In order to attain a CCNA certification in the Data Center track, candidates are required to pass in the 200-150 DCICN and 200-155 DCICT exams. Cisco does not have any formal prerequisites for candidates appearing for these exams. The certification is valid for a period of three years after which candidates can get recertified by giving any of Cisco's prescribed recertification exams. The process of recertification ensures that a candidate's knowledge and skill set are on par with ...

200-155 DCICT Practice - learningnetwork.cisco.com Introducing Cisco Data Center Networking (DCICT) Retired. The 200-155 exam has been retired as of February 24, 2020. 200-155 DCICT. Certification: CCNA Data Center. Duration: 120 minutes (65 - 75 questions) Available languages: English.

Exam overview.

The CCNA Data Center certification requires you to pass two exams, with no other prerequisites. Passing a single exam does not give you any certification at all. Although you can pass the exams in either order, most people start with the DCICN 640-911 exam, with DCICT relying on knowledge obtained in DCICN (see Figure 1).
