Financial Accounting, Reporting and Analysis - CB369 ...

When performing financial reporting and analysis, you should first review the General Ledger Balances Cubes documentation in the Implementing Enterprise Structures and General Ledger guide for reporting and analysis considerations.

The financial reporting process is governed by accounting rules and standards,

managerial incentives, and enforcement and monitoring mechanisms.

Financial accounting is the field of accounting concerned with the summary, analysis and reporting of financial transactions related to a business. This involves the preparation of financial statements available for public use. Stockholders, suppliers, banks, employees, government agencies, business owners, and other stakeholders are examples of people interested in receiving such information for decision making purposes. Financial accountancy is governed by both local and international accounting
