This comprehensive casebook is intended for a broad survey course on commercial law. This edition includes transactions under the Convention of International Sales of Goods. This book is built around carefully selected and edited cases, author notes, and selected problems. Though including landmark cases, the authors emphasize cases decided since 1990. These newer cases offer both a more sophisticated discussion of problems than usually found in earlier cases, as well as more current analyses of Code ambiguities and conflicting approaches to certain Code sections. Each chapter begins with advice on reading the relevant sections of the UCC and Convention of International Sales of Goods, making the statutes more understandable for students. Major topics covered include Underlying Code Principles, Sales, Commercial Paper and Electronic Transfers, Banking and Bank-Customer Relations, Documents of Title, and Secured Transactions.

A guide to restoring John Deer two-cylinder tractors that provides information on cosmetic restorations and reworking transmissions and drivetrains, engine systems, mechanical components, and more.

This DIY guide to maintenance and repairs presents 30 projects that will help the reader keep his or her tractor in top running order, written to apply broadly to 1960s- and 1970s-era tractors, as well as the newer models that today's small-scale and hobby farmers are likely to own. In addition to basic preventative maintenance, the book features projects that are organized by vehicle system. Each project is accompanied by a sidebar detailing the time, tools, money, and skills necessary to complete the project, as well as what benefits the reader can expect after completion.

Finally! A restoration guide with the kind of detail needed for a first-class job.
