About Engineering. Engineering is a division within the Community Development Department. The Engineering staff creates and monitors engineering requirements for the design and construction of street and traffic systems, water systems, sanitary sewer, park systems and drainage facilities.

This is a signals and systems textbook with a difference. Engineering applications of signals and systems are integrated into the presentation as equal partners with the concepts and mathematical models instead of just presenting the concepts and models and leaving the student to wonder how it all relates to engineering. This book combines theory and applications in a unique way through the ...
