Contemporary Environmental Accounting: Issues, Concepts and Practice has been written by two of the world's leading experts in the field in order to provide the most comprehensive and state-of-the-art textbook on environmental accounting yet attempted. The book is suitable for both undergraduate and graduate students and their teachers, professional accountants, and corporate and organisational managers. Although no prior knowledge of environmental accounting is necessary to understand the critical issues at stake, academic accountants will also find

that the book provides a useful introduction to the topic. The goals of the book are to discuss and illustrate contemporary conceptual approaches to environmental accounting; to make readers aware of crucial controversial topics; and to offer practical examples of how the concepts have been applied throughout Europe, North America and Australia. In order to increase the usefulness of the book for relevant courses, each chapter concludes with a set of questions for review. This book is essential reading for all those who are interested in how environmental issues influence accounting. A solutions manual is available on request with the

Now in its tenth edition, *Contemporary Accounting: A Strategic Approach for Users* is designed for one-semester introductory accounting courses at undergraduate or MBA level, for both accounting and non-accounting majors. The text has been updated throughout to strengthen the content for first-year students, and to integrate financial and management accounting. Associate Dean Phil Hancock (UWA) and Assistant Professor Peter Robinson (UWA) have worked together to add three new, online-only (MindTap)

financial accounting chapters that bridge the gap between assumed and actual knowledge, and have redesigned the pedagogical features to make the text friendlier to first-year learners. It has also been appropriately updated for currency, including an extract from the Annual Report of Woolworths Limited for the year ending 30 June 2018 as an appendix. Premium online teaching and learning tools are available on the MindTap platform. Learn more about the online tools cengage.com.au/mindtap

Intermediate Accounting is quickly becoming the most popular resource in its field due to its rigorous yet readable approach to coursework and the coherent, consistent voice of the author team. The Spiceland team is committed to providing current, comprehensive, and clear coverage of intermediate accounting, and the ninth edition continues to leverage Connect as the premier digital teaching and learning tool on the market. Spiceland excels in fully preparing students for the CPA exam and their future careers through the material's highly acclaimed conversational writing style, carefully tuned pedagogy, and

wealth of online tools. Spiceland helps students develop a better understanding of both theoretical and practical concepts, guiding them to a more complete mastery of accounting principles. The new ninth edition fully integrates the latest FASB updates, including: Leases (ch. 15) Financial instruments (ch. 12) Revenue recognition (ch. 5) An extensive collection of NEW technology assets highlight further enhancements in this edition, such as: Concept Overview Videos Excel Simulations General Ledger Problems Accounting Cycle Review Improved Connect user interface

The emphasis of *Managerial Accounting*, 9th edition is on teaching students to use accounting information to best manage an organization. In a practice Hilton pioneered in the first edition, each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. Known for balanced examples of Service, Retail, Nonprofit and Manufacturing companies, Hilton offers a clear, engaging writing style that has been praised by instructors and students alike. As

in previous editions, there is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting and performance evaluation.

Contemporary Issues in Accounting is written for upper level, advanced financial accounting subjects. The text explores advanced accounting concepts and policies by applying them to a range of contemporary accounting issues. The accounting topics discussed reflect the issues that are being considered in professional practice such as approaches to measurement, fair value accounting, the Conceptual Framework for financial reporting, corporate governance, environmental accounting and sustainability, earnings management and the financial indicators of corporate collapse. The practical orientation of the text makes it ideal for a capstone subject whereby students can use their accounting knowledge attained during their studies to discuss, analyse and critically evaluate a range of issues they are likely to deal with once they enter

the profession.

Thoroughly updated to address the issues faced in the current volatile accounting climate both regionally and internationally, this new edition provides students with detailed coverage of contemporary accounting principles, regulations, theory and research practices. In keeping with the current IASB Framework, the latest edition incorporates new topic coverage on sustainability reporting, fair value reporting and ethics as well as many recent developments in accounting regulation. Financial Accounting Theory, third edition, provides students with an appreciation of the origin and significance of financial accounting theory, explores application of this theory in the current accounting environment and provides a forum for discussion on the possible future directions financial accounting theory, research and practice might take. Chapters: 1. The history and development of accounting. 2. The nature and uses of accounting. 3. Traditional approaches to the formulation of an accounting theory. 4. The regulatory approach to the formulation of an accounting theory. 5. A conceptual framework for financial account-

ing and reporting. 6. The structure of accounting theory. 7. Fairness, disclosure and future trends in accounting. 8. Research perspectives in accounting. 9. Accounting: a multiple paradigm science. 10. The events and behavioural approach. 11. The predictive and positive approaches. 12. Current-value accounting. 13. Alternative asset-valuation and income-determination models. 14. International accounting and shift to IFRS. 15. Social Accounting and sustainable reporting. 16. Ethics.

Covering established and emerging areas in the fast changing field of management accounting, this work discusses accounting practices such as budgeting, costing, responsibility accounting and capital investment analysis.

This fifth edition of Trotman's Financial Accounting: An Integrated Approach incorporates comprehensive coverage of new issues in sustainability with a new chapter dedicated to current and emerging issues, while building upon the approachable, user-friendly, Australian-focused style of previous editions. This new edition continues to provide students with a detailed understanding of the ac-

counting framework in a balanced and engaging approach that provides non-accounting majors with enough details to understand and analyse company financial statements and provides accounting majors with a sound basis for future studies in accounting. Drawing on topical source documents and newspaper articles, *Financial Accounting: An Integrated Approach* makes accounting interesting and relevant.

Wahlen/Baginski/Bradshaw is a balanced, flexible, and complete *Financial Statement Analysis* book that is written with the premise that students learn financial statement analysis most effectively by performing the analysis on actual companies. Students learn to integrate the concepts from economics, finance, business strategy, accounting, and other business disciplines through the integration of a unique six-step process. 'This book will be welcomed by students and academics alike. The text is easy to read and well laid out, the case studies are very helpful, and it is

supplemented by a good range of quality supporting material' Christopher Coles, Department of Accounting and Finance, University of Glasgow 'A hugely enjoyable and informative book with an international focus' Eleimon Gonis, University of the West of England, Bristol *Financial Accounting* is the ideal book for anyone with little prior knowledge or who is new to this subject area. The book retains the clear writing style and unique international focus which led to the success of previous editions. This approach enables the teaching of financial accounting in a way that is not country-specific. This fully updated text uses the International Financial Reporting Standards (IFRS) as its framework to explain key concepts and practices while linking them with contemporary real-life examples from around the world. What's new! Fully updated to reflect the extensive changes that have occurred in the three years since writing the fifth edition; Expanded discussion of accounting by SMEs and partnerships (Chapter 4); New discussion on capital maintenance (Chapter 8); Added material on integrated reporting and sustainability (Chapter 6); Ex-

panded discussion of revenue recognition, including reference to IFRS 15 (Chapter 8). The text is ideal for undergraduates and MBA students worldwide taking a first course in financial accounting. Visit

the book.

This is the latest edition of the world's best-selling textbook on bookkeeping and accounting. It contains a large number of questions and answers and worked examples.

The book explores the developing challenges and opportunities within the business and finance world which are likely to impact the accounting profession in the near future. It outlines a number of approaches to ensure that the accountants of the future are equipped with a useful awareness of some of the key topic areas that are quickly becoming a reality and helps bridge the gap between academia and practice. The chapters are standalone introductory pieces to provide useful précis of key topics and how they apply to the accounting profession in particular. It aims to deliver key readings on 'hot topics' not addressed in other texts which the accounting profession is tackling or are likely to tackle soon. Hence the book provides accounting students and researchers a solid grounding in a broad range of highly relevant non-technical accounting themes, looking at the bigger environment in which future accoun-

ants will be operating, involving considerations of strategic corporate governance issues and highlighting competences beyond the standard technical accounting skill sets.

This book contains 35 carefully selected and abridged versions of scholarly financial and managerial research articles by world-class researchers ranging across a wide spectrum of the social, po-

litical and philosophical sides of financial and managerial accounting information and practices to focus on accounting's wider role and impact on organizations and society at large. While each article was substantially culled in order to highlight its central findings and its unique approach, care was exercised to maintain the integrity of the authors' work. The result is a collection of readily accessible research including: classics and seminal articles, a selection of more contemporary articles, and recent articles that go beyond the conventional. Thus, the book pushes the boundaries beyond that of conventional accounting thought and research. This anthology will be of interest especially to graduate students since it provides a broad sampling of influential research studies presented in a highly accessible format. It should also be of vital interest to sophisticated practitioners who are concerned about the current state of the accounting world in the wake of the recent cascade of so-called "accounting scandals". The hope also is to help bridge the gap between the practitioners' and the scholarly researchers' Worlds.

The book compiles a comprehensive set of case studies in business and accounting from the MENA region. These case studies consist of practical research studies with strong theoretical foundations. Hence, the book is a guide to the industries in various sectors regarding the best practices for efficient business and accounting management. In addition, the book will serve as an important teaching reference for business and accounting courses in the MENA region.
