A Job Family is a group of job functions that involve work in the same general occupation. These jobs have related knowledge requirements, skill sets, and abilities. Finance and General Services are examples of families in UC-SC's job structure. A Job Function is a more specific occupational area within a job family. In a job function, the same or relatively similar work is performed, a similar skill set is required, and it is possible to move within the family with minimal training.

~~Job Family Modelling - Ko~~

~~rn Ferry~~

Job family modelling is a practical way of analysing, understanding and measuring a logical grouping of roles within an organization and how work changes at each level within that group. It's an approach used by many large multi-nationals because it's easy to explain and apply, it reduces the need for individual job descriptions and evaluations, and it offers flexibility and efficiencies during organization restructurings.

The Job Family Model also supports the key priorities for APS reform outlined in the Independent APS Review; in particular the goal of transforming the APS into an "employer of choice". The Job Family Model supports this goal by facilitating Workforce Planning, Talent Management and Career Development. Guiding Principles The APS Job Family Model aims to: Effectively articulate specific roles for practical application in Workforce Planning and organisational operational management.

A job family is a group of

roles that is similar in character, where the role holders are engaged in broadly similar work, or have broadly similar objectives. It describes career groups at a number of different levels, reflecting differences in grades. All the job families are underpinned by the same job evaluation methodology.

A job family is defined as a series of related job titles with progressively higher levels of impact, knowledge, skills, abilities (competencies), and other factors, providing for promotional opportunities over time. Key Elements of Job Family Title Series ~~Job Family Modeling Yg Hay Group~~
