 Cultural landscapes are landscapes that have been affected, influenced, or shaped by human involvement. A cultural landscape can be associated with a person or event. It can be thousands of acres or a tiny homestead. It can be a grand estate, industrial site, park, garden, cemetery, campus, and more. Collectively, cultural landscapes are works of art, narratives of culture, and expressions of regional identity.

 Young adults today seem to confront a different economic, cultural, and social landscape than did earlier cohorts. They are coming of age at a time of reduced job opportunities, increasing diversity, and rapid technological change. Three speakers discussed these changes and their effects on the lives of young adults. THE ECONOMIC LANDSCAPE

~~3 The Economic, Cultural, and Social Landscape | Improving ...~~
 A cultural landscape, as defined by the World Heritage Committee, is the "cultural properties represent the combined works of nature and of man". "a landscape designed and created intentionally by man" an "organically evolved landscape" which may be a "relict landscape" or a "continuing landscape" an

"associative cultural landscape" which may be valued because of the "religious, artistic or cultural associations of the natural element."

~~Cultural landscape—Wikipedia~~

Invention. Technological change has a broad impact on culture. For example, the internet allows people to connect to social groups and media that represents a particular worldview. This can result in tribalism whereby people no longer see themselves as part of a greater society.
