Fear of Dying is a hilarious, heart wrenching, and beautifully told story about what happens when one woman steps reluctantly into the afternoon of life. Vanessa Wonderman is a gorgeous former actress in her 60's who finds herself balancing between her dying parents, her aging husband and her beloved, pregnant daughter. Although Vanessa considers herself "a happily married woman," the lack of sex in her life makes her feel as if she's losing something too valuable to ignore. So she places an ad for sex on a site called Zipless.com and the life she knew begins to unravel. With the help and counsel of her best friend, Isadora Wing, Vanessa

navigates the phishers and pishers, and starts to question if what she's looking for might be close at hand after all. Fear of Dying is a daring and delightful look at what it really takes to be human and female in the 21st century. Wildly funny and searingly honest, this is a book for everyone who has ever been shaken and changed by love.

Before being published as a small book, these "counsels of perfection" and spiritual notes by Blessed Edward Poppe (1890-1924), a Belgian priest whose cause for canonization is under way, had been transcribed a hundred times by hand by those who had tasted their flavor, vigor, and supernatural wisdom. Fresh and luminous, this little book has been a tremendous success in Dutch, French, Italian, and German; it now appears at last in English. Responding well to the needs of the faithful, it will become an inseparable vademecum for all those who wish to live "under the gaze of God."

Heather Chauvin-now a TEDx speaker, host of the Mom Is In Control podcast and personal development coach-takes you through her journey with honesty, humor, and strength.

Say the name Nikki Grahame and most people will remember the bubbly, highly strung, and hugely entertaining Big Brother 7 contestant, famous for her diary room outbursts. Since leaving the Big Brother house, she had forged a successful career for herself in presenting and writing. Yet Nikki isn't just another reality television contestant and her life story is not like any other you will ever read. From the age of eight until she was 19, Nikki battled anorexia nervosa--but few cases have been quite as extreme as hers. What she has been through while suffering from this illness will surprise and shock readers. At just seven years old, Nikki began feeling that she was overweight. A remark about her being fat from a fellow pupil at a gymnastics class, along with insecurity brought about by her parents' separation and her beloved grandfather's death, were the catalysts for Nikki's long-term eating disorder. Aged just eight and weighing just under three stone, she was diagnosed as anorexic. For the next eight years, Nikki was in and out of seven institutions, during which time she attempted suicide twice and had to be sedated up to four times a day so that she could be force-fed. At one point, she was sedated for 14 days while doctors sewed a tube into her stomach, through which she was fed in order to get her weight out of the critical range. Nikki admits that she knew every anorexic's trick in the book: from breaking into hospital kitchens to water down full-fat milk, altering her diet sheet and switching name tags on food to ensure that she received smaller amounts, to even stuffing a door-stop down her trousers before a weigh-in. The extremes that she went

to in order to avoid eating and find ways to exercise excessively shocked doctors who have worked in the field for years. As Nikki says, "I've always wanted to be the best at everything I do, so I had to be the best anorexic--and I was." This is the heart-rending and powerful story of a girl who lost her childhood but was brave enough to finally admit that she wanted to live again. With searing honesty, Nikki recounts her long and painful road to recovery, how she has had to come to terms with the long-term ramifications of her illness, how she coped with being in the Big Brother house and how she uses her new-found fame to promote awareness of eating disorders and to help those who are suffering from similar problems. This compelling book tells the story of an incredible journey.

By turns, it is riotous, deeply serious, practical and sad. Reading it is like being at her kitchen table with a glass of wine to hand. "Bracing and beautiful . . . Every human should read it." —The New York Times A New York Times Book Review Editors' Choice At the age of sixty, Cory Taylor is dying of melanoma-related brain cancer. Her illness is no longer treatable: she now weighs less than her neighbor's retriever. As her body weakens, she describes the experience—the vulnerability and strength, the courage and humility, the anger and acceptance—of knowing she will soon die. Written in the space of a few weeks, in a tremendous creative surge, this powerful and beautiful memoir is a clear-eyed account of what dying teaches: Taylor describes the tangle of her feelings, remembers the lives and deaths of her parents, and examines why she would like to be able to choose the circumstances of her death. Taylor's last words offer a vocabulary for readers to speak about the most difficult thing any of us will face. And while *Dying: A Memoir* is a deeply affecting meditation on death, it is also a funny and wise tribute to life.

#1 NEW YORK TIMES BESTSELLER #1 INTERNATIONAL BESTSELLER A heartbreaking and hilarious memoir by iCarly and Sam & Cat star Jennette McCurdy about her struggles as a former child actor—including eating disorders, addiction, and a complicated relationship with her overbearing mother—and how she retook control of her life. Jennette McCurdy was six years old when she had her first acting audition. Her mother's dream was for her only daughter to become a star, and Jennette would do anything to make her mother happy. So she went along with what Mom called "calorie restriction," eating little and weighing herself five times a day. She endured extensive at-home makeovers while Mom chided, "Your eyelashes are invisible, okay? You think Dakota Fanning doesn't tint hers?" She was even showered by Mom until age sixteen while sharing her diaries, email, and all her income. In *I'm Glad My Mom Died*, Jennette recounts all this in unflinching detail—just as she chronicles what happens when the dream finally comes true. Cast in a new Nickelodeon series called iCarly, she is thrust into fame. Though Mom is ecstatic, emailing fan club moderators and getting on a first-name basis with the paparazzi ("Hi Gale!"), Jennette is riddled with anxiety, shame, and self-loathing, which manifest into eating disorders, addiction, and a series of unhealthy relationships. These issues only get worse when, soon after taking the lead in the iCarly spinoff Sam & Cat alongside Ariana Grande, her mother dies of cancer. Finally, after discovering therapy and quitting acting, Jennette embarks on recovery and decides for the first time in her life what she really wants. Told with refreshing candor and dark humor, *I'm Glad My Mom Died* is an inspiring story of resilience, independence, and the joy of shampooing your own hair.

"The New York Times bestselling author of *Dying to Be Me* returns with an inspirational guide for sensitive people looking to fully harness their gifts of intuition and empathy in today's harsh world"--
A story about loving yourself.

Most of us can recall a time when we pretended to be sick to reap the benefits that go along with illness. By playing sick, we gained sympathy, care, and attention, and were excused from our responsibilities. Though doing so on occasion is considered normal, there are those who carry their deceptions to the extreme. In this book, Dr. Marc Feldman describes people's strange motivations to fabricate or induce illness or injury to satisfy deep emotional needs. Doctors, family members, and friends are lured into a costly, frustrating, and potentially deadly web of deceit. From the mother who shaves her child's head and tells her community he has cancer, to the co-worker who suffers from a string of incomprehensible "tragedies," to the false epilepsy victim who monopolizes her online support group, "disease forgery" is ever-present in the media and in many people's lives. In *Dying to be Ill: True Stories of Medical Deception*, Dr. Feldman, with the assistance of Gregory Yates, has chronicled this fascinating world as well as the paths to healing. With insight developed from 25 years of hands-on experience, *Dying to be Ill* is sure to stand as a classic in the field.

NEW YORK TIMES EDITORS' CHOICE • A deeply reported, searingly honest portrait of the death penalty in Texas—and what it tells us about crime and punishment in America "If you're one of those people who despair that nothing changes, and dream that something can, this is a story of how it does."—Anand Giridharadas,

The New York Times Book Review **WINNER OF THE J. ANTHONY LUKAS AWARD** In 1972, the United States Supreme Court made a surprising ruling: the country's death penalty system violated the Constitution. The backlash was swift, especially in Texas, where executions were considered part of the cultural fabric, and a dark history of lynching was masked by gauzy visions of a tough-on-crime frontier. When executions resumed, Texas quickly became the nationwide leader in carrying out the punishment. Then, amid a larger wave of criminal justice reform, came the death penalty's decline, a trend so durable that even in Texas the punishment appears again close to extinction. In *Let the Lord Sort Them*, Maurice Chammah charts the rise and fall of capital punishment through the eyes of those it touched. We meet Elsa Alcala, the orphaned daughter of a Mexican American family who found her calling as a prosecutor in the nation's death penalty capital, before becoming a judge on the state's highest court. We meet Danelynn Recer, a lawyer who became obsessively devoted to unearthing the life stories of men who committed terrible crimes, and fought for mercy in courtrooms across the state. We meet death row prisoners—many of them once-famous figures like Henry Lee Lucas, Gary Graham, and Karla Faye Tucker—along with their families and the families of their victims. And we meet the executioners, who struggle openly with what society has asked them to do. In tracing these interconnected lives against the rise of mass incarceration in Texas and the country as a whole, Chammah explores what the persistence of the death penalty tells us about forgiveness and retribution, fairness and justice, history and myth. Written with intimacy and grace, *Let the Lord Sort Them* is the definitive portrait of a particularly American institu-

tion.

Collects three works that detail how intention allows creation, the search for what life is about, and stopping negative thoughts from preventing success.

A teenager discovers his voice in this contemporary love story from "one of young adult literature's greatest living writers" (Booklist). Shy teenager Karl is desperately in love with his girlfriend, Fiorella, a literary enthusiast who's asked him to write her a letter in which he reveals his true self. There's just one problem . . . Karl is dyslexic. Convinced that his attempts to express himself with words will end in disaster, Karl tracks down Fiorella's fa-

vorite novelist and begs him to take up the task. The famous writer unexpectedly agrees, but on one condition: Karl must participate in a series of interviews so the author can pen an authentic portrait of his affections. What follows is a series of misunderstandings, a startling revelation, and an unusual bond that will change all three of their lives. A moving story of love and friendship, *Dying to Know You* is the perfect novel for "that cloudy expanse between older teenager and younger adult, a novel that doesn't pretend to advise, but merely sees its characters for who they really are" (The Guardian). "This quietly understated performance captures the wistfulness of music in a minor key." —Kirkus Reviews

The renowned radio host and one of the most trusted voices in the nation candidly and compassionately addresses the hotly contested right-to-die movement, of which she is one of our most inspiring champions. The basis for the acclaimed PBS series. Through interviews with terminally ill patients and their relatives, as well as physicians, ethicists, religious leaders, and representatives of both those who support and vigorously oppose this urgent movement, Rehm gives voice to a broad range of people personally linked to the realities of medical aid in dying. With characteristic evenhandedness, she provides the full context for this highly divisive issue and presents the fervent arguments—both for and against—that are propelling the current debate: Should we adopt laws allowing those who are dying to put an end to their suffering? Featuring a deeply personal foreword by John Grisham, *When My Time Comes* is a response to many misconceptions and misrepresentations of end-of-life care. It is a call to action—and to conscience—and it is an attempt to heal and soothe, reminding

us that death, too, is an integral part of life.

"We were a family of three girls. By Chinese standards, that wasn't lucky. In Chinatown, everyone knew our story. Outsiders jerked their chins, looked at us, shook their heads. We heard things." In this profoundly moving novel, Fae Myenne Ng takes readers into the hidden heart of San Francisco's Chinatown, to the world of one family's honor, their secrets, and the lost bones of a "paper father." Two generations of the Leong family live in an uneasy tension as they try to fathom the source of a brave young girl's sorrow. Oldest daughter Leila tells the story: of her sister Ona, who has ended her young, conflicted life by jumping from the roof of a Chinatown housing project; of her mother Mah, a seamstress in a garment shop run by a "Chinese Elvis"; of Leon, her father, a merchant seaman who ships out frequently; and the family's youngest, Nina, who has escaped to New York by working as a flight attendant. With Ona and Nina gone, it is up to Leila to lay the bones of the family's collective guilt to rest, and find some way to hope again. Fae Myenne Ng's luminous debut explores what it means to be a stranger in one's own family, a foreigner in one's own neighborhood--and whether it's possible to love a place that may never feel quite like home.

If life is about the journey and not the destination, could it be that this is heaven —this physical life we are living here on Earth? What we experience in our daily lives often feels like anything but heaven. But what if we understood how powerful we are —that we are powerful enough to mold both our internal and our external reality? Anita Moorjani, the New York Times bestselling author of *Dying to Be Me*, is convinced we can do exactly that. The process, she explains, requires dismantling many cultural myths mis-

taken for indisputable truths. Beliefs such as "We get what we deserve," "Loving ourselves is selfish," and "Coincidences are just that —coincidences," are ingrained within us from birth, pervasive and influential, leading to generations of misguidance. Following her near-death experience, Moorjani began to embody truths she learned in the other realm, discovering that letting go of these outmoded myths allowed her to experience heaven not as a physical place but as a state of mind, right here and right now. In this examination of our common myths, she shares stories and examples from her own life, revealing the lies beneath the surface of what she was taught and absorbed. By freeing ourselves from these falsehoods, Moorjani asserts, we can leave fear, heartache, and self-imposed boundaries behind and instead live lives full of purpose and joy.

Killing and Dying is a stunning showcase of the possibilities of the graphic novel medium and a wry exploration of loss, creative ambition, identity, and family dynamics. With this work, Adrian Tomine (*Shortcomings*, *Scenes from an Impending Marriage*) reaffirms his place not only as one of the most significant creators of contemporary comics but as one of the great voices of modern American literature. His gift for capturing emotion and intellect resonates here: the weight of love and its absence, the

pride and disappointment of family, the anxiety and hopefulness of being alive in the twenty-first century. "Amber Sweet" shows the disastrous impact of mistaken identity in a hyper-connected world; "A Brief History of the Art Form Known as Horticulture" details the invention and destruction of a vital new art form in short comic strips; "Translated, from the Japanese" is a lush, full-color display of storytelling through still images; the title story, "Killing and Dying", centers on parenthood, mortality, and stand-up comedy. In six interconnected, darkly funny stories, Tomine forms a quietly moving portrait of contemporary life. Tomine is a master of the small gesture, equally deft at signaling emotion via a subtle change of expression or writ large across landscapes illustrated in full color. *Killing and Dying* is a fraught, realist masterpiece.

Dying to be Alive is the first hand account of an incredible experience. In 2008 the author suffered a heart attack and found himself in an ambulance, blacking out and in immediate danger of death. He describes the experience of being in the presence of angels, engaged in conversation with Jesus and then being offered the choice to return to life on earth or to continue living in heaven. The story does not stop there. He traces the intervention of God on his life as he recounts the journey through life that saw him threatened by a cult and suffering the death of his brain-injured daughter. This is a story of life and death that extends well beyond our routine earthly existence and offers an intriguing glimpse into the timeless realm of eternity. This book offers more than a story. It opens the way to an encounter with heaven that reaches from beyond this world deep into the heart and soul.

The book that inspired the hit film! Sundance U.S. Dramatic Audience Award Sundance Grand Jury Prize This is the funniest book you'll ever read about death. It is a universally acknowledged truth that high school sucks. But on the first day of his senior year, Greg Gaines thinks he's figured it out. The answer to the basic existential question: How is it possible to exist in a place that sucks so bad? His strategy: remain at the periphery at all times.

Keep an insanely low profile. Make mediocre films with the one person who is even sort of his friend, Earl. This plan works for exactly eight hours. Then Greg's mom forces him to become friends with a girl who has cancer. This brings about the destruction of Greg's entire life. Fiercely funny, honest, heart-breaking—this is an unforgettable novel from a bright talent, now also a film that critics are calling "a touchstone for its generation" and "an instant classic." Revised edition of the best-selling memoir that has been read by over a million people worldwide with translations in 29 languages. After too many years of unfulfilling work, Bronnie Ware began searching for a job with heart. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so

much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, *The Top Five Regrets of the Dying*, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can positively address these issues while we still have the time. *The Top Five Regrets of the Dying* gives hope for a better world. It is a courageous, life-changing book that will leave you feeling more compassionate and inspired to live the life you are truly here to live.

A Bushman is discovered dead near the Central Kalahari Game Reserve in Africa. Although the man looks old enough to have died of natural causes, the police suspect foul play, and the body is sent to Gaborone for an autopsy. Pathologist Ian MacGregor confirms the cause of death as a broken neck, but is greatly puzzled by the man's physiology. Although he's obviously very old, his internal organs look remarkably young. He calls in Assistant Superintendent David "Kubu" Bengu. When the Bushman's corpse is stolen from the morgue, suddenly the case takes on a new dimension.
