In the context of modern architectural theory, genius loci has profound implications for place-making, falling within the philosophical branch of "phenomenology". This field of architectural discourse is explored most notably by the theorist Christian Norberg-Schulz in his book, *Genius Loci: Towards a Phenomenology of Architecture* .

Christian Norberg-Schulz : *GENIUS LOCI - Towards a phenomenology of Architecture*. The genius loci thus denote what a thing is, or what it "wants to be". The identity of a person is defined in terms of the schemata developed, because they determine the "world" which is accessible. We understand that human identity is to a high extent a function of places and things.
