-- Author is based in Bloomington, IN -- The author was International Studies Research Fellow in a project called Lived Religion in the Digital Age. For half of this study, he spent five years with a progressive religious community in Bloomington. He has knowledge of our local that can have a global influence. His writing moves swiftly between narrating stories from his fieldwork to outlining how these stories contributed to discoveries about religion in a booming digital culture. -- This book stands out as the only that combines online observations and analyses of online interaction with detailed observations of everyday evangelical life, focusing on a group of Midwestern evangelicals and digital connoisseurs. Comparative titles with overlap don't go beyond evangelical bloggers. -- The method behind the author's expertise is to look at media within the cultural contexts of the human experience. This relates directly to a strategic building opportunity from IUP's 2017 plan for the film and media list. -- Target audience includes our film and media studies, religious studies, and anthropology lists. Midwesterners interested in religion generally might pick this up.

Not only does she step you through how to set up QuickBooks and utilize it more efficiently for your house of worship, but she also discusses everything you need to know to implement controls and procedures to ensure that your church's money is always protected. QuickBooks for Churches covers PC versions of QuickBooks from 2012 forward and even includes what's new in the 2014 version. Lisa offers sound accounting procedures for both large and small houses of worship, for bookkeepers with years of experience as well as those just starting out. Let *The Accountant Beside You* take one more worry off your crowded to-do list.

This collection of daily and weekly readings goes through the liturgical seasons of winter — including Advent, Christmas and Epiphany. New voices such as Amit Majmudar and Scott Cairns are paired with well-loved classics by Dickens, Andersen, and Eliot. “For years I have been seeking a book which weaves scripture, prayer and the finest poetry and fiction into the devotional experience of Ad-

vent, Christmas, and Epiphany. Finally I have found it: an elegant and accessible gem with some classic texts and a rich selection from contemporary literature. This is not only a useful book, it is edifying and exciting reading—the perfect way for the literature lover to focus, meditate and celebrate this time of year.” — Jill Peláez Baumgaertner, poet; Professor of English and Dean of Humanities and Theological Studies, Wheaton College “Maybe it’s not right to think of feasting during the somewhat penitential season of Advent, but that is what this book is: a sumptuous feast.” -Lauren F. Winner “In our individual darkneses we long for more light. Sarah Arthur understands this, and, as if pulling together scores of candles with burning wicks, she illuminates our whole year with the gift of flaming words. A treasure of enlightenment.” -Luci Shaw, author of *Breath for the Bones* and *Adventure of Ascent* “A beautifully navigated journey through a treasury of literary wisdom - a book to cherish.” -Jeremy Begbie, professor of theology and director of Duke University Initiatives in Theology and the Arts Sarah Arthur is a fun-loving speaker and author of nine books, including *The One Year Coffee With God* and *At the Still Point*. A graduate of Wheaton College and Duke Divinity, she lives in Michigan with her pastor-husband Tom and their two small sons. [www.saraharthur.com](http://www.saraharthur.com)

This intelligence guide was prepared in response to requests from law enforcement executives for guidance in intelligence functions in a post-September 11 world. It will help law enforcement agencies develop or enhance their intelligence capacity and enable them to fight terrorism and other crimes while preserving community policing relationships. The world of law enforcement intelligence has changed dramatically since September 11, 2001. State, local, and tribal law enforcement agencies have been tasked with a variety of new responsibilities; intelligence is just one. In addition, the intelligence discipline has evolved significantly in recent years. As these various trends have merged, increasing numbers of American law enforcement agencies have begun to explore, and sometimes embrace, the intelligence function. This guide is intended to help them in this process.

The guide is directed primarily toward state, local, and tribal law enforcement agencies of all sizes that need to develop or reinvigorate their intelligence function. Rather than being a manual to teach a person how to be an intelligence analyst, it is directed toward that manager, supervisor, or officer who is assigned to create an intelligence function. It is intended to provide ideas, definitions, concepts, policies, and resources. It is a primera place to start on a new managerial journey. Every law enforcement agency in the United States, regardless of agency size, must have the capacity to understand the implications of information collection, analysis, and intelligence sharing. Each agency must have an organized mechanism to receive and manage intelligence as well as a mechanism to report and share critical information with other law enforcement agencies. In addition, it is essential that law enforcement agencies develop lines of communication and information-sharing protocols with the private sector, particularly those related to the critical infrastructure, as well as with those private entities that are potential targets of terrorists and criminal enterprises. Not every agency has the staff or resources to create a formal intelligence unit, nor is it necessary in smaller agencies. This document will provide common language and processes to develop and employ an intelligence capacity in SLTLE agencies across the United States as well as articulate a uniform understanding of concepts, issues, and terminology for law enforcement intelligence (LEI). While terrorism issues are currently most pervasive in the current discussion of LEI, the principles of intelligence discussed in this document apply beyond terrorism and include organized crime and entrepreneurial crime of all forms. Drug trafficking and the associated crime of money laundering, for example, continue to be a significant challenge for law enforcement. Transnational computer crime, particularly Internet fraud, identity theft cartels, and global black marketeering of stolen and counterfeit goods, are entrepreneurial crime problems that are increasingly being relegated to SLTLE agencies to investigate simply because of the volume of criminal incidents. Similarly, local law enforcement is being increasingly drawn into human trafficking and illegal immigration enterprises and the often associated crimes related to counterfeiting of official documents, such as passports, visas, driver's licenses, Social Security cards, and credit cards. All require an intelligence capacity for SLTLE, as does the continuation of historical organized crime activities such as auto theft, cargo theft, and virtually any other scheme that can produce profit for an organized criminal entity. To be effective, the law enforcement community must interpret intelligence-related language in a consistent manner. In addition, common standards, policies, and practices will help expedite intelligence sharing while at the same time protecting the privacy of citizens and preserving hard-won community policing relationships.~

Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning. In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

(©2013) The Subcommittee on the Catechism, United States Catholic Bishops, has found that this catechetical high school text is in conformity with the Catechism of the Catholic Church and fulfills the requirements of Elective Course A of the Doctrinal Elements of a Curriculum Framework for the Development of the Catechetical Materials for Young People of High School Age. *Sacred Scripture: A Catholic Study of God's Word* presents the Bible to students as a living source of God's Revelation to us. It gathers the two covenants of Scripture and the seventy-two books of the Bible under the umbrella of Church teaching, which holds that in Sacred Scripture, "God speaks only one single Word, his one Utterance in whom he expresses himself completely" (CCC, 102). This introduction to the biblical texts is both a companion for prayerful study and a survey of the context, message, and authorship of each book. It also provides students with a plan for reading and studying the Bible in concert with the Holy Spirit and Church teaching. The text provides historical context for biblical literature and its analysis is mindful that Scripture must be read within the living Tradition of the Church; in so doing, the text examines the relationship between Scripture and the doctrines of the Catholic faith. While modern historical-critical scholarship is not ignored, the text is balanced by emphasis on the multiple senses of Scripture: literal, spiritual, allegorical, moral, and anagogical.

The world is obsessed with power. However the Bible reveals the most awesome power of all: Kingdom authority. Rogers shows readers how to become a part of the awesome power of God's working in the world to build His Kingdom.

"They devoted themselves to the teachings of the apostles and to the communal life, to the breaking of the bread and to the prayers" -- Acts 2:42 It is called the "source and summit" of our Catholic faith - The Holy Eucharist. But do we really understand its true meaning? In Fr. Mitch Pacwa's *The Eucharist: A Bible Study Guide for Catholics* you will see the essential connection between the Eucharist and the Scriptures, and through reflection and discussion you'll learn to apply the principles in your own life. In this study you will find answers to these questions and more: Where do we see symbols of the Eucharist in the Old Testament? How do the Old Testament sacrifices prefigure

Christ's sacrifice? What did Jesus mean when he said "Do this in remembrance of me"? Why is Jesus called the Lamb of God? How do we meet Jesus in the breaking of the bread? Perfect for group or individual study, *The Eucharist* will change the way you look at the Mass and allow you to meet Jesus as transformed by his gift of life.
