When first published, *Capitalism as if the World Matters*, by one of the leading 'eco-warriors' of our time, shocked a generation of both environmentalists and business people. Jonathon Porritt brushed aside their artificial battle lines with a powerful argument that the only way to save the world from environmental catastrophe is to embrace a new type of capitalism, and to do it quickly.

Capitalism as if the World Matters - SILO.PUB

Many time commercial activities themselves lend to eroding environments: it's up to both business and government to work hand in hand to build a form of capitalism and free market solutions which lend towards sustainability rather than away from it - and to consider the chapters in *CAPITALISM AS IF THE WORLD MATTERS*, which offers commentary and guideposts for building different capital resources.

The Case for Capitalism - Reason.com

Capitalism: As If the World Matters by Jonathon Porritt He suggests that an unmaking of capitalism is not only necessary, but possibly pre-conditional for a transformation of the magnitude and nature required by degrowth. 'Unmaking' refers to individual or collective actions of disengagement or active deconstructions of existing capitalist systems that 'make space' for alternatives.

Capitalism as if the World Matters on Apple Books

Capitalism is an economic system where private entities own the factors of production. The four factors are entrepreneurship, capital goods, natural resources, and labor. 1 The owners of capital goods, natural resources, and entrepreneurship exercise control through companies. Individuals own their labor.

As the Middle Ages gave way to the upheavals of the Reformation, the Enlightenment, and rising capitalism, a vanguard of scientists, professors of reason, Protestants, and money men (for they were ...

Product Information. When first published in 2005, Capitalism as if the World Matters, by one of the leading eco-warriors of our time, shocked both a generation of environmentalists and a generation of business people by brushing aside their petty squabbles and artificial battle lines with a powerful argument that the only way to save the world from fuel shortages, climate change and ...

One of Cambridge Sustainability's Top 50 Books for Sustainability, as voted for by our alumni network of over 3,000 senior leaders from around the world. To find out more, click here. Capitalism as if the World Matters starts with the sobering message that, despite growing interest in sustainability, things are still going from bad to worse. This is caused by population growth, a consumption-driven economy, and our inability to accept that there are ecological limits.
