The foundation and guiding principles for all our work is Catholic social teaching, a body of thought on social issues that has been developed by the Church over the past hundred years. Catholic social teaching applies Gospel values such as love, peace, justice, compassion, reconciliation, service and community to modern social problems. It continually develops through observation, analysis, and action.

Catholic Social Teaching for Best Practice Caritas works in partnership with communities around the world to end poverty, promote justice and uphold dignity. Partnership ultimately aims to achieve sustainable impact and social transformation for the marginalised.

1 John 3:18 (ESV) Catholic Social Teaching (CST) is based on a tradition of episcopal and papal writings on political, economic and social issues facing our time. CST provides us with a structure on how to encompass and apply these reflections to our daily lives. More importantly, it guides us on how we should respond to our faith as individuals, and actively respond to God's call to work towards a common good.

The Catholic social teaching principle of solidarity is about recognising others as our brothers and sisters and actively working for their good. In our connected humanity, we are invited to build relationships - whakawhanaungatanga - to understand what life is like for others who are different from us.
