The ability to see deeply affects how human beings perceive and interpret the world around them. For most people, eyesight is part of everyday communication, social activities, educational and professional pursuits, the care of others, and the maintenance of personal health, independence, and mobility. Functioning eyes and vision system can reduce an adult's risk of chronic health condi-

tions, death, falls and injuries, social isolation, depression, and other psychological problems. In children, properly maintained eye and vision health contributes to a child's social development, academic achievement, and better health across the lifespan. The public generally recognizes its reliance on sight and fears its loss, but emphasis on eye and vision health, in general, has not been integrated into daily life to the same extent as other health promotion activities, such as teeth brushing; hand washing; physical and mental exercise; and various injury prevention behaviors. A larger population health approach is needed to engage a wide range of stakeholders in coordinated efforts that can sustain the scope of behavior change. The shaping of socioeconomic environments can eventually lead to new social norms that promote eye and vision health. Making Eye Health a Population Health Imperative: Vision for Tomorrow proposes a new population-centered framework to guide action and coordination among various, and sometimes competing, stakeholders in pursuit of improved eye and vision health and health equity in the United States. Building on the momentum of previous public health efforts, this report also introduces a model for action that highlights different levels of prevention activities across a range of stakeholders and provides specific examples of how population health strategies can be translated into cohesive areas for action at federal, state, and local levels.

The New York Times bestseller! "Frank Hamer, last of the old breed of Texas Rangers, has not fared well in history or popular culture. John Boessenecker now restores this incredible Ranger to his proper place alongside such fabled lawmen as Wyatt Earp and Eliot Ness. Here is a grand adventure story, told with grace and authority by a master historian of American law enforcement. Frank Hamer can rest easy as readers will finally learn the truth behind his amazing career, spanning the end of the Wild West through the bloody days of the gangsters." --Paul Andrew Hutton, author of *The Apache Wars* To most Americans, Frank Hamer is known only as the "villain" of the 1967 film *Bonnie and Clyde*. Now, in *Texas Ranger*, historian John Boessenecker sets out to restore Hamer's good name and prove that he was, in fact, a classic American hero. From the horseback days of the Old West through the gangster days of the 1930s, Hamer stood on the front lines of some of the most important and exciting periods in American history. He participated in the Bandit War of 1915, survived the climactic gunfight in the last blood feud of the Old West, battled the Mexican Revolution's spillover across the border, protected African Americans from lynch mobs and the Ku Klux Klan, and ran down gangsters, bootleggers, and Communists. When at last his career came to an end, it was only when he ran up against another legendary Texan: Lyndon B. Johnson. Written by one of the most acclaimed historians of the Old West, *Texas Ranger* is the first biography to tell the full story of this near-mythic lawman.

But only one year after Raphael makes it out of his small-town home, bad news descends on him. His useless father has gotten their family into debt so deep it would take a thousand years to dig

them out. With his siblings on the brink of becoming homeless, Raphael turns to his estranged but wealthy grandmother for help, and receives a deal: If he settles down and marries, he'll free his siblings of the debt. When Raphael asks Nathan for a favor--to enter a marriage of convenience--Nathan agrees. After all, he's doing it so he can start his own pet shop, right? Wrong. After all, he knows better now than to fall for Raphael again. Haunted by the loss of their past relationship, Raphael regrets breaking Nathan's heart. Scars from the past are never easy to heal, though, and the more time he spends with his new husband, the harder it gets for Raphael to deny the sparks that Nathan ignites in him. Most people would probably keep their mouths shut so they could keep their job. But Con doesn't always do things the way other people would. Rex has raised his son alone for three years. His wife dumped him a year after his son was born because he was such a workaholic. He knows he isn't the best father in the world, but he didn't really think he was the worst either. Not until that mouthy omega Con started pointing out all his flaws. Rex has always been with women, and he hasn't really noticed another guy sexually since college. Even then he'd never acted on anything with a guy. Finding Con attractive is confusing for Rex, but the biggest issue he has with this newfound attraction to his manny is the fact that he's twenty years older than Con.
