### Digital Gold Bitcoin And The

While gold has historically played a central role in economies driven by physical exchange, the world we live in today is digital. As our money and payment systems evolve, Bitcoin threatens to displace gold as the ultimate store-of-value asset.

Bitcoin will mature into a gold-like store of value this year, according to the latest projections by Bloomberg. The financial magazine's report, "Bitcoin Maturation Leap," notes that the cryptocurrency is poised for a bull run, after being temporarily dragged by the coronavirus-induced stock market tailspin.
