The memoir of a man and woman who escaped into the forest, joined the Jewish partisans—and fell in love—as Hitler laid waste to their Polish hometowns. Jack and Rochelle first met at a youth dance in Poland before the war. They shared one dance, and Jack stepped on Rochelle’s shoes. She was unimpressed. When the Nazis invaded eastern Poland in 1941, both Jack (in the town of Mir) and Rochelle (in the town of Stolpce) witnessed the horrors of ghettoization, forced labor, and mass killings that decimated their families. Jack and Rochelle managed, in their separate ways, to escape into the forest. They reunited, against all odds, in the winter of 1942–43 and became Jewish partisans who fought back against the Nazis. The couple’s careful courtship soon blossomed into an enduring love that sustained them through the raging hatred of the Holocaust and the destruction of the lives they had known. Jack and Rochelle’s story, told in their own voices through extensive interviews with their son, Lawrence, has been in print for twenty years and is celebrated as a classic of Holocaust memoir literature. This is the first electronic edition. “A story of heroism and of touching romance in a time of fear and danger.” —USA Today

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious

worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, Angels and Demons in Art will delight readers with an interest in art or religious symbolism.

Back in the States, Hollywood B-movie star Syms Thorley lives in a very different world, starring as the Frankenstein-like Corpuscula and Kha--Ton-Ra, the living mummy. But the U.S. Navy has a new role waiting for Thorley, the role of a lifetime that he could never have imagined. The top secret Knickerbocker Project is putting the finishing touches on the ultimate biological weapon: a breed of gigantic, fire-breathing, mutant iguanas engineered to stomp and burn cities on the Japanese mainland. The Navy calls upon Thorley to don a rubber suit and become the merciless Gorgantis and to star in a live drama that simulates the destruction of a miniature Japanese metropolis. If the demonstration succeeds, the Japanese will surrender, and many thousands of lives will be spared; if it fails, the horrible mutant lizards will be unleashed. One thing is certain: Syms Thorley must now give the most terrifyingly convincing performance of his life. In the dual traditions of Godzilla as a playful monster and a symbol of the dawn of the nuclear era, Shambling Towards Hiroshima unexpectedly blends the destruction of World War II with the halcyon pleasure of monster movies.
