Outlines requirements for pursuing a merit badge in citizenship in the community. Making a list, sticking to a budget, and comparing prices can stretch food dollars. In this program, students learn how to get the most for their money by calculating unit prices and costs per serving. You are also told the requirements for getting a merit badge in consumer buying.

This is the exciting story of the development of U.S. airmobile power from theory to practice, involving air transport, fixed wing aircraft, and attack helicopters culminating in Vietnam War operations. It in-

cludes analysis of airmobile combat operations; doctrinal and interservice disputes; equipment descriptions; and the organization of combat and support units. It also includes data about airmobility in South Vietnam's army and it features personal reflections of the author, who was at the center of airmobility development and who commanded large airmobile units. John J. Tolson in June 1939 participated in the first tactical air movement of ground forces by the U.S. Army. He was in all combat jumps of the 503d Parachute Infantry Regiment during World War II, became an Army aviator in 1957, and served as Director of Army Aviation and Commandant of the

Army Aviation School. From April 1967 to July 1968 he commanded the 1st Cavalry Division (Airmobile), Vietnam. (Includes many maps and photographs)
Boys' Life is the official youth magazine for

the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting.

In this book, the renowned historian Orest Subtelny, who wrote Ukraine: A History, describes to us how, in 1911, a small group of teachers, whose people lived under foreign rule, at the crossroads of empires, took Baden Powell's idea, adapted it to

their circumstances and formed a scouting organization for the betterment of Ukrainian youth and to provide hope to the Ukrainian nation. The organization was buffeted by history — repression, war, emigration, dispersement throughout the world — and finally found renewal in a free Ukraine. It was an amazing journey, truly a unique story.

Honeybees make decisions collectively--and democratically. Every year, faced with the life-or-death problem of choosing and traveling to a new home, honeybees stake everything on a process that includes collective fact-finding, vigorous debate, and consensus building. In fact, as world-renowned animal behaviorist Thomas Seeley reveals, these incredible insects have much to teach us when it comes to collective wisdom and effective decision making. A remarkable and richly illustrated account of scientific discovery, Honeybee Democracy brings together, for the first time, decades of Seeley's pioneering research to tell the amazing story of house hunting and democratic debate among the honeybees. In the late spring and early summer, as a bee colony becomes overcrowded, a third of the hive stays behind and rears a new queen, while a swarm of thousands departs with the old queen to produce a daughter colony. Seeley describes how these bees evaluate potential nest sites, advertise their discoveries to one another, engage in open deliberation, choose a final site, and navigate together--as a swirling cloud of bees--to their new home. Seeley investigates how evolution has honed the decision-making methods of honeybees over millions of vears, and he considers similarities between the ways that bee swarms and primate brains process information. He concludes that what works well for bees can also work well for people: any decision-making group should consist of individuals with shared interests and mutual respect, a leader's influence should be minimized, debate should be relied upon, diverse solutions should be sought, and the majority should be counted on for a dependable resolution. An impressive exploration of animal behavior, Honeybee Democracy shows that decision-making groups, whether honeybee or human, can be smarter than even the smartest individuals in them.

The mission of the International Journal of Educational Reform (IJER) is to keep readers up-to-date with worldwide developments in education reform by providing scholarly information and practical analysis from recognized international authorities. As the only peer-reviewed scholarly publication that combines authors' voices without regard for the political affiliations perspectives, or research methodologies, IJER provides readers with a balanced view of all sides of the political and educational mainstream. To this end, IJER includes, but is not limited to, inquiry based and opinion pieces on developments in such areas as policy, administration, curriculum, instruction, law, and research. IJER should thus be of interest to professional educators with decision-making roles and policymakers at all levels turn since it provides a broad-based conversation between and among policymakers, practitioners, and academicians about reform goals, objectives, and methods for success throughout the world. Readers can call on IJER to learn from an international group of reform implementers by discovering what they can do that has actually worked. IJER can also help readers to understand the pitfalls of current reforms in order to avoid making similar mistakes. Finally, it is the mission of IJER to help readers to learn about key

issues in school reform from movers and shakers who help to study and shape the power base directing educational reform in the U.S. and the world.

Originally adapted from the British handbook written by Agnes Baden-Powell and Robert Baden-Powell, known for their work with the Boy Scout Association and the Girl Guide Association, How Girls Can Help Their Country was a guide for young Girl Scouts of America in 1913. The tenets of the Girl Scouts are honor, duty, loyalty, kindness, comradeship, purity, cheerfulness, and thriftiness. This handbook describes how girls can establish their own troop, uphold the Girl Scout tenets, and grow to be proper young women. It also outlines more concrete tasks such as camping, games, cooking, and first aid. This edition, written by W.J. Hoxie, was released for the 16th anniversary of the Girl Scouts' founding. W.J. Hoxie was a noted naturalist in Savannah, Georgia in 1913. She prepared the Girl Scout Handbook, How Girls Can Help Their Country, together with Juliette Gordon Low.

A reprint of the first Boy Scouts handbook from 1911 covers woodcraft, camping,

signs and signaling, first aid, chivalry, and games.

Getting the Message Through, the companion volume to Rebecca Robbins Raines' Signal Corps, traces the evolution of the corps from the appointment of the first signal officer on the eve of the Civil War, through its stages of growth and change, to its service in Operation DESERT SHIELD-/DESERT STORM. Raines highlights not only the increasingly specialized nature of warfare and the rise of sophisticated communications technology, but also such diverse missions as weather reporting and military aviation. Information dominance in the form of superior communications is considered to be sine qua non to modern warfare. As Raines ably shows, the Signal Corps--once considered by some Army officers to be of little or no military value--and the communications it provides have become integral to all aspects of military operations on modern digitized battlefields. The volume is an invaluable reference source for anyone interested in the institutional history of the branch.

Published by the Boy Scouts of America for all BSA registered adult volunteers and pro-

fessionals, Scouting magazine offers editorial content that is a mixture of information, instruction, and inspiration, designed to strengthen readers' abilities to better perform their leadership roles in Scouting and also to assist them as parents in strengthening families.

The missing manual The Master-At-Arms merit badge was one of the first 14 original Merit Badges of Baden-Powell's Scouting for Boys movement in the U.S. in 1910, but was then discontinued in 1911. Various versions of the original booklets and merit badge requirements continued in both British and US scouting. This is a reproduction of a 1925 version. As many of the original scout activities had their roots in military scouting and fieldcraft, it was not surprising that this badge was based on then popular forms of martial arts of the era. The key requirements were to become proficient in several of the following: Single-stick, Quarter-staff, Fencing, Boxing, Ju-Jitsu, and Wrestling. This booket is a fascinating look at defensive arts training at the beginning of the 20th Century, and it is also still practical for those interested in learning the basics of these now more

obscure martial sports.

In more than nine decades of Girl Scouting, a vast popular and material culture has given rise to a wealth of Girl Scout history collections. More than an identification guide to uniforms, insignia, and other Girl Scout objects, this work also documents when changes occurred and why new items were introduced. Placing these objects in context, this essential guide provides a discerning look at the history and development of the Girl Scout Movement in the United States. Scholars and aficionados of Girl Scout history, costume history, women's studies, popular culture, and dress will welcome this indispensable and definitive resource. This new, expanded edition, with hundreds of illustrations, photographs, and tables, is indisputably the go-to source for information on all Girl Scout uniforms, insignia, awards, and handbooks, as well as dolls, postcards, posters, calendars, and more--from the founding of the Girl Scouts in 1912 through the present day. "An invaluable resource to Girl Scout councils managing a history collection. And, beyond that . . . an informative and intriguing glimpse . . . into the evolution of a Movement that . . . today is the

world's preeminent organization dedicated solely to girls." -- Cynthia B. Thompson, chair, National Board of Directors, and Kathy Cloninger, national chief executive officer, GSUSA "An indispensable reference for collectors; a fascinating resource for anyone interested in Girl Scouting, this comprehensive guide to Girl Scout memorabilia is firmly grounded in the history of the Girl Scouts of the United States. Mary Degenhardt and Judith Kirsch show us what Girl Scouts wore and read, and explain how changes in uniforms, insignia, and publications reflect the evolution of Girl Scout programs and the expansion of opportunities for American girls. Reading this book is like walking through a fine museum where material culture brings the past to life." -- Anastatia Sims, author of Negotiating Boundaries of Southern Womanhood

In the past decade there has been an intense growth in the number of library publishing services supporting faculty and students. Unified by a commitment to both access and service, library publishing programs have grown from an early focus on backlist digitization to encompass publica-

tion of student works, textbooks, research data, as well as books and journals. This growing engagement with publishing is a natural extension of the academic library's commitment to support the creation of and access to scholarship. This volume includes chapters by some of the most talented thinkers in this area of librarianship, exploring topics such as the economics of publishing and the challenges of collaboration, and surveying the service landscape for publishing in support of a variety of formats and methods.0.

At the first Boy Scout camp held by founder Robert Baden-Powell on Brownsea Island in 1907, the pioneer Boy Scouts were organised into four patrols and presented with a brass fleur-de-lis badge. They were then taught practical outdoor activities, such as knotting, tracking and camping, and tested on these skills. Upon passing the tests, each boy received a bronze badge in the shape of a scroll, featuring the words "Be Prepared". The fleur-de-lis badge would later become the Scout's membership badge, also known as Tenderfoot, while the scroll badge became the Second Class Scout badge. This book compiles various collections of badges

over the past century, from Boy Scouts and Wolf Cubs to Rover/Venture Scouts and adult Scouters. It also contains the collections of related accessories such as hat plumes and medals, as well as information about the history of Scouting. Informative and extensive, A Century of Scouting Badges is required reading for anyone with an interest in the Scouting movement and its story. Reader Reviews: "I spent many happy years of my childhood and youth in the scout movement. Scouting taught me good values and how to be a good leader. I thank Meng Hao for this wonderful book on 100 years of scout badges." —— Professor Tommy Koh, Ambassador-At-Large, Ministry of Foreign Affairs "Wan Meng Hao is to be congratulated on achieving a Scouting first for his country that has yet to equalled in our own. He has produced a systematic and comprehensive encyclopaedia of the badges and artefacts relating to Scouting in Singapore over a 100-year period, since its inception in 1907. (He starts with an illustration of a supposed replica of B-P's brass Brownsea badge). The book is a wonderful compendium of badges and other artefacts beautifully laid out and illustrated in full colour over 200 A4 pages

with interesting and relevant text to tell the story. What makes this book of exceptional interest to our UK members is that up to the 1970s the Scout Association of Singapore relied on the UK Association for it badges and medals etc. The book covers all aspects and sections including WW2 and illustrates over 1,000 items, though it makes no claims to be a 'tick list'. Mr Wan uses his own collection and those of others to depict some very rare items, some of which I have never seen before, to lovingly tell the story of Scouting in his homeland. A wonderful example of what Scout Badge Collecting is all about!" —— UK Scout Historian Colin Walker "After reading the first sample of this book, I was very moved! This book introduces Scouting badges, from the beginning of the movement more than one hundred years ago to today. The author introduces almost all the various identification badges carried on the uniforms of the Scout movement. When I look through the book, I can't help but marvel at the Scout movement. There have been so many creators who have contributed rich treasures to the movement. I have also written books on the history and origins of Scouting, and deeply feel the difficulty

of writing such books. I believe the author must have incomparable enthusiasm and loyalty to scouts. He would have needed to verify the many details—such as the year, location, and origins—information that cannot tolerate errors. A lot of data collection and interview work is required. Every time you see such a high-quality Scout information book, you can feel the hardships that the author has gone through. For all Scouting people and even those who just agree with the concept of Scouting, this book is a treasure trove of information that should not be missed." —— Ho Chung Keung, Hong Kong Scout Leader and writer "Scouting historian Wan Meng Hao's impressive A Century of Scouting Badges is a labour of love, almost two decades in the making. Meng Hao's encyclopaedic knowledge of and passion for Scouting has resulted in this excellent and invaluable contribution to the very limited literature on the Scouting Movement in Singapore and British Malaya. A Century of Scouting Badges weaves in the overarching story of how Scouting has evolved through the years and how the progressive and proficiency badge curriculum enables many scouts to challenge themselves in their Scouting pursuits, to learn useful skills, crafts, and hobbies, to grow in knowledge and understanding of the world around them, to imbibe values and perseverance, and to contribute to their communities in relevant and meaningful ways. The Scouting Movement's badges and awards, so thoughtfully recorded in this work, reminds us of the importance of striving not for its own sake but as a means of learning by doing and giving for the greater good." —— Associate Professor Eugene Tan, Singapore Management University "This book is the result of Mena Hao's journey in documenting scout badges. He explains succinctly the historical evolution of badges, and the book is replete with photo-illustration of badges and how some of these badges were worn. It will undoubtedly serve as a handy compendium for scout badges in Singapore."

 Associate Professor Yeo Kang Shua, Singapore University of Technology and Design

Covering a time of great social and technological change, this history traces the development of the four classic aquatic disciplines of competitive swimming, diving, synchronized swimming and water polo, with its main focus on racing. Working from the beginnings of municipal recreational swimming, the book fully explores the links between swimming and other aspects of English life society including class, education, gender, municipal governance, sexuality and the Victorian invention of the sports amateur-professional divide. Uniquely focused on swimming -often neglected in analytic sports histories- this is the first study of its kind and will be an important landmark in the establishment of swimming history as a topic of scholarly investigation. This book was previously published as a special issue of the International Journal of the History of Sport.
