Industrialization, Migration and Urbanization

The industrial revolution has tended to produce everywhere great urban masses that seem to be increasingly careless of ethical standards. - Irving Babbitt The period between the second half of the 18th century and first half of the 19th century was the time when the entire world witnessed a great transition from muscle power to machine power.

Tenements are designed to house many families, and they sprang up in urban areas as a result of mass immigration. The Lower East Side Tenement Museum in New York documents the life of people who lived in this crowded, dark and unsanitary type of housing.
