The blind Country and Western singer recounts his difficult childhood, describes the highlights of his professional career, and discusses the people and events that contributed to his success

A thousand years before the Winter War, Elgo, prince of the Vanadurin, killed the Dragon Sleeth and returned home with the fabulous wealth from the dead beast's lair. But there was more in the bounty than gems and gold, for the treasure was cursed, and in time it brought death to noble and peasant, war between Man and Dwarf, strife and destruction beyond reckoning. Now, generations later, as the conflict continues, the great Dragon Black Kalgalath, in league with the Wizard Andrak, appears to avenge Sleeth's death and claim the Dragon-cursed hoard. Against this unholy alliance, two sworn enemies set forth to find a legendary

long-lost weapon: a warhammer of incalculable power that may be the only hope of victory. But neither the Warrior Maiden Elyn nor the Dwarf Thork is prepared for the dangers awaiting them on this quest....

Berchtesgaden, Germany, is a beautiful place, set among the gentle meadow-clad hills rising to the sheer heights of bare Alpine peaks. It is here where an elderly woman arrives and recollects her past—and her peripheral role in a chapter of world history. She walks along a beaten path, which has come into being because so many tourists have ventured this way . . . to see something that exists only in her memory. In the summer of 1944, twenty-year-old Marlene is thrilled when her older, more glamorous cousin, Eva Braun, Adolph Hitler's mistress, invites her to come to the Fuhrer's Bavarian mountain retreat. Against her father's wishes, Marlene accepts, and immediately sets forth to

Berghof. There, while Hitler is away desperately trying to turn the tides of war, Marlene finds herself in a strange paradise, a world of opulence and imminent danger, of freedom and surveillance. The two women sneak off and skinny-dip in a nearby-lake, watch films in the Fuhrer's private cinema, and flirt with the SS officers at the dinner table—one of whom will become Marlene's first lover. Initially delighted by Eva's attentions, Marlene later tries to understand the elusive connection between her cousin and the man she loves. In quiet defiance, she begins to commit her own acts of subversion, which include listening to BBC radio broadcasts, forbidden by the Fuhrer. But a clandestine mission of mercy will force her to question her allegiance to both her cousin and her country—and to face the chilling reality that exists outside her sheltered world. Based on the true experiences of Eva Braun's cousin, Gertrude Weisker, who has shared her memories with Sibylle Knauss after more than fifty years of silence, *Eva's Cousin* is a novel that illuminates the banality of the domestic face of evil. It casts a special light on the profound questions of innocence and complicity that still haunt much of the world today.

An irreverent and charming collection of deeply personal essays about the joys of low pop culture and bad taste, exploring coming of age in the 2000s in the age of Hot Topic, Creed, and frosted lip gloss—from the James Beard Award-nominated writer of the *Catapult* column "Store-Bought Is Fine" Tacky is about the power of pop culture—like any art—to imprint itself on our lives and shape our experiences, no matter one's commitment to "good" taste. These fourteen essays are a nostalgia-soaked antidote to the millennial generation's obsession with irony, putting the aesthetics we hate to love—snakeskin pants, *Sex and the City*, Cheesecake Factory's gargantuan menu—into kinder and sharper perspective. Each essay revolves around a different maligned (and yet, Rax would argue, vital) cultural artifact, providing thoughtful, even ro-

mantic meditations on desire, love, and the power of nostalgia. An essay about the gym-tan-laundry exuberance of Jersey Shore morphs into an excavation of grief over the death of her father; in "You Wanna Be On Top," Rax writes about friendship and early aughts girlhood; in another, Guy Fieri helps her heal from an abusive relationship. The result is a collection that captures the personal and generational experience of finding joy in caring just a little too much with clarity, heartfelt honesty, and Rax King's trademark humor. A new understanding of the Anthropocene that is based on mutual transformation with nature rather than control over nature. We have been told that we are living in the Anthropocene, a geological era shaped by humans rather than by nature. In *Enlivenment*, German philosopher Andreas Weber presents an alternative understanding of our relationship with nature, arguing not that humans control nature but that humans and nature exist in a commons of mutual transformation. There is no nature-human dualism, he contends, because the fundamental dimension of existence is shared in what he calls "aliveness." All subjectivity is intersubjectivity. Self is self-through-other. Seeing all beings in a common household of matter, desire, and imagination, an economy of metabolic and economic transformation, is "enlivenment." This perspective allows us to move beyond Enlightenment-style thinking that strips material reality of any subjectivity. To take this step, Weber argues, we need to supplant the concept of techné with the concept of poiesis as the element that brings forth reality. In a world not divided into things and ideas, culture and nature, reality arises from the creation of relationships and continuous fertile transformations; any thinking in terms of relationships comes about as a poetics. The self is always a function of the whole; the whole is equally a function of the individual. Only this integrated freedom allows humanity to reconcile with the natural world. This first English edition of *Enlivenment* has been expanded and updated from the German edition.

Die Automatismenforschung untersucht strukturbildende Prozesse jenseits bewusster Planungen. Sie zeigt, dass Entwicklungsprozesse, auch wenn sie nicht zentral, intentional und von »oben« geregelt werden, dennoch ein hohes Maß an Ordnung hervorbringen und dass es möglich ist, auf dieser Basis neue Entwicklungslogiken, neue Arten von Kausalität und Gesetzmäßigkeit in Wirkung zu beschreiben. Charakteristisch für Automatismen ist, dass sie weder dem Bewusstsein noch dem (gesellschaftlich) Unbewussten zuzurechnen sind, dass sie vielmehr auf der Grenze zwischen beiden Sphären operieren. Der Band stellt Ergebnisse der letzten fünf Jahre Automatismenforschung dar. Die Beiträge werfen aus verschiedenen Fachperspektiven einen Blick auf das Konzept der Automatismen und verhelfen den komplexen Zusammenhängen der Strukturentstehung in Informationstechnik, Medien und Kultur zur Sichtbarkeit.

This book is a groundbreaking history of balance, exploring how a new model of equilibrium emerged during the medieval period.

Despite its origins in European models, the practice of art history in the United States has evolved into institutional protocols distinct from those of countries such as Germany, France, England, and the Netherlands. Fourteen international scholars examine how these varying disciplinary practices might be characterized, in theory and actuality, in the past and the present, comparing the function of higher education in different national contexts and the extent that professionalization encourages or limits critical innovation.

Mr. Tanner runs a dry cleaning shop in Dayton, Ohio, where he spends his days greeting his customers with his beautiful baritone voice. His friends and neighbors encourage him to sing professionally instead of cleaning clothes. He eventually takes a chance and travels to New York City to be heard by a concert agent and critics, only to find they weren't hearing what he was feeling. The

song Mr. Tanner was released in 1973 off Harry Chapin's Short Stories album. The song was inspired by a mediocre review about a baritone singer in The New York Times. A portion of the proceeds from the sale of this book will go to help support WhyHunger, a charity championed by Harry Chapin himself.

Acclaimed illustrator Jennifer Phelan reimagines Wade Hemsworth's iconic log driver in a beautiful, contemporary picture-book adaptation of a beloved Canadian classic. If you ask any girl from the parish around What pleases her most from her head to her toes She'll say I'm not sure that it's business of yours But I do like to waltz with a log driver Based on the perennially popular Canadian folk song and animated short film of the same name, The Log Driver's Waltz showcases a spunky, independent young woman whose parents are keen for her to marry. The town's well-to-do doctors, merchants, and lawyers try to impress her, but it's the humble log driver—with his style, grace, and joie de vivre—who captures her attention. When she and the log driver finally meet on the dance floor, their joy leaps off the page. With homages to the original film, and celebrating the flora, fauna, and folk art of this great land, The Log Driver's Waltz brings a hallmark of Canadian childhood to life.

Most Jesus specialists agree that the Temple incident led directly to Jesus' arrest, but the precise relationship between Jesus and the Temple's administration remains unclear. Jesus and the Temple examines this relationship, exploring the reinterpretation of Torah observance and traditional Temple practices that are widely considered central components of the early Jesus movement. Chal-

lenging a growing tendency in contemporary scholarship to assume that the earliest Christians had an almost uniformly positive view of the Temple's sacrificial system, Simon J. Joseph addresses the ambiguous, inconsistent, and contradictory views on sacrifice and the Temple in the New Testament. This volume fills a significant gap in the literature on sacrifice in Jewish Christianity. It introduces a new hypothesis positing Jesus' enactment of a program of radically nonviolent eschatological restoration, an orientation that produced Jesus' conflicts with his contemporaries and inspired the first attributions of sacrificial language to his death.

Twelve Years a Slave (1853) is a memoir and slave narrative by Solomon Northup, as told to and edited by David Wilson. Northup, a black man who was born free in New York, details his kidnapping in Washington, D.C. and subsequent sale into slavery. After having been kept in bondage for 12 years in Louisiana by various masters, Northup was able to write to friends and family in New York, who were in turn able to secure his release. Northup's account provides extensive details on the slave markets in Washington, D.C. and New Orleans and describes at length cotton and sugar cultivation on major plantations in Louisiana.

My resurrection, they call it. They have no bloody idea. Shipwrecked and lost, left for dead, Abandoned by my own family. Drugged and addicted. My wife saved me, brought me home. Bitter disappointments, painful secrets, age-old jealousies are my new shipwreck, and my wife my new opium. Is satisfaction to be found in revenge or revenge in satisfaction? One

thing I do know, without each other we're both doomed.

This book starts from three observations. First, the use of humour is a complex, puzzling, and idiosyncratically human form of behaviour (and hence is of scientific interest). Second, there is currently no theory of how humour works. Third, one useful step towards a theory of humour is to analyze humorous items in precise detail, in order to understand their mechanisms. The author begins by considering how to study jokes rigorously: the assumptions to make, the guidelines to follow and the pitfalls to avoid. A critique of other work on humour is also provided. This introduces some important concepts, and also demonstrates the lack of agreement about what a theory of humour should look like. The language devices used in various jokes, such as puns or humour based on misinterpretation, are analysed in detail. The central part of the book develops, and demonstrates, proposals for how best to analyze the workings of simple jokes. Finally, the author makes some general suggestions about the language devices that seem to be central to the construction of jokes. The Linguistic Analysis of Jokes will be invaluable for researchers and advanced students of humour research, linguistics and cognitive science.

Author Kimberly Stringer has been following Christian singer Kathy Troccoli since the 1980s. She has attended Troccoli's concerts, conferences, and cruises. While attending one of the early events with the popular singer, Kimberly's twin sister Kara, a speech and language therapist, volunteered to do the sign language for the song, Go Light Your World. That began a personal relationship between the women, the singer and her staff. As the owner of Kreative Kids Academy in Wichita, Kimberly had always wanted to do a children's book based on the inspiring lyrics to Go Light Your World. After obtaining permission from Troccoli, Kimberly wrote her own "lyrics" aimed at the children in her classrooms. They had already been schooled in the academy's motto, "Never hurt anyone on the inside or the outside." They will already be familiar with the message of this latest children's book by Stringer, beautifully illustrated by Debbie Fleck. In November of 2021, as Kimberly and her husband attended another Kathy Troccoli event in Destin, Florida, the down-to-earth singer and her crew sang Go Light Your World to the Kreative Kids students on FaceTime. They were thrilled and excited. Just like all young readers will be with this book. It should make them eager to carry their own marvelous lights out into a world that longs for kindness and love.
