Gill Blanchard's practical step-by-step guide to writing a family history is designed for anyone who wants to bring their ancestors' stories to life. She looks at ways of overcoming the particular problems family historians face when writing a family history -- how to deal with gaps in knowledge, how to describe generations of people who did the same jobs or lived in the same area, how to cover the numerous births, marriages and deaths that occur, and when to stop researching and start writing. Her book provides examples to help readers find their own writing style, deal with family stories, missing pieces of information and anomalies. It also offers advice on key aspects of composition, such as adding local and social history context and using secondary material. The focus throughout is on how to develop a story from beginning to end. Exercises are a key feature of the text. There is guidance on the various formats a family history can take and how to choose the appropriate one, with examples of format and layout. Production and publishing are also covered -- books, booklets, newsletters, websites, blogs and ebooks.

Family history is one of the most widely practiced forms of public history around the globe, especially in settler migrant nations like Australia and Canada. It empowers millions of researchers, linking the past to the present in powerful ways, transforming individuals' understandings of themselves and the world. This book examines the practice, meanings and impact of undertaking family history research for individuals and society more broadly. In this ground-breaking new book, Tanya Evans shows how family history fosters inter-generational and cross-cultural, religious and ethnic knowledge, how it shapes historical empathy and consciousness and combats social exclusion, producing active citizens. Evans draws on her extensive research on family history, including survey data, oral history interviews and focus groups undertaken with family historians in Australia, England and Canada collected since 2016. *Family History, Historical Consciousness and Citizenship* reveals that family historians collect and analyse varied historical sources, including oral testimony, archival documents, pictures and objects of material culture. This book reveals how people are thinking historically outside academia, what historical skills they are using to produce historical knowledge, what knowledge is being produced and what impact that can have on them, their communities and scholars. The result is a necessary revival of the current perceptions of family history.

A recent Maritz Poll reported that 60% of Americans are interested in their family history. And with good reason. Through genealogy, you can go back into history to meet people who have had more

influence on your life than any others -- your ancestors. And the better you get to know your ancestors, the better you will get to know yourself: the who's and what's and why's of you. Barbara Renick, a nationally-known lecturer on genealogy, tells the uninitiated researcher the steps needed to find out who their ancestors really were, and brings together for even the more experienced genealogical researchers the important principles and practices. She covers such topics as the importance of staying organized and how to go about it; where and how to look for information in libraries, historical societies, and on the internet; recognizing that just because something is in print doesn't mean it's right; and how to prepare to visit the home where your ancestors lived. *Genealogy 101* is the first book to read when you want to discover who your ancestors were, where they lived, and what they did.

Barbara Alpern Engel's *Marriage, Household and Home in Modern Russia* is the first book to explore the intricacies of domestic life in Russia across the modern period. Surveying the period from 1700 right up to the present day, the book explores the marital and domestic arrangements of Russians at multiple levels of society and the impact of broader historical developments, including war and revolution, upon them. It also traces the evolution of marriage, household and home as institutions over three centuries, whilst also highlighting the inter-relationship between public policy and private life, in what is a wholly original historical assessment of domesticity in modern Russia. In the process, the author expertly synthesizes the key works, arguments and discussions in the field, mapping out the historiographical landscape of this compelling aspect of Russian social history. *Marriage, Household and Home in Modern Russia* is crucial reading for any student or scholar of modern Russian his-

tory.

From the Knights Templar to serving in the militia under George Washington, the Huguenot's have been keepers of the faith, fighters for freedom, and left their mark on history. The Huguenots were massacred in France in the 17th century when the Royals declared one king, one law, one religion. Fleeing for their lives, and for the right to worship as Protestants, many walked away from lives of nobility. Jacques Guyon settled on Staten Island; Louis Guion settled first in Rye, then New Rochelle, NY. Follow their journeys and the lives of their descendants in a true French-American saga. Of particular interest to genealogists, with a supporting appendix, especially for those families who intermarried with the Guion's.

A luminous quartet, five years in the writing, reveals even more fully the breathtaking range of "a storyteller in the grand tradition" (New York Times). Allan Gurganus's voice--by turn bawdy and serene, folkloric and profane--deepens as it soars into this quiet masterwork. Four new fables--rich in event, comedy, experience--surge with the force of history's headlines versus sidestreet human fortitude. Improbable heroes and heroines spiral outward from Gurganus's familiar Carolina terrain. Each fires into a wild and differing direction, all in quest of some fantasy that's practically impossible: --An impoverished immigrant has her portrait painted (or not) by John Singer Sargent. --A young man's devotion to saving eighteenth-century homes—and their odd lingering ghosts—helps him find unlikely ways to renovate his own mortality. --A pillar of the community becomes, over the course of one cartoon matinee, its pariah. --A beloved, transfixingly homely father shows his village and his only son a decency stronger than race, humiliation, or even death itself. These characters' quixotic missions

prove mysterious, often even to themselves. Their legacies are not easily deciphered. And yet, their most impractical wishes soon become the heartiest facts about each. They manage to wrest battle--courage from everyday indecision. Out of superstition and convention, they lift certainty. They each find a wealth of consoling truths banked--immortal--in the all-too-human heart. Allan Gurganus's great powers--announced more than a decade ago by *Oldest Living Confederate Widow Tells All*--here achieve a yearning exuberance worthy of a new Whitman. These leaps of sexual longing, empathy, and faith become a major new gift from this essential fablemaker.

Like many adoptees, Don Anderson wanted to know where he came from. But would he be setting himself up for disappointment by searching? Would he discover parents who were not alive--or worse, parents who didn't want to know him? Would he be able to find them at all? *Paper and Spit* chronicles Anderson's journey. Follow him every step of the way, from filing his first application in 1995, to obtaining information from the adoption agency that placed him, to knocking on his maternal aunt's door in 2001, to finally confirming the identity of his father in 2015. Using DNA and genealogy, Anderson finds not only the identity of his birth parents but also his true ethnic heritage. In his relentless pursuit, he attends conferences, classes, and studies--and he never gives up his search. Anderson discovers that his connection to his roots is stronger than he realizes--and once he reconnects, he never lets go. *Paper and Spit* is filled with suspense, disappointments, breakthroughs, and climactic moments that make it a great read. Even if adoption is not your story, Anderson's memoir will inspire you to find the roots of your identity and heritage.

Seven generations of heartfelt stories of love and loss abound in this family memoir about the US Virgin Islands. Rich in history and heritage, the author shares some of the most memorable stories that have been handed down in her family from generation to generation. "When a prominent St. Thomas merchant accumulates 2,500 acres on the island of St. John to raise cattle and cultivate bay leaves, he has no idea that his generation will be the last to farm the land. During the 1920s to the 1950s,

Herman O. Creque's hard work pays off on his estates of Annaberg, Mary's Point, and Lamesure, but at the peak of their profitability, he dies, leaving them all to his wife, Emily. Francis Bay is their children's favorite with almost thirty years of summer memories, fishing, hunting, and crabbing. One day, the beach and summer cottage will be theirs, or so they believe. When two conservationists from the United States, Laurance Rockefeller, and Frank Stick visit the island in 1952, they find the unspoiled nature of Emily's lands enchanting and "wish to preserve them for the enjoyment of the nation." Little do Emily's children suspect that life as they know it is about to change forever, and the unthinkable will tear their family apart. Vintage St. John is a collection of their heartfelt memories woven together from personal interviews. They paint a vivid picture of life before the establishment of the Virgin Islands National Park... and life shortly after." * This memoir includes a brief history of the Creque Marine Railway on Hassel Island, the ownership of the island of Mingo Cay, Jeffrey Epstein's Little St. James Island, Norman Island and 140 acres of Peter Island in the British Virgin Islands. * Other stories include: Vacationing in Cruz Bay 1955, Memories of working at Caneel Bay 1983, Cultivating onions at Cinnamon Bay 1903, Growing bay leaves at Lamesure Estate for the Bay Rum Industry and the raising of livestock with a new type that originated in St. Croix, called Senepol cattle 1930s. The purpose of this book is to help champion a paradigmatic shift in educating Black males. This book aims to provide an asset and solution-based framework that connects the educational system with community cultural wealth and educational outcomes. The text will be a sourcebook for in-service and pre-service teachers, administrators, district leaders, and school support staff to utilize in their quest to increase academic and social success for their Black male students. Adopting a strengths-based epistemological stance, this book will provide concerned constituencies with a framework from which to engage and produce success.
