10. HANDOVER PROCEDURES The handover of refurbished areas or new buildings to the University is a critical point in a contract process. In order that the operation of the building continues in a smooth and efficient manner after handover it is important that information is available to the Maintenance Teams who may be called to attend to plant or

### **nursing handover | Evidence search | NICE**

Although the project close-out and handover are typically the final phase of the project this does not mean that the relevant activities should only commence when the previous stage is complete. On the contrary, it can be seen by the list above that work such as as-built drawings should be developed as the project progresses through the earlier stages and be ready for handover as soon as the work is complete.
