Every Christmas, Christians all over the world observe Advent, a season that reminds us of the love, hope, joy, and peace found only in Jesus Christ. Through this short and sweet family devotional (especially helpful if you're teaching little ones with short attention spans), Scott James brings to light the many promises of Christ—from birth to ascension—that demonstrate His love for us during this Christmas season. These daily devotions, which can be used by both families and individuals, are timeless and moving reminders of the true gift of Christmas. The Expected One is a perfect (and doable!) gift for any growing family or beloved friend who needs meaningful and biblical reminders of all Jesus is for them during the busy and the bustle of the holiday season, setting Him back in the center of it all.

The Son of Man shall choose When the time returns for the Poet Prince. He will inspire the hearts and minds of the peo-

ple So as to illuminate the path of service And show them the Way. This is his legacy, This, and to know a very great love. Worldwide controversy surrounds author Maureen Paschal as she promotes her new bestseller—the explosive account of her discovery of a gospel written in Jesus' own hand. But a scandalous headline about her lover, Bérenger Sinclair, shatters Maureen's plans and sends her to Florence. In Tuscany, Maureen and Bérenger seek out their spiritual teacher Destino, who insists the besieged couple study one of history's great Poet Princes: Lorenzo de' Medici, the godfather of the Italian Renaissance. Bérenger is a Poet Prince of the ancient bloodline prophecy, and even across the centuries, his fate is intertwined with Lorenzo de' Medici's. Bérenger must uncover the heretical secrets of the Medici family—and the shocking truth behind the birth of the Renaissance—if he is to fulfill his own destiny. These heretical secrets were hidden for a reason, and there are those who would stop at noth-

ing to prevent Bérenger's assumption of his rightful role. The Renaissance comes vividly to life as Maureen decodes the clues contained within the great masterpieces of Lorenzo the Magnificent's friends: Donatello, Botticelli, and Michelangelo. Maureen uncovers truths connected to the legend of Longinus Gaius, the Roman centurion who used pierced the crucified Jesus with his spear. Could Longinus Gaius, doomed to live forever, be someone she knows? Could his infamous Spear of Destiny, sought even by Hitler, be the key to Bérenger's fate? As Maureen and Bérenger race to find the answers, someone is after them, hell-bent on settling a five-hundred-year old blood feud and destroying the heresy once and for all. Rich in Kathleen McGowan's signature insights into art, architecture, and history and set in the beauty of Renaissance and present-day Italy, this is a spiritual detective story of the highest order. The Truth Against the World!

As the first female detective in 1920s New York City, Ava Gold has a lot to prove. But when a serial killer strikes, Ava finds herself up against an enemy more terrifying than she could ever imagine. "A MASTERPIECE OF THRILLER AND MYSTERY. Blake Pierce did a magnificent job developing characters with a psychological side so well described that we feel inside their minds, follow their fears and cheer for their success. Full of twists, this book will keep you awake until the turn of the last page." --Books and Movie Reviews, Roberto Mattos (re *Once Gone*) CITY OF PREY (An Ava Gold Mystery—Book 1) is the debut novel in a long-anticipated new series by #1 best-seller and USA Today bestselling author Blake Pierce, whose bestseller *Once Gone* (a free download) has received over 1,000 five star reviews. In the rough

streets of 1920s New York City, 34 year-old Ava Gold, a widower and single mom, claws her way up to become the first female homicide detective in her NYPD precinct. She is as tough as they come, and willing to hold her own in a man's world. But when a psychotic serial killer unleashes a rampage, murdering young women across the city, Ava will have to search the dark canals of the twisted killer's mind if she has any hope of hunting him down. With psychological profiling still in its infancy, and mocked by most, Ava will be even more alone as she follows her instinct, and hunts him down in a dangerous game of cat and mouse. Just when it seems the stakes couldn't be higher, Ava comes to an awful realization: she herself may be the next target. Amidst the speakeasies, jazz clubs, mafia-run prohibition rings, horrific mental asylums and dangerous back alleys of the city, can Ava achieve what all the men cannot: enter the sick mind of a killer, and stop him before more women die? A heart-pounding suspense thriller filled with shocking twists, the authentic and atmospheric AVA GOLD MYSTERY SERIES is a riveting page-turner, endearing us to a strong and brilliant character that will capture your heart and keep you reading late into the night. This volume focuses on food preservation prior to distribution and sale, which is a major challenge in the tropical climates of most developing nations. In order to assure that food products are safe for human consumption, due importance must be given to the quality and safety aspects of production, processing, and distribution. This volume provides an informative overview of recent research on the therapeutic potential of various new and natural compounds along with novel

technologies for enhanced shelf-life longevity and food safety. It also looks at the antimicrobial constituents of different sources and the history of their use as biopreservatives. It includes scientific evaluations of their use as alternative or potential biopreservatives. Focusing on real-life applications in consumer and food products, the book is divided into three parts, covering health and quality aspects of food preservation, applications of novel biomolecules for quality and safety of foods, and novel research techniques in food biopreservation.

A deadly political rivalry that ended in two brutal executions...An intricate love triangle that altered the course of history...A religious revolution that changed the world... THE TREASURE... For two thousand years, an undiscovered treasure rested in the rocky wilds of the French Pyrenees. A series of scrolls written in the first century by Mary Magdalene, these startling documents hold the power to redefine the events and characters of the New Testament. Protected by supernatural forces, the priceless cache can only be uncovered by a special seeker, one who has been chosen for the task by divine providence - The Expected One. THE CHOSEN ONE... When journalist Maureen Paschal begins the research for a new book, she has no idea that she is stepping into an ancient mystery so complex and dangerous that thousands of people have killed and died for it. As a long buried family scandal comes to

light, she can no longer deny her own role in a deadly drama of epic international consequences.

Once there was a gospel written in Christ's own hand: a treasure of almost unimaginable magnitude, referred to by the Cathars of medieval France as The Book of Love... Fresh from her successful search for the long-hidden scrolls written by Mary Magdalene, journalist Maureen Pascal now finds herself on the trail of the legendary lost gospel known as the Book of Love. But just as there were those who would stop at nothing to seize and suppress the Book of Love seven centuries ago, so there are those today who are equally determined that its radical message should never be revealed. In a race across Italy and France, new dangers await Maureen and her lover Sinclair as they begin to uncover secrets and shine new light on the hidden corners of Christianity. Combining expert research with dazzling plot twists, The Book of Love is sure to thrill readers as they follow Maureen's search for clues through some of the world's greatest art, architecture and history, until a potentially fatal encounter reveals the Book of Love to her -- and to us.

"Sophie Love's ability to impart magic to her readers is exquisitely wrought in powerfully evocative phrases and descriptions....This is the perfect romance or beach

read, with a difference: its enthusiasm and beautiful descriptions offer an unexpected attention to the complexity of not just evolving love, but evolving psyches. It's a delightful recommendation for romance readers looking for a touch more complexity from their romance reads." -- Midwest Book Review (Diane Donovan re For Now and Forever) CHRISTMAS FOREVER is book #8 in the #1 bestselling clean romance series THE INN AT SUNSET HARBOR, which begins with For Now and Forever (book #1)—a free download! 35 year old Emily Mitchell fled her job, apartment and ex-boyfriend in New York City for her father's historic, abandoned home on the coast of Maine, needing a change in her life and determined to make it work as a B&B. She had never expected, though, that her relationship with its caretaker, Daniel, would turn her life on its head. Christmas and New Years are fast approaching in Sunset Harbor, and Emily Mitchell is nearing her third trimester. While they continue to develop their new private island, a new business opportunity arises—one Emily had never anticipated, and which could change everything. Roy's time left to live is running out fast, and as Christmas looms and all are busy preparing, Emily knows that this will be the most meaningful one of her life. It will be an inspirational holiday season, one that changes their lives forever. CHRISTMAS FOREVER is book #8 in a dazzling, wholesome romance series that will make you laugh, cry, keep you turning pages late into the night—and make you fall in love with the contemporary romance novel all over again. Sophie's new romantic comedy, LOVE LIKE THIS, is now also available! "A very well written novel, describing the struggle of a woman (Emily) to find her true identity. The author did an amazing job with the creation of the characters

and her description of the environment. The romance is there, but not overdosed. Kudos to the author for this amazing start of a series that promises to be very entertaining." --Books and Movies Reviews, Roberto Mattos (re For Now and Forever)

"I enthusiastically recommend this book." -David Platt Every Christmas, Christians all over the world celebrate the Advent season, recognizing the love, hope, joy, and peace that is found only

in Jesus Christ. Through this devotional, Scott James brings to light the many promises of Christ—from birth to ascension—that demonstrate His love for us during this Christmas season. These daily devotions, which are designed for both family and individual use, are timeless and moving reminders of the true gift of Christmas.

“An action packed fantasy sure to please fans of Morgan Rice’s previous novels, along with fans of works such as *The Inheritance Cycle* by Christopher Paolini.... Fans of Young Adult Fiction will devour this latest work by Rice and beg for more.” --*The Wanderer, A Literary Journal* (regarding *Rise of the Dragons*) The #1 Bestselling series, with over 400 five star reviews on Amazon! *A REALM OF SHADOWS* is book #5 in Morgan Rice’s bestselling epic fantasy series *KINGS AND SORCERERS* (which begins with *RISE OF THE DRAGONS*, a free download)! In *A REALM OF SHADOWS*, Kyra finds herself in the midst of a burning capital, attacked by a host of dragons, clinging for life. With her beloved homeland destroyed, The Flames down and the trolls pouring in, Kyra must urgently quest to Marda to retrieve the magic weapon before it is too late—even if it takes her into the very heart of darkness. Duncan finds himself trapped, with the others, in the burning capital, and he uses all his wits to find his men, attempt escape, and rally his forces to regroup and attack Pandesia. Across the kingdom, Merk sails with King Tarnis’ daughter through the Bay of Death as they abandon the Tower of Kos and sail for the warrior isle of Knossos. Pursued by Vesuvius and his army of trolls, crossing the world’s most treacherous waters, they know they have little chance to reach the isle, and even less chance of escape. Dierdre and Marco survive the ti-

dal wave that destroyed Ur only to find their beloved city under water. With everyone they knew and loved lost and dead, they must pick up the pieces and journey to the one person they know who is left alive: Kyra. Alec, meanwhile sails back for Escalon with the people of The Lost Isles, holding the precious sword that might just change everything. But none expect to encounter a land destroyed, a land that is now teeming with dragons. With its strong atmosphere and complex characters, *A REALM OF SHADOWS* is a sweeping saga of knights and warriors, of kings and lords, of honor and valor, of magic, destiny, monsters and dragons. It is a story of love and broken hearts, of deception, ambition and betrayal. It is fantasy at its finest, inviting us into a world that will live with us forever, one that will appeal to all ages and genders. Book #6 in *KINGS AND SORCERERS* will be published soon. “If you thought that there was no reason left for living after the end of the Sorcerer’s Ring series, you were wrong. Morgan Rice has come up with what promises to be another brilliant series, immersing us in a fantasy of trolls and dragons, of valor, honor, courage, magic and faith in your destiny. Morgan has managed again to produce a strong set of characters that make us cheer for them on every page....Recommended for the permanent library of all readers that love a well-written fantasy.” --*Books and Movie Reviews, Roberto Mattos* (regarding *Rise of the Dragons*)

Content protection and digital rights management (DRM) are fields that receive a lot of attention: content owners require systems that protect and maximize their revenues; consumers want backwards compatibility, while they fear that content owners will spy on their viewing

habits; and academics are afraid that DRM may be a barrier to knowledge sharing. DRM technologies have a poor reputation and are not yet trusted. This book describes the key aspects of content protection and DRM systems, the objective being to demystify the technology and techniques. In the first part of the book, the author builds the foundations, with sections that cover the rationale for protecting digital video content; video piracy; current toolboxes that employ cryptography, watermarking, tamper resistance, and rights expression languages; different ways to model video content protection; and DRM. In the second part, he describes the main existing deployed solutions, including video ecosystems; how video is protected in broadcasting; descriptions of DRM systems, such as Microsoft's DRM and Apple's FairPlay; techniques for protecting prerecorded content distributed using DVDs or Blu-ray; and future methods used to protect content within the home network. The final part of the book looks towards future research topics, and the key problem of interoperability. While the book focuses on protecting video content, the DRM principles and technologies described are also used to protect many other types of content, such as ebooks, documents and games. The book will be of value to industrial researchers and engineers developing related technologies, academics and students in information security, cryptography and media systems, and engaged consumers.

It has been comprehensively updated for the long-awaited C++Beginner's from the Best selling Programming Author Harry H Chaudhary. The primary aim of this book is to help the reader understand how the facilities offered by C++ support key programming techniques. The aim is to take the reader far beyond the point where he or she gets code running primarily by copying examples and emulating programming styles from other languages. Anyone can learn C++ Programming through This Book I promise. Most Imp. Feature of this book is-- 1) Learn C++ without fear, 2) This book is for everyone, 3) 160 End of book examples, 4) 200 Practical Codes, 5) At last it goes to Expert level topics such as: \*Software Design & Development Using C++\*, 6) 101 Rules, for Software Design & Development using C++ @ the end of this book. 7) Very Easy Definitions for each topic with code examples and output. While

reading this book it is fun and easy to read it. This book is best suitable for first time C++ readers, Covers all fast track topics of C++ for all Computer Science students and Professionals. This book introduces standard C++ and the key programming and design techniques supported by C++. Standard C++ is a far more powerful and polished language than the version of C++ introduced by the first edition of this book. This book presents every major C++ language feature and the standard library. It is organized around language and library facilities. However, features are presented in the context of their use. That is, the focus is on the language as the tool for design and programming rather than on the language in itself. This book demonstrates key techniques that make C++ effective and teaches the fundamental concepts necessary for mastery. As everyone knows that Author Harry is basically known for his Easy way- Programming without fear technique. His book presents world's easiest definitions and codes for beginners.

InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

This book describes in a detailed fashion the application of hybrid intelligent systems using soft computing techniques for intelligent control and mobile robotics. Soft Computing (SC) consists of several intelligent computing paradigms, including fuzzy logic, neural networks, and bio-inspired optimization algorithms, which can be used to produce powerful hybrid intelligent systems. The prudent combination of SC techniques can produce powerful hybrid intelligent systems that are capable of solving real-world

problems. This is illustrated in this book with a wide range of applications, with particular emphasis in intelligent control and mobile robotics. The book is organized in five main parts, which contain a group of papers around a similar subject. The first part consists of papers with the main theme of theory and algorithms, which are basically papers that propose new models and concepts, which can be the basis for achieving intelligent control and mobile robotics. The second part contains papers with the main theme of intelligent control, which are basically papers using bio-inspired techniques, like evolutionary algorithms and neural networks, for achieving intelligent control of non-linear plants. The third part contains papers with the theme of optimization of fuzzy controllers, which basically consider the application of bio-inspired optimization methods to automate the design process of optimal type-1 and type-2 fuzzy controllers. The fourth part contains papers that deal with the application of SC techniques in times series prediction and intelligent agents. The fifth part contains papers with the theme of computer vision and robotics, which are papers considering soft computing methods for applications related to vision and robotics. Lois Lowry once again creates a mysterious but plausible future world. It is a society ruled by savagery and deceit that shuns and discards the weak. Left orphaned and physically flawed, young Kirra faces a frightening, uncertain future. Blessed with an almost magical talent that keeps her alive, she struggles with ever broadening responsibilities in her quest for truth, discovering things that will change her life forever. As she did in THE GIVER, Lowry challenges readers to imagine what our world could become, how people could evolve, and what could

be considered valuable. Every reader will be taken by Kira's plight and will long ponder her haunting world and the hope for the future.
