A sexy, hilarious, emotional, new romance from New York Times bestselling author Emma Chase. Connor Daniels never thought he'd be starting over at dating square one. His career as a successful doctor, and his three boys, are everything to him. It's not exactly a set-up conducive to a scorching love life—but he's giving it a shot. ER nurse Violet Robinson never intended for Connor to find out she's had a crush on him forever. It was a dirty little secret only meant for her dirty dreams. Her heart trips every time he's around—and so do her feet. When Connor sees Violet coasting across the grocery store parking lot—and she falls on her face—he starts falling for the gorgeous, young nurse right back. Dating can be tricky. And life can be beautiful and crazy and unpredictable. But when it gets real, you discover what matters most . . . and the one person you want loving you through it all. The author, a nurse-midwife and epidemiologist, brings together the myriad strands of history, culture, science, economics, and policy that have resulted in the current condition of maternity care in the US. While acknowledging the role and importance of medical obstetrics, she argues that the most sophisticated medical treatment does not reflect an understanding of childbearing as both a physiologic process and an important human experience and transition.
