Investigative Criminal Procedure: Doctrine, Application, and Practice by Jens David Ohlin is designed to respond to the changing nature of teaching law by offering a flexible approach with an emphasis on application. Each chapter focuses on Supreme Court cases that articulate the constitutional requirements, while call-out boxes outline statutes or state constitutional law provisions that impose more stringent rules. Short problem cases, also in boxes, ask students to apply these principles to new fact patterns. Each chapter ends with a Practice and Policy section that delves deeper into the conceptual and practical obstacles to the realization of procedural rights in the daily practice of criminal law. The result is a modular format, presented in a lively visual style, which recognizes and supports the diverse pedagogical approaches by today's leading criminal procedure professors. Criminal Procedures: Cases, Statutes, and Executive Materials is known for its focus on materials from multiple institutions, including primary materials from U.S. Supreme Court cases, state high court cases, state and federal statutes, rules of procedure, and police and prosecutorial policies, along with materials from social science studies. Taken together, the principal materials highlight procedural variety, focus on real-world topics, provide the political context, offer a comparative analysis of different legal approaches, and consider the impact of procedures. The 2022 Supplement covers the most recent decisions of the U.S. Supreme Court as well as newsworthy developments such as policing and bail reform, emerging legal responses to new surveillance technologies, and the declination policies of newly-elected prosecutors. New to the 2022 Edition: Two new authors joined the editorial team in 2019: Jenia Iontcheva Turner of SMU Dedman School of Law and Kay L. Levine of Emory University School of Law. With her doctoral training in Socio-Legal Studies and her balanced experience as a prosecutor and a defense attorney in state court, Professor Levine sharpens the focus of the book on the real-world operation of courtroom actors in high-volume state systems. With her background in international criminal tribunals and comparative criminal procedure, Professor Turner strengthens the comparisons between court systems in the U.S. and those around the world. The 2022 Supplement incorporates all of the Criminal Procedure rulings of the U.S. Supreme Court from its October 2019, October 2020, and October 2021 terms, whether through reprinting opinions as principal materials or through summary coverage in new notes and practice problems. The Supplement includes opinions from high

state courts that add texture to the doctrines described in the main volume. The Supplement also spotlights new legislative and enforcement trends, including proposals for limiting police use of force, "defunding" or reforming police departments, emerging legal responses to new surveillance technologies, bail reform, and the declination policies that prosecutors publish and apply.

COMPREHENSIVE CRIMINAL PROCEDURE 2022 CASE SUPPLEMENT

Mastering Criminal Law explores the basic principles useful in the study of criminal law, offering real world examples to understand these concepts. It provides a clear and concise consideration of the fundamental structure of a crime including statutory interpretation and sentencing. It has chapters on the typical crimes covered in most criminal law casebooks, namely, homicide, rape, assault and battery, and theft. Additionally, it covers accomplice liability, solicitation, attempt and conspiracy. It also covers defenses, including the right to present a defense. It distinguishes different approaches such as the Common Law and Model Penal Code and provides examples of different state statutes. This book is part of the Carolina Academic Press Mastering Series edited by Russell L. Weaver, University of Louisville School of Law.

White collar crime is primarily based upon a complex set of statutes. Understanding White Collar Crime provides the texts of the statutes, along with analyses of the statutes' elements. Because many of these statutes are open to varying interpretations, the book also extensively discusses the main cases interpreting the statutes, including a large number of U.S. Supreme Court cases. Finally, the book discusses the significant policy is-

sues that arise in white collar crime investigations and prosecutions, such as enforcement barriers and prosecutorial discretion. Examples of new materials for this edition include discussions of the Supreme Court's recent decisions on the United States Sentencing Guidelines (Booker), obstruction of justice (Arthur Andersen LLP), mail and wire fraud (Pasquantino), conspiracy (Jimenez Rocio), bribery (Sabri), extortion (Scheidler v. NOW), and money laundering (Whitfield). The Third Edition of *Understanding White Collar Crime* also discusses important federal circuit and district court cases in such areas as obstruction (Quattrone), mail fraud (Rybicki), securities fraud (Martha Stewart), and sentencing (various issues arising under Booker).
