GM95D8 - MCMAHON BRANDT

Traces the cultural history of the giraffe, includes ancient and contemporary descriptions, and studies the impact of giraffes on the human imagination.

This playful rhyming Little Golden Book asks, "How do penguins play?" Children will delight in watching bear cubs, seals, penguins, monkeys, and other animal friends frolicking joyfully with each other. Adorable pastel illustrations show these animals playing king-of-the-hill, keep away, and other fun and familiar games. Internationally renowned author and scientist Tim Flannery's first children's book is a humorous, informed, and accessible deep-dive into the natural world. Are zombie jellyfish real? Do frogs like opera? What's it like to wrestle a python? Tim Flannery has the answers. Introducing some of the most spectacular and unusual creatures on Earth, from water to sky and the forests and deserts in between, he offers in-depth and often bizarre facts on extraordinary animals that live in each habitat while incorporating concepts of climate change, evolution, conservation, and taxonomy. Did you know that lions once roamed North America, or that albatrosses sleep-fly? Have you ever heard a piranha bark, or ever wondered how the sloth got its name? Packed with vibrant illustrations and guided by real-life anecdotes from one of our greatest science communicators, *Weird, Wild, Amazing!* teaches readers to cherish and delight in our planet's environment with Flannery's signature mix of humor and wisdom.

WHY? Get answers to all the questions you have about nature!

Sloth wants to nap. Rabbit doesn't. Who will win in the end? For every parent who's struggled to get their child to nap, *But First, We Nap* is a hilarious book to replace the naptime wrestle.

In *Joyful Infographics: A Friendly, Human Approach to Data*, one of the leading graphic designers of recent times shows how a judicious use of humor can make infographics more understandable. Written in non-academic, easy-to-understand language, and with historical and contemporary visual examples presented throughout, this small book provides a short history of light-hearted graphics. The text outlines nine clear ways to make graphics more understandable, explores the importance of the audience, shows you how to make information come alive during presentations through live-action 'performance' graphics, discusses why joy and smiling are good for you, and shows you how not to overdo it. Even if a subject is delicate, controversial, or taboo, being graphically friendly to the audience is the right way to explain it. It is the opposite of being clinically cold and just presenting the facts. If you can get readers to smile--the smile of recognition when they understand the graphic--you are more than halfway toward getting them to continue reading, and understanding, the intention of the piece. *Joyful Infographics* teaches you how to do just that.

Since they are so hot, dry, and large, animals must adapt in order to live in such a place. This book talks about some of the animals that live in deserts, but there is many more.

Aliera Wants to be a Giraffe is a story about a little girl who goes to the zoo with her mother to learn about giraffes. While learning about the giraffes, she learns something cool and soon wants to be a giraffe. After a while, Aliera learns being a giraffe isn't so cool after all.

A magical tale of finding friendship where you least expect it. Bertie the giraffe's life runs over very straight lines. He always has the same breakfast. He always takes the same stroll. He always naps under the same tree. But - wait a minute - who's this under the tree today? A blue giraffe? Blue?! Kristyna studied Illustration at Edinburgh College of Art and graduated in 2010. She now lives in a beautiful village in Yorkshire where she is heavily reliant on the good old pencil and a great big cup of tea to keep her going, whilst habitually singing, or twiddling her hair. Her first picture book, *Flint's Odd Socks*, followed by *Chickens Can't See In The Dark* were highly commended for the Macmillan Prize two year's running.

A tour of clocks throughout the centuries—from the sandglass to the telomere—to reveal the physical, biological, and social nature of time. What is time? This question has fascinated philosophers, mathematicians, and scientists for thousands of years. Why does time seem to speed up with age? What is its connection with memory, anticipation, and sleep cycles? Award-winning author and mathematician Joseph Mazur provides an engaging exploration of how the understanding of time has evolved throughout human history and offers a compelling new vision, submitting that time lives within us. Our cells, he notes, have a temporal awareness, guided by environmental cues in sync with patterns of social interaction. Readers learn that, as a consequence of time's personal nature, a forty-eight-hour journey on the Space Shuttle can feel shorter than a six-hour trip on the Soyuz capsule, that the Amondawa of the Amazon do not have ages, and that time speeds up with fever and slows down when we feel in danger. With a narrative punctuated by personal stories of time's effects on truck drivers, Olympic racers, prisoners, and clockmakers, Mazur's journey is filled with fascinating insights into how our technologies, our bodies, and our attitudes can change our perceptions. Ultimately, time reveals itself as something that rides on the rhythms of our minds. *The Clock Mirage* presents an innovative perspective that will force us to rethink our relationship with time, and how best to use it.

Their extraordinary long necks, distinctive camouflage, graceful movements, and friendly nature have made giraffes one of the most fascinating and beloved animals on the planet. But while giraffes once roamed the Great Plains of Africa in huge herds, their numbers have greatly diminished, and they are now entirely dependent on humanity for their survival. In *Giraffe*, Edgar Williams explores not only the biology of the tallest animals on earth, but also their impact on human history—including in ancient Egypt, where giraffes were kept as exotic pets; the Middle Ages, when giraffes were considered mythical beasts as improbable and mysterious as the dragon; and the Victorian era, in which giraffe hunting was considered an exhilarating sport. *Giraffe* is the first book to provide a comprehensive, twenty-first-century view of the giraffe in art, literature, film, and popular culture, as well as its natural history from prehistory to modern times. With new insights into the giraffe's genetics and evolution, this book will appeal to those interested in the giraffe's unique biology and to anyone who

admires the majestic giraffe.

*Giraffes For Kids Amazing Animal Books For Young Readers Best-selling author John Davidson presents "Giraffes For Kids - Amazing Animal Books For Young Readers". Beautiful Pictures and easy reading format will help children fall in love with Giraffes. This is one of over 30 books in the Amazing Animal Books for Young Readers Series. Are you ready? Let's begin and enjoy your reading!*

Naps are just a little break—but when it's naptime, many toddlers have trouble settling into sleep. This calming, encouraging book helps young children quiet down so they can get the rest they need. Eyes are closed, lights are dimmed...and (yawn, s-t-r-e-t-c-h) before little ones know it, it's time to wake up. Cozy illustrations enhance the text. An award-winning author/illustrator team offers a fresh look at the times and transitions all toddlers face daily, giving young children the tools to handle routines with confidence and cooperation. Part of the Toddler Tools series, *Naptime* can be shared before (or during) the desired "time," or whenever toddlers need encouragement with routines. Includes tips for parents and caregivers.

Discover how different animals go to sleep in this rhyming picture book from a veteran children's author! Follow along as three children learn about the bedtime routines of squirrels, parrots, dolphins, and many more. Meerkats sleep in a stack. Is that how these kids go to sleep? Or do they hibernate in snow all winter long like frogs? Or maybe they sleep the day away like skunks? No, that can't be right! By the book's conclusion, the kids have imitated all kinds of animals who are portrayed sleeping in their natural habitats, thanks to Sydney Hanson's charming illustrations. Readers will recognize the way the human child eventually goes to sleep--with stuffed animals, a bedtime story, and a kiss good night! *A Bank Street Best Book of the Year* "Punctuated with zaniness, McMullan's litany nevertheless offers a quiet, calming rhythm to help little ones nod off."--Kirkus "A bedtime book that will soothe and please children and caregivers."--SLJ "A nice pairing with Diane Muldrow's *How Do Giraffes Take Naps?*, Vin Vogel's *Bedtime for Yeti*, or Cari Best's *I'm Brave! I'm Strong! I'm Five!*, particularly for little ones looking for comfort around sleeping in their own beds."--Booklist

Offers a compilation of facts and folklore on a range of topics, in-cluding weather, astronomy, gardening, animals, history, sports, and health.

Look! An elephant eats. Look! Giraffes drink. Look! A warthog digs. A gorilla hides, wild dogs listen, zebras run, monkeys sit, hip-pos splash, and a rhino naps. Each line of text is illustrated by a two-page spread with a beautiful painting of an animal Ted Lewin has seen on his journeys to Africa. At the end of the story, a boy reads, plays, and dreams, surrounded by toy animals that repre-sent each of the real ones. This book encourages children to ob-serve, enjoy, and appreciate the natural world. Guided Reading Level D.

This is a quirky, amusing, information-packed book for all lovers of sleep. It's a celebration of nature's greatest free gift, the per-fect companion for the bedside table. It's the book to curl up with before falling asleep. It looks at the history, culture, folklore, lan-guage and science of sleep. Did you know that the siesta was once a British tradition? Why do we say 'sleep like a top'? Does counting sheep work? What are the very best sleeps? Who invent-ed pyjamas? If dogs sleep so much, why are they always yawn-ing? What are the best films about sleep? Do today's children have less sleep than Edwardian children? Does booze help or hin-der sleep? Not only is sleep a great natural pleasure, it's also es-sential to good health. The book examines how a lack of sleep is increasingly seen as a health risk. Sleep is also the place of dreams and nightmares. Why are so many dreams the same and what are the archetypal recurring dreams? What is the origin of the word 'nightmare'? And what do Bugs Bunny, the surrealists and Freud have to do with dreaming? Sleep is there to be en-joyed. It's not worth getting into bed for anything else.

In the wide, shining world there is so much to see, and Twiga is cu-

rious. But Twiga's tall, tall Mama wants her baby to stay close, stay safe from the dangers that lurk near each irresistible sweet smell and sparkling sight that Twiga finds. With lyrical text and enchanting illustrations, this story of a mother's love will soothe and delight readers of all ages.

New York Times Bestseller! A delightful and quirky compendium of the Animal Kingdom's more unfortunate truths, with over 150 hand-drawn illustrations. Ever wonder what a mayfly thinks of its one-day lifespan? (They're curious what a sunset is.) Or how a jel-lyfish feels about not having a heart? (Sorry, but they're not sor-ry.) This melancholy menagerie pairs the more unsavory facts of animal life with their hilarious thoughts and reactions. Sneakily in-formative, and wildly witty, SAD ANIMAL FACTS will have you cry-ing with laughter.

The survival of giraffes in the wild is threatened. Between 1985 and 2015, the overall population of giraffes in the wild has plum-meted by 40 percent. Anderson shows how climate change, illegal hunting, wars, habitat loss, and habitat fragmentation are the main threats to their survival, and suggests ways that readers can alert their community to the dangers facing Earth's tallest crea-ture. -- adapted from jacket

Learn all about the lives and habits of baby giraffes.

It's naptime, and all the animals are curling up to get some rest. Whether it's snoozing under the sea or nesting high in the trees, little ones will enjoy learning about the various ways their favorite animals get their sleep. From the New York Times bestselling au-thor Diane Muldrow (Everything I Need to Know I Learned from a Little Golden Book) and beloved illustrator David Walker (Bears on Chairs).

As a group of African animals hang out at the local watering hole, they share funny stories about how the zebra got its stripes. At the end of the book, fun facts explain why zebras really have stripes. For any child intrigued by zebras, this colorful, informative book is a must!

What do you call a baby giraffe? What does it eat? What does it do? Where can you see a baby giraffe? At the zoo, of course! Adorable color photographs and fun facts keep readers enter-tained while still introducing them to certain aspects of the life of a baby giraffe at the zoo.

Allow your readers to get an up-close look and enriched unders-tanding of this graceful, powerful, large mammal. Your students will learn about the habitat and daily life of the gorgeous giraffe.

"What does Dudley do all day while we're away?" Sam wonders. Mom explains that Dudley does ordinary dog things: he eats, naps, guards the house, and plays. But in Sam's mind, Dudley's day at home is anything but ordinary. Delightful digital paintings depict the human activities Sam imagines Dudley is doing - which don't quite match Mom's explanations. Dudley's Day at Home is a funny, fetching picture book that uses minimal text and maximal visual storytelling to share a day in a dog's life.

Hercules Hoffman has spent the last few years starting over, in a new job, new living situation, going back to college, and in a new role as manager of the inclusive rugby club he used to play for. His friendships are solid but with his life in transition, he doesn't believe he has a lot to offer someone until the goals he's working towards are achieved. From their first meeting on the pitch, Her-cules sees Apollo as out of his reach, but the gentle giant is never far from his thoughts. Zoologist Apollo Leos finds animals easier to understand than people. Joining the rec league rugby club pushed him out of his comfort zone and gave him a supportive friend group for the first time in his life. Slowly shedding the shields he developed to protect himself from the harshness of the world, he's gaining confidence and the ability to relax and trust. Except when it comes to his attraction to Hercules. He's never dated before and feels his inexperience will be seen as a hindrance to a relationship. Not knowing how Hercules will react to that infor-mation freezes him from making the first move. After their match-making friends scheme to get them together, Hercules and Apollo take a tentative step that quickly falls into a heady rush of firsts. Kisses, dates, sharing pieces of themselves, they form a bond that opens up their worlds. As Hercules wars with doubts about himself and Apollo navigates the unfamiliar territory of a romantic relationship, their summer romance is tested by Hercules's belief that people don't stick around and Apollo's worry about what will happen when he trusts someone with his heart. Shine is a heady summer gay romance filled with firsts and has foodie heroes, ani-mal lovers, matchmaking friends, and friends as family.

THE BEDTIME BOOK SEQUEL TO THE DELIGHTFUL WHAT NOISE

COMES FROM A GIRAFFE? When it needs to rest a bird naps in a nest. But where does a giraffe go to bed? By the time we get through saying "Good morning," it's time to take a nap!

A young giraffe goes on a journey to try to fit in with other ani-mals but learns to love his differences.

The perfect book to read before bedtime--a new Little Golden Book about the different ways animals keep themselves clean. Tigers love to soak in a cold lake or stream. Macaques relax in hot water steam! Beavers comb their fur to remove what's cruddy. Rhinos roll around in a bath that's muddy! This delightful rhyming Little Golden Book shares fun facts about how bunnies, zebras, cats, elephants, and many other animals keep themselves clean. Young boys and girls will love comparing their bathtime to those of the adorable animals in this new book from New York Times bestselling author Diane Muldrow (Everything I Need to Know I Learned From a Little Golden Book series) and beloved illustrator David Walker (How Do Penguins Play?, Bears on Chairs).

In this good-night book that explains how a variety of animals go to sleep, the sun has set and the whole family has gone to bed, ex-cept for their dog, Conrad. Curious to find out if anyone else is awake, he wanders far and wide--through fields and forests, across lakes and oceans--only to find all creatures fast asleep. Conrad is wide-awake, although counting a herd of snoring sheep does make him drowsy! Is everyone asleep? Marcellus Hall's lush nighttime scenes glow with warmth in this playful bedtime story, which features a variety of land and sea creatures, and is narrat-ed by a funny little goggle-eyed pug who will steal readers' hearts.

A collection of interesting and sometimes silly facts that relates to a Bible verse.

Jelly Bean the Giraffe was napping when a bird built a nest on her, but she remains very still and careful until the baby birds hatch. Imagine if you could steal your toddler's nap? This picture book de-buted from a #1 New York Times bestselling author turns the univer-sal dilemma of getting kids to sleep upside down! It's time for a nap but, just like stubborn toddlers everywhere, Annalise Devin McFleece won't have anything to do with bedtime. Dad tries to en-courage sleepiness by pushing her around the park in her stroller. Along the way, they pass a man sitting on a bench, dog walkers walking dogs, a boy on a skateboard, kids playing ball, a girl prac-ticing her juggling, and others. Each of them thinks that taking a nap is a great idea and if Annalise Devin McFleece doesn't want hers, they'll happily take it. And one by one, everyone falls asleep...except Annalise Devin McFleece. But when she's finally ready for her nap, all the naps are taken! Is there anyone who has an ex-tra nap to spare? With every turn of the page, the busy city scene becomes more and more quiet...except for Annalise Devin McFleece. Will she ever take a nap?

A brain-busting activity book that lets kids learn about animals from kangaroos and polar bears to tarantulas and snakes--all while having loads of fun! With crazy cool codes, puzzles, word searches, and so much more, these entertaining activities align with STEM curricula to keep kids engaged as they learn. Author and former teacher Vicki Whiting is the founder of Kid Scoop, an award-winning weekly activity page that promotes standard-s-based learning. Parents and teachers around the world use Vick-i's fun activities to stimulate academic success and a joy of learn-ing. With this expansive collection of exercises, kids aged 5-10 will spend hours learning loads of fun facts all about animals as they complete hundreds of exciting activities. This is a fixed-for-mat ebook, which preserves the design and layout of the original print book
