## K5BOIQ - SAGE JACOBS

Cherish the values of an earlier time, when household chores and simple pleasures -- not the latest video game or a new car at sixteen -- helped children to develop their character. When Paul Harvey read Lee Pitts's essay "These Things I Wish" on his nationally syndicated radio show, Paul Harvey News and Comment, listeners everywhere loved it, and it's become a classic that's been passed from parent to child, from friend to friend. Here, for the first time, Pitts's moving text is presented opposite beautiful illustrations in a book that is the perfect gift for parents and children of all ages. Pitts writes that present-day parents have tried hard to make life better for their children -- but instead they've made it worse. What today's young people need are the things that Pitts wishes for them: hand-me-down clothes, leftover meatloaf, having to mow the lawn and do the dishes, punishment when they've done something wrong. . . . He also wishes that they may know the beauty of a mountain range, and the value of hard work and an education. In plain yet beautiful language, Pitts helps us to envision a simpler time, when children weren't so overscheduled and spoiled with every consumer delight they could ever want. Self-sufficiency, humility, quiet wisdom, personal strength -- these are the virtues that are learned through challenge and adversity. These Things I Wish celebrates values from the past that are so necessary for our future -- the values we yearn for in our busy lives.

Examines the English ode as it was written during the period extending from the middle of the seventeenth century to the middle of the nineteenth century and considers the development of the form and uses to which it was put by writers who varied considerably in outlook, inspiration, and ability in order to present a history of the English ode, to consider the special values of the form, and to weigh the effect ode writing had upon the prosody of lyric verse.

Millions of adults have divorced parents. Choose a Better Path provides thought-provoking, helpful, and healing information for adult children of divorce in a user-friendly format. Through workshops, interviews, articles, and international radio programs, Kent Darcie helps adults with divorced parents apply God's healing to triggers, fears, trust issues, anger, father hunger, unforgiveness, and the fallout from gray divorce (empty-nest parents splitting up). As a researcher, author, speaker, therapist, and adult with divorced parents, Kent brings a wealth of information and tools to those who struggle when dealing with parents, steps, ex-steps, and the menagerie of players that come and go in the years that follow the divorce. While never bashing or demeaning divorced parents or others, Kent does tackle the tough and often subtle issues that damage the relationships and marriages of adult children of divorce. If you, or someone you know, have divorced parents, reading Choose a Better Path is an important step toward breaking the cycle of divorce.

The UK Pesticide Guide 2017 has seven new active ingredient profiles. Two are confirmed as available in 2017 while five are currently only listed as Products also Registered (PARs). The two available are: - cyantraniliprole for insect control in head-

ed brassicas - halauxifen-methyl +/- fluroxypyr for broad-leaved weed control in cereals. The five awaiting confirmation are: - buprofezin for insect control in protected Solonaceae - pethoxamid for weed control in grain maize and winter oilseed rape - Pepino Mosaic Virus for suppression of viral diseases in protected tomatoes - Pythium oligandrun M1 for disease control in spring barley, wheat, and oilseed rape - Tembotrione for weed control in maize and sweetcorn. In addition, hazard precautions have been upgraded, and the roll out of extended buffer zones for some products continues with many products re-approved under new MAPP numbers. There are also: - Seven new herbicide profiles-- four in the main section and three as PARs - Eight new fungicide profiles-- six in the main section and two as PARs - One new plant growth regulator (PGR) combination and one new molluscicide. The main section of the guide no longer includes eight herbicide profiles (tepraloxym approval expires 30/11/ 2016), 17 fungicides (including prochloraz), four insecticides, and one PGR.

The story behind 'My Island Home' is that it was written by a white man for a black man and the black man sang it like it was his own. That doesn't sound like much but in the context of Australian history it represents the crossing of a mighty gulf. Aboriginal people sing 'My Island Home' like it's theirs. White people sing it like it's theirs. People in Australia who have come from other countries, other cultures, sing 'My Island Home' like it's theirs. That's what makes it such a great song.

This is a compilation of essays and humorous stories about country folks and their values from syndicated columnist Lee Pitts.

The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, Steak is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

He was the world's greatest athlete, and a hero—until his medals were taken away. Stosh is shocked when his enemy, Bobby Fuller, begs him for a favor. He wants Stosh to take him back in time to meet Native American Jim Thorpe—an Olympic champion who lost his medals in a scandal. Thorpe went on to play professional baseball and football, but he could never again achieve such fame. His name was disgraced. Join Stosh and Fuller on a quest to save Jim's reputation. This is a complete "Intro to Airbrushing" course in a workbook form. A classroom in a book! There is only so much an airbrush can do - dots, lines, daggers, and shading. We introduce each skill in a logical and exciting way. In our book, each skill is cumulative, so grasping each technique is easier than tackling them out of order as you would if you were self taught and left to sift through a cluster of internet information that is not necessarily correct. Our method is successful, because we have taken the entire contents of an Intro to Airbrushing class, and made it into a workbook... yes a WORKBOOK! The skills are introduced in an interesting way, and each lesson has a corresponding workbook page that can be practiced over and over until you are proficient at each skill! There has never been anything like this before! With over 50 lessons, you will master each skill and work up to the four beautiful and challenging final projects. We cover all the basics that you need to know to get set up in airbrushing: types of airbrushes, compressors, paint, substrates, etc....even how to properly hold an airbrush and how to clean it. We are so thorough and innovative, we have earned the endorsement of Anest Iwata-Medea, Inc., the maker of the best, and our favorite, airbrushes! A course like this costs hundreds of dollars just for tuition if you were to attend a workshop. With travel and lodging, you can spend thousands of dollars for just ONE course. With this book, you get the same content but are free to take it at your own pace. This is an excellent way to introduce airbrushing into your skill set and develop a life-long passion and income source.

By far the biggest change to The UK Pesticide Guide in 2020 is the loss of a number of active ingredients that have been fundamental to many crop protection programmes. The final use-up of chlorothalonil formulations; propiconazole, fenpropimorph, chloridazon and diquat occurs in 2020 but there are also a few exciting new additions. Aclonifen is a new residual herbicide for use in potatoes that already has a number of EAMUs for use in minor crops. BASF is launching its new triazole, mefentrifluconazole, which promises to restore full triazole activity, at least initially. On the insecticide front the new active ingredient from Corteva agriscience, sulfoxaflor, is now listed for use in Cucurbi-

tae and ornamentals under full protection for control of aphids and whitefly.

Examines marketing in terms of product, price, place, promotion and people.

"Cows send out signals continuously about their health, well-being, nutrition, and pro-

duction. The challenge for the dairy farmer is how to interpret these signals and use them. Dutch vet and cow enthusiast Jan Hulsen has drawn on his expertise and wide experience of cows and dairy farmers to write *Cow Signals*: a richly illustrated farmer's guide on how to interpret the behaviour, posture and physical characteristics of groups of cows and individual animals. When observing cows it is important not to jump to conclusions immediately, but instead always to ask yourself three questions: What do I see? Why has this happened? What does this mean? If you

know what to look for, you can pick up the signals everywhere and any time. *Cow Signals* will show you how"--Back cover note. Compounded with the emergence of information technology, information services have become more complex. In order to break the bottleneck in providing information services, the information behavior of the user community must be studied and library staff must be effectively trained to identify, adapt, and satisfy the information needs of every type of information seeker. *Innovations in the Designing and Marketing of Information Services* provides emerg-

ing research exploring the theoretical and practical aspects of improving and expanding information resources and services in a cost-effective way and enables librarians to plan and present information services for the betterment of civil society. Featuring coverage on a broad range of topics such as e-resources, knowledge ethics, and user-friendly technology, this book is ideally designed for librarians, information scientists, behavioral scientists, information technologists, marketers, marketing executives, academicians, researchers, and students.
