It will not waste your time. take me, the e-book will utterly song you additional issue to read. Just invest little epoch to read this on-line declaration **Doctor Who The Pirate Planet** as without difficulty as evaluation them wherever you are now.

PNTS42 - RIVERA MORROW

Readers are invited to scrutinize each scene and look to see where the Doctor and his companions are hiding.

Rediscover the lost Doctor Who adventure by Douglas Adams. Intergalactic war? That's just not cricket ... or is it? The Doctor promised Romana the end of the universe, so she's less than impressed when what she gets is a cricket match. But then the award ceremony is interrupted by eleven figures in white uniforms and peaked skull helmets, wielding bat-shaped weapons that fire lethal bolts of light into the screaming crowd. The Krikkitmen are back. Millions of years ago, the people of Krikkit learned they were not alone in the universe, and promptly launched a xenophobic crusade to wipe out all other life-forms. After a long and bloody conflict, the Time Lords imprisoned Krikkit within an envelope of Slow Time, a prison that could only be opened with the Wicket Gate key, a device that resembles - to human eyes, at least - an oversized set of cricket stumps... From Earth to Gallifrey, from Bethselamin to Devalin, from Krikkit to Mareeve II to the far edge of infinity, the Doctor and Romana are tugged into a pan-galactic conga with fate as they rush to stop the Krikkitmen gaining all five pieces of the key. If they fail, the entire cosmos faces a fiery retribution that will leave nothing but ashes...

'Who am I...? WHO AM I?' It's December 1999, and strange things are happening as the new millennium nears. A British police box appears from nowhere in San Francisco's Chinatown and the mysterious man inside it is shot down in the street. Despite the best efforts of Dr Grace Holloway, the man dies and another stranger appears, claiming to be the same person in a different body: a wanderer in time and space known only as the Doctor. But the Doctor is not the only alien in San Francisco. His deadly adversary the Master is murdering his way through the city and has taken control of the TARDIS. The Master is desperate to take the Doctor's newly regenerated body for himself, and if the Doctor does not capitulate, it will literally cost him the Earth... and every last life on it.

'One of the oddities of Doctor Who is that you hear so much about what the fans think, and so little from the other 100 percent of the audience (my stats are clinically accurate.) So thank God for a couple who put their love on the line to set the record straight. This is the story of a fan boy who inflicts every episode ever made of Doctor Who on his marriage. Or to put it another way, this is the story of someone with a proper love and understanding of Doctor Who, trying to explain it to her husband.' Steven Moffat Neil loves Sue. He also loves Doctor Who. But can he bring his two great loves to-

gether? In January 2011, Neil Perryman set out on an insane quest to make his wife Sue watch every episode of the classic series of Doctor Who from the very beginning. Even the ones that didn't exist any more. And so, over the next two and half years, Sue gamely watched them all. From William Hartnell and Tom Baker to Peter Davison and Paul McGann, the result was a wildly successful and hilariously revealing blog called Adventures with the Wife in Space. But the adventure continues. Here Neil Perryman tells the all too true story of Doctor Who fandom. Funny, honest and surprisingly brave, he also captures perfectly the joys - and fears - of sharing the thing you love with the people you love. Adventures With the Wife in Space is, at its heart, the story of Doctor Who, and its fans, seen through the eyes of two people - one who knows almost nothing about the programme and another who knows way too much. 'This is a very, very funny book; touching too.' Jenny Colgan

The hugely powerful Key to Time has been split into six segments, all of which have been disguised and hidden throughout time and space. Now the even more powerful White Guardian wants the Doctor to find the pieces. With the first segment successfully retrieved, the Doctor, Romana and K9 trace the second segment of the Key to the planet Calufrax. But when they arrive at exactly the right point in space, they find themselves on exactly the wrong planet -- Zanak. Ruled by the mysterious 'Captain', Zanak is a happy and prosperous planet. Mostly. If the mines run out of valuable minerals and gems then the Captain merely announces a New Golden Age and they fill up again. It's an economic miracle -- so obviously something's very wrong...

After the success of the fourth, sixth, first, fifth and third "Doctor" handbooks, Stammers and Walker have applied their undisputed talent for research and documentation to one of the most fondly remembered eras of Britain's greatest science fiction show.

The hugely powerful Key to Time has been split into six segments, all of which have been disguised and hidden throughout time and space. Now the even more powerful White Guardian wants the Doctor to find the pieces. With the first segment successfully retrieved, the Doctor, Romana and K9 trace the second segment of the Key to the planet Calufrax. But when they arrive at exactly the right point in space, they find themselves on exactly the wrong planet - Zanak. Ruled by the mysterious 'Captain', Zanak is a happy and prosperous planet. Mostly. If the mines run out of valuable minerals and gems then the Captain merely announces a New Golden Age and they fill up again. It's an economic miracle - so obviously something's very wrong...

The universe is at war. Action takes courage. The TARDIS is ensnared in a time corridor, catapulting it into derelict docklands on 20th century Earth. The Doctor and his companions, Tegan and Tur-

lough, stumble on a warehouse harbouring fugitives from the future at the far end of the corridor – and are soon under attack from a Dalek assault force. The Doctor's oldest enemies have set in motion an intricate and sinister plot to resurrect their race from the ashes of an interstellar war. For the Daleks' plans to succeed, they must set free their creator, Davros, from a galactic prison – and force the Doctor to help them achieve total control over time and space. But the embittered Davros has ideas of his own... 35 years after its first TV transmission, Doctor Who fan-favourite Resurrection of the Daleks is novelised at last, by the author of the original script, Eric Saward.

Presents the history of the "Doctor Who" television universe through one hundred objects, including the Ultima machine, the Mona Lisa, TARDIS, and axonite.

This all-new Target novelisation is based on the televised version of The Pirate Planet. The hugely powerful Key to Time has been split into six segments, all of which have been disguised and hidden throughout time and space. Now the even more powerful White Guardian wants the Doctor to find the pieces. With the first segment successfully retrieved, the Doctor, Romana and K-9 trace the second segment of the Key to the planet Calufrax. But when they arrive at exactly the right point in space, they find themselves on exactly the wrong planet - Zanak. Ruled by the mysterious 'Captain', Zanak is a happy and prosperous planet. Mostly. If the mines run out of valuable minerals and gems then the Captain merely announces a New Golden Age and they fill up again. It's an economic miracle - so obviously something's very wrong... For a much expanded version based on Douglas Adams' first draft scripts, check out BBC Books' hardback edition of The Pirate Planet".

For a Good Doctor there's only one rule: first do no harm. On the planet of Lobos, the Doctor halts a violent war between the native Loba and human colonists. Job done, the TARDIS crew departs – only for Ryan to discover he's left his phone behind. Again. Upon returning, the Doctor finds that the TARDIS has slipped hundreds of years into the future – and that something has gone badly wrong. The Loba are now slaves, serving human zealots who worship a godlike figure known as The Good Doctor. It's time for the Doctor to face up to the consequences of her last visit. With Lobos on the brink of catastrophe, will she be able to make things right? Featuring the Thirteenth Doctor, Yasmin, Ryan and Graham, as played by Jodie Whittaker, Mandip Gill, Tosin Cole and Bradley Walsh.

A 17-year-old pirate captain INTENTIONALLY allows herself to get captured by enemy pirates in this thrilling YA adventure from debut author Tricia Levenseller.

A new story collection featuring 26 adventures across time and space! The Heroes and Monsters Collection brings together our favourite short stories from the last ten years of Doctor Who. In these tales the Doctor and his companions face the Daleks, the Cybermen and many more terrifying foes. Also includes three brand-new stories for 2015, featuring the War Doctor, Clara and the Twelfth Doctor. With all the humour and thrilling action of the iconic television programme, the Heroes and Monsters Collection is a wonderful read for any Doctor Who fan.

Readers will relish this companion to the highly acclaimed adventure, The Wreckers: Young John is charmed by the Dragon, the schooner he is planning to sail to London and use for the honest wool trade. But a mysterious gentleman delivers an ominous warning to "steer clear of that ship," because the ship was "christened with blood." The ship looks clever and quick, and the crew seems to know how to man it, but with such a warning John is left to wonder how well he really knows what

lies ahead. Will he heed the advice given by the mysterious man? Or will he brave the unknown on his own?

THE SUNDAY TIMES BESTSELLER What are you afraid of? In his first-ever Doctor Who novel, Tom Baker's incredible imagination is given free rein. A story so epic it was originally intended for the big screen, Scratchman is a gripping, white-knuckle thriller almost forty years in the making. The Doctor, Harry and Sarah Jane Smith arrive at a remote Scottish island, when their holiday is cut short by the appearance of strange creatures – hideous scarecrows, who are preying on the local population. The islanders are living in fear, and the Doctor vows to save them all. But it doesn't go to plan – the time travellers have fallen into a trap, and Scratchman is coming for them. With the fate of the universe hanging in the balance, the Doctor must battle an ancient force from another dimension, one who claims to be the Devil. Scratchman wants to know what the Doctor is most afraid of. And the Doctor's worst nightmares are coming out to play...

We are all stories, in the end . . . A stunning illustrated collection of fifteen dark and ancient fairy tales from the world of Doctor Who. These captivating stories include mysterious myths and legends about heroes and monsters of all kinds, from every corner of the universe. Originally told to young Time Lords at bedtime, these twisted tales are an enchanting read for Doctor Who fans of all ages. Written by Justin Richards and illustrated by David Wardle.

The hugely powerful Key to Time has been split into six segments, all of which have been disguised and hidden throughout time and space. Now the even more powerful White Guardian wants the Doctor to find the pieces. With the first segment successfully retrieved, the Doctor, Romana and K-9 trace the second segment of the Key to the planet Calufrax. But when they arrive at exactly the right point in space, they find themselves on exactly the wrong planet - Zanak. Ruled by the mysterious 'Captain', Zanak is a happy and prosperous planet. Mostly. If the mines run out of valuable minerals and gems then the Captain merely announces a New Golden Age and they fill up again. It's an economic miracle - so obviously something's very wrong...

A beautifully illustrated collection of new Doctor Who stories, each featuring one of the twelve Doctors on a festive adventure in the TARDIS. Written by six authors and with a full-page colour illustration for each story, these tales are full of magic, mystery, wonder, excitement - and everything else that fans love about a Doctor Who Christmas special.

We're all stories in the end... In this exciting collection you'll find all-new stories spinning off from some of your favourite Doctor Who moments across the history of the series. Learn what happened next, what went on before, and what occurred off-screen in an inventive selection of sequels, side-trips, foreshadowings and first-hand accounts – and look forward too, with a brand new adventure for the Thirteenth Doctor. Each story expands in thrilling ways upon aspects of Doctor Who's enduring legend. With contributions from show luminaries past and present – including Colin Baker, Matthew Waterhouse, Vinay Patel, Joy Wilkinson and Terrance Dicks – The Target Storybook is a once-in-a-lifetime tour around the wonders of the Whoniverse.

An outrageous and funny, subversive horror-fantasy.

Produced by arrangement with BBC television, this first-ever series of original Doctor Who novels will continue where the 1989 TV series left off.

In 1920s London the Doctor and Rose find themselves caught up in the hunt for a mysterious murderer. But not everyone or everything is what they seem. Secrets lie behind locked doors and inhuman killers roam the streets. Who is the Painted Lady and why is she so interested in the Doctor? How can a cat return from the dead? Can anyone be trusted to tell or even to know the truth? With the faceless killers closing in, the Doctor and Rose must solve the mystery of the Clockwise Man before London itself is destroyed... Featuring the Doctor and Rose as played by Christopher Eccleston and Billie Piper in the hit series from BBC Television

From the unique mind of Douglas Adams, legendary author of *The Hitchhiker's Guide to the Galaxy*, comes *Shada*, a story scripted for the television series *Doctor Who* but never produced—and now transformed into an original novel. A little knowledge is a dangerous thing. Imagine how dangerous a LOT of knowledge is... The Doctor's old friend and fellow Time Lord, Professor Chronotis, has retired to Cambridge University, where among the other doddering old professors nobody will notice if he lives for centuries. He took with him a few little souvenirs—harmless things really. But among them, carelessly, he took *The Worshipful and Ancient Law of Gallifrey*. Even more carelessly, he has loaned this immensely powerful book to clueless graduate student Chris Parsons, who intends to use it to impress girls. *The Worshipful and Ancient Law* is among the most dangerous artifacts in the universe; it cannot be allowed to fall into the wrong hands. The hands of the sinister Skagra are unquestionably the wrongest ones possible. Skagra is a sadist and an egomaniac bent on universal domination. Having misguessed the state of fashion on Earth, he also wears terrible platform shoes. He is on his way to Cambridge. He wants the book. And he wants the Doctor...

With illustrations by Russell T Davies, original showrunner of the new-era *Doctor Who*, the first ever *Doctor Who* poetry collection—a charming, funny and whimsical illustrated collection of verse that celebrates the joys and pitfalls of getting older . . . Time-Lord older. Like many of us, the older they get, the more Time Lords realize how little they understand the universe around them. This delightful collection of poems—the first volume of *Doctor Who* verse published—offers moments of insight, wit, and reassurance for the maturing inhabitants of Gallifrey (and everywhere else), including such delights as: THE END When I was One I was not much fun When I was Two I was barely through When I was Three I liked strong tea When I was Four I hated a bore When I was Five I was really alive When I was Six I somehow could never quite fit in to what was expected of me, well, not exactly but that was because things weren't neat and there are no easy rhymes in the universe and scansion, my dear Peri, is a thing that's really overrated and you only have to look at a sunset to realise that creation itself is a poem and oh no wait, got it, of course, Fix! The line needed to end with Fix! (Or tricks. That's works too.) When I was Seven I sent the gods to Heaven When I was Eight Kissing was great When I was Nine I had forgotten time When I was Ten I began again When I was Eleven I totally got even When I was Twelve, I became as clever as clever And now I think I'll be Twelve for ever and ever* (*Unless, of course, there is a terrible catastrophe involving explosions, radiation, or heights. And then I guess we'll find out what comes next. But the eyebrows won't be as good.)

Based on the beloved *Doctor Who* episode of the same name by Douglas Adams, the hilarious and brilliant author of *The Hitchhiker's Guide to the Galaxy*, comes *City of Death*... "A nasty, savage race, the universe was glad to see the back of them..." 4 billion BCE: The Jagaroth, the most powerful, vicious, and visually unappealing race in the universe disappears from existence. Few are sad to see

them go. 1505 CE: Leonardo da Vinci is rudely interrupted while gilding the lily by a most annoying military man by the name of Captain Tancredi. 1979 CE: Despite his best efforts not to end up in exactly the right place at exactly the wrong time, the Doctor, his companion Romana, and his cybernetic dog, K-9, arrive for a vacation in Paris only to discover that they have landed not only in one of the less romantic periods in Parisian history, but in a year in which the fabric of time has begun to crack. It is once again up to the Doctor to uncover an audacious alien scheme filled with homemade time machines, the theft of the Mona Lisa, the resurrection of the Jagaroths, and the beginning (or possibly the end—it is all quite complicated, you see) of all life on Earth. Some holiday indeed...

'The entire Dalek race, wiped out in one second. I watched it happen. I made it happen!' The Doctor and Rose arrive in an underground vault in Utah in the near future. The vault is filled with alien artefacts. Its billionaire owner, Henry van Statten, even has possession of a living alien creature, a mechanical monster in chains that he has named a Metaltron. Seeking to help the Metaltron, the Doctor is appalled to find it is in fact a Dalek - one that has survived the horrors of the Time War just as he has. And as the Dalek breaks loose, the Doctor is brought back to the brutality and desperation of his darkest hours spent fighting the creatures of Skaro... this time with the Earth as their battlefield. The classic *Doctor Who* adventure by Douglas Adams *The Hugely Powerful Key to Time* has been split into six segments, all of which have been disguised and hidden throughout time and space. Now the even more powerful *White Guardian* wants the Doctor to find the pieces. With the first segment successfully retrieved, the Doctor, Romana and K-9 trace the second segment of the Key to the planet Calufrax. But when they arrive at exactly the right point in space, they find themselves on exactly the wrong planet - Zanak. Ruled by the mysterious 'Captain', Zanak is a happy and prosperous planet. Mostly. If the mines run out of valuable minerals and gems then the Captain merely announces a New Golden Age and they fill up again. It's an economic miracle - so obviously something's very wrong...

The Doctor takes Romana for a holiday in Paris — a city which, like a fine wine, has a bouquet all its own. Especially if you visit during one of the vintage years. But the TARDIS takes them to 1979, a table-wine year, a year whose vintage is soured by cracks — not in their wine glasses but in the very fabric of time itself. Soon the Time Lords are embroiled in an audacious alien scheme which encompasses home-made time machines, the theft of the Mona Lisa, the resurrection of the much-feared Jagaroth race, and the beginning (and quite possibly the end) of all life on Earth. Aided by British private detective Duggan, whose speciality is thumping people, the Doctor and Romana must thwart the machinations of the suave, mysterious Count Scarlioni — all twelve of him — if the human race has any chance of survival. But then, the Doctor's holidays tend to turn out a bit like this. Featuring the Fourth Doctor as played by Tom Baker, *City of Death* is a novel by James Goss based on the 1979 *Doctor Who* story written by Douglas Adams under the pen-name David Agnew. *City of Death* is one of the best-loved serials in the show's 50-year history and was watched by over 16 million viewers when first broadcast.

The TARDIS takes the Doctor and Rose to a destination in deep space - Justicia, a prison camp stretched over seven planets, where Earth colonies deal with their criminals. While Rose finds herself locked up in a teenage borstal, the Doctor is trapped in a scientific labour camp. Each is determined to find the other, and soon both Rose and the Doctor are risking life and limb to escape in their dist-

inctive styles. But their dangerous plans are complicated by some old enemies. Are these creatures fellow prisoners as they claim, or staging a takeover for their own sinister purposes? Featuring the Ninth Doctor and Rose as played by Christopher Eccleston and Billie Piper in the hit Doctor Who series from BBC Television

Discover the new Doctor Who classics. The key to Earth's destruction lies buried in its past. Visiting Paris in 1979, the Doctor and Romana's hopes for a holiday are soon shattered by armed thugs, a suave and dangerous Count, a plot to steal the Mona Lisa and a world-threatening experiment with time. Teaming up with a British detective, the Time Lords discover that a ruthless alien plot hatched in Earth's pre-history has reached its final stage. If Scaroth, last of the Jagaroth, cannot be stopped then the human race is history, along with all life on Earth...

'I am an expert on witchcraft, Doctor, but I wish to learn more. Before you die, I want answers.' The TARDIS lands in the Lancashire village of Bilehurst Cragg in the 17th century, and the Doctor, Ryan, Graham and Yaz soon become embroiled in a witch trial run by the local landowner. Fear stalks the land, and the arrival of King James I only serves to intensify the witch hunt. But the Doctor soon realises there is something more sinister than paranoia and superstition at work. Tendrils of living mud stir in the ground and the dead lurch back to horrifying life as an evil alien presence begins to revive. The Doctor and her friends must save not only the people of Bilehurst Cragg from the waking forces, but the entire world

The reissue a classic tale from international best-selling author Anne McCaffrey and Jody Lynn Nye. All new cover art. Like every other citizen of the Federation of Sentient Planets, Lunzie Mespil believed that no harm would come to her, but when the planet pirates attack the space liner on which she is a passenger, she might have to suffer more than just inconvenience. . . . About Death of Sleep: "McCaffrey has created a feisty, likable character in Lunzie Mespil."--Publishers Weekly

Tiermann's World: a planet covered in wintry woods and roamed by sabre-toothed tigers and other savage beasts. The Doctor is here to warn Professor Tiermann, his wife and their son that a terrible

danger is on its way. The Tiermanns live in luxury, in a fantastic, futuristic, fully-automated Dreamhome, under an impenetrable force shield. But that won't protect them from the Voracious Craw. A gigantic and extremely hungry alien creature is heading remorselessly towards their home. When it gets there everything will be devoured. Can they get away in time? With the force shield cracking up, and the Dreamhome itself deciding who should or should not leave, things are looking desperate... Featuring the Tenth Doctor and Martha as played by David Tennant and Freema Agyeman in the hit Doctor Who series from BBC television.

Beware the hands that heal. The Doctor and Peri land on the planet Necros to visit the funerary home Tranquil Repose - where the dead are interred and the near-dead placed in suspended animation until such time as their conditions can be cured. But the Great Healer of Tranquil Repose is far from benign. Under his command, Daleks guard the catacombs where sickening experiments are conducted on human bodies. The new life he offers the dying comes at a terrible cost - and the Doctor and Peri are being lured into a trap that will change them forever. At last, the only classic-era Doctor Who adventure never to be novelised is here, and by the author of the original script, Eric Saward.

The Time Lords have a mission for the Doctor. Together with Sarah and Harry, he finds himself stranded on the war-torn planet Skaro where the conflict between the Thals and the Kaleds has been raging for a thousand years. Chemical and biological weapons have started a cycle of mutation among the planet's inhabitants that cannot be stopped. But Kaled scientist Davros has perfected a life support system and travel machine for the creature he knows his race will ultimately evolve into - the Dalek. The Doctor must stop the creation of the Daleks, or perhaps affect their development so they evolve into less aggressive creatures. But with Davros's plans to destroy the Thals and to wipe out any dissenters among his own ranks in progress, is the Doctor already too late?

"On the eve of the First World War, John Smith teaches at an English public school. But is he all that he seems?"
