... Which is a bit ironic, since this book is called "Dutch for Dummies" - implying that someone with no background could learn a bit of Dutch from it. So there's your WARNING before you buy it. If you have at least an intro into Dutch and you're interested in a supplemental piece to broaden your horizons, this is the book for you!

Virtually useless for "learning" Dutch, as it is really only a glorified phrase book with virtually no grammar. Sorry, you can't learn a language without the fundamentals of grammar. Since all the other Dummies books I've seen were so good, I bought this one on reputation, as it were.

Dutch For Dummies includes: Audio CD to assist learning Introductory grammar and vocabulary Meeting and getting to know peo-

ple Dining out, shopping, leisure time and the workplace Dealing with emergencies Tips on how to pick up Dutch quickly. Note: CD files are available to download when buying the eBook version.
