grads explain how to get top grades, find the right major, manage time, stay motivated, avoid stress, seek out the best teachers and courses, form important relationships, and graduate — happily — at the top of the class. Short, pithy chapters cover such topics as writing a good paper, research and the college library, taking advantage of college support services, balancing athletics and academics, navigating modern college technology, and more.

Life changes in an instant. On a foggy beach. In the seconds when Abby Mason—photographer, fiancée soon-to-be-stepmother—looks into her camera and commits her greatest error. Heartbreaking, uplifting, and beautifully told, here is the riveting tale of a family torn apart, of the search for the truth behind a child's disappearance, and of one woman's unwavering faith in the redemptive power of love—all made startlingly fresh through Michelle Richmond's incandescent sensitivity and extraordinary insight. Six-year-old Emma vanished into the thick San Francisco fog. Or into the heaving Pacific. Or somewhere just beyond: to a parking lot, a stranger's van, or a road with traffic flashing by. Devastated by guilt, haunted by her fears about becoming a stepmother, Abby refuses to believe that Emma is dead. And so she searches for clues about what happened that morning—and cannot stop the flood of memories reaching from her own childhood to illuminate that irreversible moment on the beach. Now, as the days drag into weeks, as the police lose interest and fliers fade on telephone poles, Emma's father finds solace in religion and scientific probability—but Abby can only wander the beaches and city streets, attempting to recover the past and the little girl she lost. With her life at a crossroads, she will leave San Francisco for a country thousands of miles away. And there, by the side of another sea, on a journey that has led her to another man and into a strange subculture of wanderers and surfers, Abby will make the most astounding discovery of all—as the truth of Emma's disappearance unravels with stunning force. A profoundly original novel of family, loss, and hope—of the choices we make and the choices made for us—*The Year of Fog* beguiles with the mysteries of time and memory even as it lays bare the deep and wondrous workings of the human heart. The result is a mesmerizing tour de force that will touch anyone who knows what it

means to love a child. BONUS: This edition includes an excerpt from Michelle Richmond's *Golden State*.

The Iron Dream is a metafictional 1972 alternate history novel by Norman Spinrad. The book has a nested narrative that tells a story within a story. On the surface, the novel presents an unexceptional science fiction action tale entitled *Lord of the Swastika*. This is a pro-fascist narrative written by an alternate history version of Adolf Hitler, who in this timeline emigrated from Germany to America and used his modest artistic skills to become first a pulp-SF illustrator and later a science fiction writer in the L. Ron Hubbard mold (telling lurid, purple-prosed adventure stories under a thin SF-veneer). Spinrad seems intent on demonstrating just how close Joseph Campbell's *Hero with a Thousand Faces*—and much science fiction and fantasy literature—can be to the racist fantasies of Nazi Germany. The nested narrative is followed by a faux scholarly analysis by a fictional literary critic, Homer Whipple, of New York University.

Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was Morrie Schwartz, his college professor from nearly twenty years ago. Maybe, like Mitch, you lost track of this mentor as you made your way, and

the insights faded, and the world seemed colder. Wouldn't you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man's life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final “class”: lessons in how to live. Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie's lasting gift with the world.

A wedding. A trip to Spain. The most infuriating man. And three days of pretending. Or in other words, a plan that will never work. Catalina Martín, finally, not single. Her family is happy to announce that she will bring her American boyfriend to her sister's wedding. Everyone is invited to

come and witness the most magical event of the year. That would certainly be tomorrow's headline in the local newspaper of the small Spanish town I came from. Or the epitaph on my tombstone, seeing the turn my life had taken in the span of a phone call. Four weeks wasn't a lot of time to find someone willing to cross the Atlantic-from NYC and all the way to Spain-for a wedding. Let alone, someone eager to play along with my charade. But that didn't mean I was desperate enough to bring the 6'4 blue eyed pain in my ass standing before me, Aaron Blackford. The man whose main occupation was making my blood boil had just offered himself to be my date. Right after inserting his nose in my business, calling me delusional, and calling himself my best option. See? Outrageous. Aggravating. Blood boiling. And much to my total despair, also right. Which left me with a surly and extra large dilemma in my hands. Was it worth the suffering to bring my colleague and bane of my existence as my fake boyfriend to my sister's wedding? Or was I better off coming clean and facing the consequences of my panic induced lie? Like my abuela would say, que dios nos pille confesados. The Spanish Love Deception is an enemies-to-lovers, fake-dating.
