Recognizing Fine Silver and Sterling Silver Marks. Fine silver is stamped with marks such as 999, 99.9 or .999, indicating how much silver the piece contains per hundred or thousand parts. Sterling silver made in the U.S. is marked 925, .925 or 92.5. Jewelry with lower purity is not considered sterling silver by U.S. standards.

The fineness of a precious metal object (coin, bar, jewelry, etc.) represents the weight of fine metal therein, in proportion to the total weight which includes alloying base metals and any impurities. Alloy metals are added to increase hardness and durability of coins and jewelry, alter colors, decrease the cost per weight, or avoid the cost of high-purity refinement.
